FOR THE LEADING BRANDS OF  
**CIGARS and TOBACCO,**  
Confectionery, Nuts and Soda Water.  
—FRUITS IN SEASON.—

Last summer one of our grand children was sick with a severe bowel trouble. Our doctor's remedies had failed, then we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave very speedy relief. We regard it as the best medicine ever put on the market for bowel complaints.—Mrs E G Gregory, Frederickstown, Mo. This certainly is the best medicine ever put on the market for dysentery, summer complaint, colic and cholera infantum in children. It never fails to give prompt relief when used in reasonable time and the plain printed directions are followed. Many mothers have expressed their sincere gratitude for the cures it has effected. For sale by Osburn & DeLano.

COOK'S COTTON ROOT COMPOUND; a recent discovery. At YERINGTON'S drugstore.

**Creamery Butter,**  
CRAIG'S CREAMERY,

Also nice sweet Cream and good fresh Buttermilk.  
Leave orders for cream the evening before or early in the morning.  
Call at the creamery and examine products.  
**S. E. CRAIG & SON,**  
Proprietors.

### THE BEST SPRING MEDICINE

Is SIMMONS' LIVER REGULATOR—Don't forget to take it. The Liver gets sluggish during the Winter, just like all nature, and the system becomes clogged up by the accumulated wastes, which brings on Malaria, Fever and Ague and Rheumatism. You want to wake up your Liver now, but be sure you take SIMMONS' LIVER REGULATOR to do it. It also regulates the Liver—keeps it properly at work, and your system will be free from poison and the whole body invigorated. You get THE BEST BLOOD when your system is in A1 condition, and that will only be when the Liver is kept active. Try a Little Remedy once and note the difference. But take only SIMMONS' LIVER REGULATOR—it is SIMMONS' LIVER REGULATOR which makes the difference. Take it in powder or in liquid already prepared, or make a tea of the powder; but take SIMMONS' LIVER REGULATOR. You'll find the RED Z on every package. Look for it.  
**J. H. ZOLLER & Co., Philadelphia, Pa.**

#### Personal.

L N Roney went to Cottage Grove this afternoon.  
Miss Stella Dorris returned today from a visit at Portland.  
O L Wood and Leonard Brown left today for San Francisco via Yaquina.  
Miss V E Adair went to Newport this morning where she will spend a month.  
Mrs L Gilstrap and daughters and Mrs Campbell and family are recreating at Sodaville.  
Miss Dottie Sovern went to Cottage Grove this afternoon to visit with friends for a few days.  
Mrs R L Willoughby has gone to Blue river where she will join her son who is camping there.

Master John Hayes of Portland is visiting with the family of his aunt Mrs Phil Miller, in this city.  
Miss Jessie Gillfillin, who attended the U of O during the past year, left today for her home at Union.  
Mrs N K Frazer and little daughter went to Linn county this morning to visit her brother Bolliver Cogswell.

Judge Potter left this morning for Lorane to examine into some bridge matters. He will return tomorrow.

Miss Lola Howe went to Salem today to visit with relatives. She will also visit the seaside before returning home.

Bert Vincent and wife, Miss Nora Luckey and Charley Davis left this morning on a pleasure trip to Blue River.

A Todd and daughter arrived home at Cottage Grove from Portland yesterday having ridden down and back on bicycles.

R M Day and B E Bristow left for the Blue River mining district and the upper McKenzie on a prospecting trip last evening.

Mrs S Conser and daughter, Miss Gertrude, arrived from Portland on the afternoon train and will visit with Eugene relatives.

Miss Becca Meyerstein, of San Francisco, arrived here today and will be the guest of her uncle and aunt, Mr and Mrs A Goldsmith.

Editor Thorpe was down from Cottage Grove today. Mr Thorpe is still in charge of the Leader, although the paper has been sold by him.

Arthur Comegys, who has been acting as operator and station agent for the S P Company at Sheridan for the past six weeks, arrived home this morning.

Mr and Mrs Jos Luckey, Dr and Mrs F W Prentice and John Gray are visiting their homesteads on the Coast Fork. J H West went up this afternoon to join them.

Miss Cella Goldsmith came up from Oregon City today to visit at home. She was accompanied by little Miss Freida Goldsmith, who has been visiting at Oregon City and Miss Bertha Roseburg of San Francisco, who will visit with her cousins, the Misses Goldsmith.

Mr and Mrs Cliff Cleaver formerly residents of this city, but of late years, residents of Pendleton, where Mr Cleaver is engaged in the shoe business, arrived here from Cottage Grove this morning. They reached Cottage Grove last Friday, having come across the mountains by the McKenzie route.

#### Our Mines.

Mr Geo A Dyson, of Brownsville, has a two column article in yesterday's Oregonian, mostly relating to a visit with H L Hotchkiss. Referring to the Santiam mines he says: "So far \$120,000 in gold has been spent in the Santiam, and the ledges are just beginning to get fairly prospected enough to begin to show their value, and the deeper the workings the better the ore gets. So the all-important question as to whether the ledges in the Cascade range go down or not is fully settled, and we now look for all the camps from the Clackamas on the north to the Bohemia district on the south, to take on new life from this time forward."

