Entered as second-class matter at the Eugene, Oregon, postoffice.

SATURDAY, - - JUNE 13, 1896.

Tom Reed is still a candidate for the presidency at St. Louis. He should muzzle his alleged friend Manly.

Indications point to a larger attendance than ever this year at the commencement exercises of the University of Oregon in this city.

The Fourth of July committee is an active one. Our celebration is being widely advertised all over the Willamette valley, and this means that thousands of people will spend July 3rd and 4th in Eugene.

Chicago Record: "What do you think of the bicycle craze?" "Great thing! I never took so much exercise before in all my life." "Why, I didn't know that you were riding?" "I'm not, but I have to cross the street once in a while."

Salem Journal, Rep.: "Pennoyer's head is level. He says the Populists themselves are to blame for the defeat of Vanderburg. If his suggestion had been carried out Myers and Vanderburg would have been withdrawn and Waldo nominated, then Tongue would have been so badly beaten there would have been no cry of 'counting out.'"

Greater New York has at present a population of about 3,250,000, making it the second city in the world in respect to numbers. Should the present rate of growth be maintained she would have in 1945 a total population of about 10,000,000. The population of the united cities is now greater than any of the states, with the exception of New York, Illinois, Ohio and Pennsylvania.

"Just as the twig is bent the tree is inclined," has again been forcibly illustrated. Miss Maud R. Ingersoll, daughter of Colonel "Bob" Ingersoll, is an unbeliever, like her sire, and in a New York police court the other day refused to take the oath on the Bible, saying that she did not believe in it, and was allowed to affirm. But she won her case against a truckman, whom she charged with ill-treating his horse.

We find the following astonishing editorial in the Register: "Pennoyer is as clever an old rascal as was ever left outside the Oregon penitentiary. He may again cut quite a figure in Oregon politics before many moons." Sylvester Pennoyer is an honest man and the people of Oregon admire and have confidence in him. He is blessed with some crankisms that do not harm the integrity or honesty of the man.

It is generally conceded that the Chicago convention will be out and out for free silver. Julius Chambers, the Washington correspondent of the S. F. Examiner said a few days ago: The administration abandons its money fight and surrenders the Chicago convention to free silver. The gold democrats in Washington are with one or two exceptions, administration men, and they steadfastly refuse to discuss the situation. Secretary Carlisle confesses overwhelming defeat. He will not talk for publication, but it is known he is disappointed and humiliated. He re-

gards the verdict of Kentucky as retiring him to private life. He said today that if he held a commission from the state of Kentucky he would promptly resign, but as he holds office under federal authority he intends to serve out his term. The administration based its contest for sound money on Carlisle and Kentucky.

A late Toronto paper compares the prices paid for produce between Toronto, Canada, and Chicago. If its figures are correct, they present a state of things that should startle every live American citizen. Here they are:

Table with columns for Toronto and Chicago prices for various commodities like Wheat, Rye, Oats, Barley, Butter, Eggs, Potatoes, Sheep, Lambs, Fat cattle, Hogs, and Veal.

Commissioners Court.

In the matter of the claim for damages by Chas I Gorrie for location of county road. At this time the court considered the claim for damages of Charles I Gorrie caused by the location of the H D Edwards road in township 18 south, range 2 west, through his premises, the same was not allowed for the reason that said claimant was a petitioner for the location of said road.

In the matter of the H D Edwards road in tp 17 and 18 s, r 2 w. At this time this matter came on for further consideration and was read the second time and having been continued from the May term, and the claims for damages having been disallowed, it is therefore ordered by the court that the prayer of petitioners be allowed and it is further ordered by the court that said road be and is hereby declared a public highway as prayed for, and the supervisor through whose district said road is located is ordered to open the same and place the same in good condition for public travel.

The Indian medicine man cures by charms and incantations. He frightens away the "evil spirit" who causes the sickness. He does all sorts of things that civilized people would call idiotic and barbaric, but the civilized folks are not so very much ahead after all. They do just as does the medicine man. They go along carelessly, and allow the little sickness to grow into the big sickness. They allow constipation to grow into indigestion, heartburn, dizziness, headache, insomnia, and a hundred other distressing conditions. They do this frequently because they do not know the cause of their trouble. It is a pretty safe rule to look for the source of 9-tenths of human sickness in this one simple and appallingly prevalent trouble. Another foolish thing that smart people do is to take some alleged remedy for constipation and keep on taking it, day after day, month after month and year after year. Perhaps it is better to take the medicine than not to take it at all, but of course if they stop taking it, their trouble will come back. This last statement is true of every other medicine prepared for this purpose except Dr. Pierce's Pleasant Pellets. One "Pellet" is a gentle laxative, and two a mild cathartic. They are gentle and efficient in their action, permanent in their results. You don't become a slave to their use, as with other pills.
