Morrison's "Faust" Tonight. An attraction of which much has been heard is Morrison's famous production of "Faust." This will be seen at Parker's opera house tonight. The presentation is notable, aside from the excellence of the company, for its employment of a series of stage effects. Electricity comes into play throughout the production. A cross starting into light by the church wall daunts the fiend amidst his loudest boastings. Flowers leap into glowing blossoms in the scene where Marguerite gives herself to her lover. But it is in the Brocken scene that the scene of "light effects" is attained. Fierce dragons pass through the air, leaving a train of sparks behind, and a veritable cataract of fire descends at the close between the uncanny people of the Sabbath and their illumed chief on the mountain peak above. The Morrison dramatization of Goethe's legend is ascribed to Mr Bayle Bernard, of London, and follows the original more closely than other versions which have been seen. The company is carefully selected and the engagement will undoubtedly prove very profitable. PLEASANT SURPRISE.—A pleasant surprise was given Miss Persis Huff by a number of her friends at the home of her parents, Mr and Mrs Scott W Huff, in Fairmount yesterday afternoon. All brought well filled baskets and after games were indulged in an excellent lunch was served after which all departed for their homes, each expressing themselves as having had a very pleasant time. Among those present were: Misses Nannie and Gertie Lamb, Florence Holloway, Essie Nichols and Marie Barker. NOT PROFESSIONALS.—A letter written to E E McClanahan, of this city, by Mr Geo D Gideon, chairman of the L A W racing board, states that the names of Mr McClanahan and Mr Al Kaykendall do not appear on his list of professionals and that publishing them as such in the "Bearings," an organ of the L A W, was an error. This is gratifying news to the boys, as should they be classed as professionals, they would be barred from entering all amateur contests. Morrison's "Faust" Tonight. An attraction of which much has been heard is Morrison's famous production of "Faust." This will be seen at Parker's opera house tonight. The presentation is notable, aside from the excellence of the company, for its employment of a series of stage effects. Electricity comes into play throughout the production. A cross starting into light by the church wall daunts the fiend amidst his loudest boastings. Flowers leap into glowing blossoms in the scene where Marguerite gives herself to her lover. But it is in the Brocken scene that the scene of "light effects" is attained. Fierce dragons pass through the air, leaving a train of sparks behind, and a veritable cataract of fire descends at the close between the uncanny people of the Sabbath and their illumed chief on the mountain peak above. The Morrison dramatization of Goethe's legend is ascribed to Mr Bayle Bernard, of London, and follows the original more closely than other versions which have been seen. The company is carefully selected and the engagement will undoubtedly prove very profitable. PLEASANT SURPRISE.—A pleasant surprise was given Miss Persis Huff by a number of her friends at the home of her parents, Mr and Mrs Scott W Huff, in Fairmount yesterday afternoon. All brought well filled baskets and after games were indulged in an excellent lunch was served after which all departed for their homes, each expressing themselves as having had a very pleasant time. Among those present were: Misses Nannie and Gertie Lamb, Florence Holloway, Essie Nichols and Marie Barker. NOT PROFESSIONALS.—A letter written to E E McClanahan, of this city, by Mr Geo D Gideon, chairman of the L A W racing board, states that the names of Mr McClanahan and Mr Al Kaykendall do not appear on his list of professionals and that publishing them as such in the "Bearings," an organ of the L A W, was an error. This is gratifying news to the boys, as should they be classed as professionals, they would be barred from entering all amateur contests. Beware of Quinins for Catarrh that Contain Mercury. as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. THE TOURNAMENT.—The committee appointed from the various fire companies to perfect arrangements for a firemen's tournament met last night and organized by electing Wm McGee president and G W Griffin secretary. A committee of four, consisting of Wm Mayer, Wm Hodes, J B Beavene and T W Jenkins, was appointed to solicit funds for the prizes to be offered. The time of holding the tournament was placed for July 2, 3 and 4. LOST.—A black cashmere shawl, in this city last Friday. Finder will please return same to this office. Democrat Committee Called. The members of the Lane County Democratic Central Committee are hereby called to meet at Eugene on Friday, the 24th day of April, A D 1896. There is important business to come before the committee for action; hence a full attendance is very desirable. Dated at Junction City this 14th day of April, 1896. ROBERT CLOW, Chairman of Committee. Fourth of July Meeting. A meeting of the citizens of Eugene is hereby called to appoint a committee to act in conjunction with the Firemen's committee appointed last evening, for the purpose of taking means for the proper celebration of the coming Fourth of July, on Wednesday evening, April 22, at 8 p m, at the court house. Everybody invited to attend. MANY CITIZENS. THE FALL CREEK SAWLOGS.—J I Barbre and Mr Renfro arrived here this morning, having come down the river from Fall Creek in a boat. They state that altogether over a million feet of sawlogs went down the river during the recent freshet. About 600 or 700 of these logs belonged to the Trent company and escaped from Lost Creek. Messrs Renfro and Barbre counted the logs lodged in the river as they came down and report 1353 between Fall Creek and this city. Unless another sudden rise in the river should occur these can be saved. Mr Barbre continued down the river in a boat as far as Harrisburg today and will try to make arrangements with the Harrisburg Lumber Company to take what logs are lodged between this place and that city. We Can't Last Forever. But we may prolong our continuance on earth by keeping in good working order the physical organs which providence has vouchsafed to us. Among the more important of these is the liver. Either through neglect or provocation, let this great secretive gland remain in or get into disorder, and you will soon find an astute change in your complexion, you will feel very uneasy in your right side or under the right shoulder blade, your tongue will take on an unreasonable coat of fur, such headache and nausea will ensue. Don't resort to a powerful purgative, but begin and pursue a course of Howlett's Stomach Bitters. Then you will get well speedily and thoroughly. This great remedy for biliousness also relieves and cures malarial and kidney complaints, constipation, incipient rheumatism, dyspepsia and the infirmities begotten by an enfeebled condition of the system; it promotes sleep and a tranquil state of the nervous system.
