XANTHUS' SCAR.

"Yes," said the colonel, giving his sword the reminiscent draw, "that is an ugly scar Xanthus has across his face, but though he has seen action and proved himself as brave as a lion he didn't get that wound in battle."

The boys who knew the colonel's story telling abilities drew their chairs closer and put themselves into a listening attitude.

The old man drew his cigar again and went on: "We were camped at a small town near Lexington that week. It was near the end of the war, and while we had not been doing much fighting for a month or more our marching had been rather continuous and arduous. Xanthus then was a lieutenant in the Fifth Infantry, and a braver or more daring fellow never wore the blue. He was the envy of all the young officers and the idol of the soldiers. He had the manners of a Chesterfield and the daring of a Robin Hood. And it was the combination of these two qualities that got him into trouble and brought him the scar that makes him look so fierce and military."

"Near where we were camping was the mansion of a wealthy old Kentucky farmer, a supposed Unionist, but who really was in sympathy with the Confederacy. In addition to other very desirable commodities, he possessed a pretty young daughter, and from the first time that Xanthus saw her it was all over with him. He fell desperately in love and availed himself of every opportunity to go up to the big house, as we called it. And it wasn't long until the little Venable girl—Venable was her father's name, David Venable—it wasn't long till she was as much in love with Xanthus as he was with her."

"Those who were on the inside watched the affair constantly and wondered how it would turn out. The little girl had a couple of brothers, who, for the sake of policy, treated Dick Xanthus' visits with respectful consideration, but they weren't blind, and they hated him in his blue uniform as the 'devil hates holy water.' They were big, braving fellows who were only stay at home bachelors. Their principles would not let them enter the Union army and their own and their father's interests kept them out of the Confederate ranks."

"Finally, one day when the little girl was going on this way for some time, Dick Xanthus came to go outside the lines that night, and it is my impression that he has gone to the Venable house to carry off the daughter of that household as a bride. Now, whether his action is right or not, it is not for us to say, but a man in love is liable to encounter great dangers in accomplishing his end. But," said the colonel, with a twinkle in his eye, "all this is neither here nor there and is of no consequence to you. My purpose in assembling you together is to send you out as a reconnoitering party. Go out and reconnoiter, no matter where or what. Don't do anything rash, but should you happen to find any soldier or officer of the United States in danger give him protection."

"The colonel turned to his writing, and we knew that he had received our orders. Not a man who did not understand, and we turned away with smiles on our faces and a great thrill of sympathy in our hearts for the comrade who was braving danger alone for the sake of the girl that he loved."

"It was the work of but a few moments to swing into the saddle and go galloping away in the direction of the Venable household, where we knew our reconnaissance would be most valuable."

"It was a cold, clear night, one of the kind that puts spirit into a man and makes him feel like bounding over the ground. We were a light hearted set, happy as could be in our mission, and we laughed, chatted and joked as we galloped along under the bright starlit skies."

"Stetson was just remarking: 'Well, there don't seem to be much use for a reconnoitering party tonight. Here's one place where the course of true love seems to run smooth,' when the clatter of horse's hoofs broke upon our ears."

"We looked upon our pace to the edge of a clump of poplars that commanded a view of the road. Even before we saw his flying horse and his face gleaming in the moonlight we knew instinctively that it was Dick Xanthus, and that he was in trouble."

"We saw that his horse was carrying double, and we smiled even as we halted and drew our sabers, for the noise of pursuers sounded close upon the clatter of his horse's hoofs. But, thought we, he will soon pass our line, and then we will flash out and put his assailants to flight. We wished to take no rash measures."

"On they came, pursuer and pursued. The lieutenant was very near us, and we could see him looking down into the face of the little Venable girl, when, to our surprise, what should he do but whirl suddenly and go charging back straight into the face of his pursuers."

"It was all done in a moment. We saw his saber flash upward. Then we heard a woman scream, 'Don't kill my brother!' and saw the saber lowered. Then there was a flash of another steel, and Xanthus dropped from his horse, just as we dashed up and surrounded the two Venable boys."

"The girl was on the ground beside her lover, weeping and trying to stanch the flow of blood, while her brothers stood by, mad enough to end it all with her, but we took them all safe into camp. Of course, we couldn't do anything with the fellows. They were only protecting their own. But they had to consent to the marriage of their sister with Xanthus, for, as you know, he did not die of his wound."

"A saber stroke—did you say? No; that's the unromantic thing about the whole affair. A saber stroke would have had our lieutenant with a big corn knife."

—St. Louis Republic.

Origin of the Salvation Army.

General William Booth originated the "Salvation Army" in 1878 after having been engaged in evangelical work for 17 years. The first name of this religious organization formed on military lines was "The Christian Mission," started in 1865 by General Booth.

HEMMINGWAY'S TALE

Hemmingway, Mac, the doctor and myself were in one of the back rooms of the club one night, when Hemmingway told us:

"You remember Tommy Masters, don't you?"

"Yes," said Mac; "real pretty boy, with a limited number of ideas. Heavy on spouting Shakespeare and light on all points of judgment and moral principle."

"Exactly. Came home from college and married Marian Westly and moved down to Coalfield, where his father has mines. Had been engaged to the girl long before he went away."

"Was he, though? I never heard of that before," said the doctor. "I used to wonder what made the Westly girl stay out of society."

"Yes; she thought a pile of Tommy. It was a kind of family arrangement all around. Marian Westly was a good girl, one of those thoroughgoing, substantial, homelike bodies who will always keep a hearth bright and know a dozen recipes for a turpentine liver or a bad cold. A thousand times too good for Tommy Masters, as I know now and suspected then."

"It seemed to me that at this point Hemmingway barely caught and held back a sigh, but he continued steadily."

"Well, Tommy came home from college and staid around the store a good deal. You remember his father owned stock with us then. He drew his allowance regularly, and I used to help him out when he ran short before the 1st. One day he came to me, looking very serious. He said he wanted advice, and took me into a little room up stairs, where none of it would get away. I always liked the boy somehow. He was good natured and fresh looking, though rather light on ideas, as Mac says."

"Well, he told me a long story, and the upshot of it was he wanted to get out of his engagement with Marian Westly. He had met another girl while he was at school, a regular stunner, he said, and the photograph he showed me was of an uncommonly pretty girl, I must admit—a round faced, curly headed little creature, posed like an actress. He had met her at private theatricals and had done 'heavy business' to her M'iss. He was always staggerted, as Mac says. He said that he was 'dead gone' on her, and from parts of a letter which he showed me I judged that the 'gone' business was mutual."

"They had arranged matters for the future beautifully. She was only 17 and was going to adopt the stage as a profession, and he was to do likewise. They would join forces in due time and win fame and fortune together."

"I ransacked the different corners of my head and raked out all the things I had been reading about the tawdry tinsel of the stage and the unhappy marriages among the profession as contrasted with the substantial benefits of a quiet home and a solid business, and I put them at him as strong as I could. I told him that the girl might be pretty, but that I was sure she was frivolous and not worth a finger of Marian Westly; that she was also enough of a flirt with it, but when a man married he wanted a woman who would make his home cheerful, be a mother to his children and a comfort to his parents in old age."

"I could not help wondering at this point why Hemmingway, with such generous ideas of marriage, had himself remained a bachelor, but I said nothing."

"Well, go on, old man. What next? He took your advice and married the Westly girl?"

"Yes," said Hemmingway, "he did, more's the pity. He wrote and broke off with Little Nell, as he called her, and moped around the store for a week or two, looking at me reproachfully whenever I passed him. He got over it, though, when he went out to Colorado trout fishing, and married Miss Westly and settled down in Coalfield that fall. I thought everything would be all right then, and it was, I guess, for a time. Then the other girl went on the stage and made a great hit in New York. Tommy heard of it and was wild. He saw a picture of her in some paper and a flash article about her beauty and talent. His highest ambition had always been to be the husband of that kind of a woman."

"He came up one day and brought the article along, and as soon as we were alone together began to abuse me for, as he put it, having ruined his life. I don't know what I said. I didn't say much. I was too badly taken down. Then, about six months afterwards, his wife came up to see me. She had found out all about the other girl and was sure that Tommy still loved her. I half suspect that Tommy himself had told her as much. She was sure Tommy had letters from the woman, and she feared that he answered them in secret. She was very unhappy. What should she do?"

"I wanted to tell her to go home to her people and let that young dunces go to the devil, but I didn't, and I believe I hatched up some kind of a lie about Tommy's being young and would no doubt come around all right before long. She went back, and I haven't heard of them since."

"There was a moment's pause, which was broken by the doctor."

"Well, Hemmingway," he said, with an air of one who has something of importance to tell, "you can set your mind at rest on that score. I came through Coalfield yesterday and saw Tommy, and he took me out to see his wife and a weak old baby. They are as happy and contented as doves, and he is the proudest daddy you ever saw."

"What," interrupted Hemmingway, "you don't say so?"

"Yes, and, as to that actress business, I got an inkling of it when he was up here, and yesterday I pumped him—perfectly easy, of course. She was married six months ago to an old man who has already had two wives and has been following her around ever since she came out. Tommy's altogether disgusted with the stage and tending to business like a man."

"Well, well," said Hemmingway, "praise him from whom all blessings flow!"—Brooklyn Eagle.

A Refined Taste.

"Culture" repeated the cannibal something scornfully. "Have any culture? Why, I tell you we're getting so cultured we don't like to have anything on our tables but French missionary. Cultivated? Well, rather."

The wind at the moment managed to execute a faint sigh in the top of a cocoa palm not far away.—Detroit Tribune.

One View of It.

"Say, what is this social settlement idea?"

"It's like this—you're a good fellow, you know?"

"Yes?"

"Well, you go and live in a tough neighborhood, and you'll see a darn sight better than you really are."—Chicago Record.

WILD With Eczema

I was a sufferer for eight years from Eczema, but now am entirely cured. The palms of my hands were covered and badly inflamed; little white blisters appeared, then would peel off, leaving a red, smooth surface, which would turn like fire and ice. On the inside of the upper part of my limbs, great red blotches would appear, and as soon as I became warm, the burning and itching would begin. Night after night would lie awake and scratch, and almost go wild. I got a box of CUTICURA, and a bottle of CUTICURA REMEDY, and after a few applications I noticed the redness and inflammation disappear; before I had used one box there was not a sign of Eczema left. I can truthfully assert that \$2.00 worth of CUTICURA REMEDY cured me.