Among other things Mr Hotchkiss said to him: "Why, look at the timber here. I thought I had seen some fine timber in Michigan and Wisconsin, but I find that when I come to see the timber in Oregon and Washington I come to the conclusion that I know nothing about timber at all. This is far ahead of anything I have ever seen in my life before. Then your hops grow healthier and larger than in the East, where I live, and your grain excels ours both in quality and quantity; your salmon fisheries are superior to anything in the world, and when it comes to fruit, what shall I say?" and he paused for a reply, and then taking up the thread of his conversation again, he said: "And your mineral wealth is, as yet, I might say, almost untouched. I have just returned from the Santiam mines in this county, and it is truly wonderful to see the amount of gold ore in sight up there, and I learn that you have a new mining district called, I believe, Blue River, that is just beginning to develop. Mr Lawler tells me of a mine there called the Lucky Boy, that for the amount of work done far exceeds anything in the Santiam district."

#### Drowned Near Lebanon.

Monday's Albany Democrat: "Jos Kibler, a son of Mr Ed Kibler, residing this side of Lebanon, near the Santiam, was in bathing yesterday opposite the Moist farm, when he got caught in a whirlpool, strangled and went down. His companions, who were with him, made every effort possible to rescue him, but without success. His body was recovered and the funeral services took place today. The deceased was a young man about 20 years of age and has a good many friends who will mourn his death.

"All the young men are reported to have been poor swimmers. Kibler was afraid of the water and his companions are said to have jokingly dragged him into the river, which is twenty or thirty feet deep only a few feet from the shore. He strangled and they were unable to help him out."

THE EFFICACY OF ANTITOXINE.—Philadelphia Record: The most emphatic testimony which the medical profession of the new world has yet given to the efficacy of antitoxine, the new therapeutic remedy, is contained in the report of the Pediatric Society at its recent annual meeting in Montreal. Six hundred physicians, practicing in the most widely scattered cities and villages of the United States and Canada, have their returns therein summed up. The consensus of these experiments with the antitoxic serum, covering 5794 cases, shows a death rate of only 12.3 per cent. If certain long delayed cases should be excluded this percentage of mortality would be reduced to 8.8. The cases with a three days' limit show a death rate of only 7.3 per cent. This is the highest testimony yet borne to the value of Dr. Behring's great discovery.

FROM NEW YORK.—Salem Statesman: Well known hop dealers in the East write that New York state will probably not produce over 60,000 bales this year, and they advise Pacific coast growers to care for their yards and not tie themselves up in contracts, and they assert that there will be plenty of picking money here next harvest.

FOR LARCENY OF BUGGY WHEELS.—John Spaw, of Irving precinct, has been arrested on the charge of larceny of four buggy wheels from Andrew Baker. The case has been set for trial in Justice Yates' court at 2 p m tomorrow.

Cottage Grove Leader: Mr C M Keep, a banker of Forest Grove, was a guest at the Sherwood house several days during the week, on his way to Grouse Mountain where he will take an outing in a camp where his son, George Keep is developing some mining property.

#### DESTROYED BY FIRE.

The Wallace Tile Factory at Creswell Burned.

Yesterday at 1 p m the only tiling manufactory in Lane county, owned by Rev C H Wallace and sons, and located at Creswell was destroyed by fire.

It seems that the burning of a kiln of tile had just been completed and the proprietors had gone away to let it cool off, when by means unknown, it took fire and was destroyed. It is thought that some of the tiling will be saved. Several brick moulds and three wheel barrows were also burned. The tiling machine was saved. The loss is estimated at \$1,500, with no insurance.

This is a hard blow on the gentlemen, as they are poor men and had all their means invested in the plant.

#### A Hot Weather Tale.

The East Oregonian places the blame for the following upon one Chas Wilkins:

"It was a piglet's tail which needed scratching that caused considerable merriment to those who were fortunate to witness the pigastrophe. Place, Pasco, where second only to the Yuma desert, old Sol concentrates his heat at a ratio of 16 to 1 (16 degrees of heat to 1 inch of sand), a number of piglets were sporting in a pond, adjacent the railroad track. One of them desiring to scratch himself in the locality of his caudal appendage, attempted to do so in the water, but was unsuccessful. Thinking, perhaps he could better perform the operation on the railroad, he forthwith proceeded to do so. Upon arriving on the top of the grade, the water still dripping from him, he placed the end of him which needed scratching on one of those over heated rails, when lo, steam began to arise, the piglet to jump and squeal and turn his head to find where the mistake had been made. The witnesses state that the affair was ludicrous in the extreme, and that the last seen of the piglet he was still sizzling. They forgot for the moment to keep their eyes on Pasco."

#### Unity Items.

There is considerable smoke caused by fire in the mountains.

Mr. Arthur Hartman and Miss Mary Luce were united in marriage recently, H F Hunnicutt officiating.

C H Hale, of Eugene, has moved his family to his ranch on Fall creek, where they will reside during the summer.

M E Edwards' school on Whitberry closed last Saturday.

Grain is ripening too fast owing to the hot weather which will make the yield small.

We notice quite a number of farmers using the Armstrong reapers this season.

The farmers should unite and build a farmers' warehouse and mill and give 40 lbs of flour for one bushel of wheat. It surely would be a good business as they would get all they could do.

R C Edwards has the contract for cutting 1,000,000 feet of saw logs for the Eugene Lumber Co.

There was no Sunday school at this place last Sunday on account of the scarlet fever.

U B quarterly conference at the Veatch school house next Sunday.

R C Edwards visited Eugene this week.

J W Cox went to Eugene this week to get an Armstrong harvester.

Miss Mary Cox came home this week from Eugene where she has been working. She will spend a few days here visiting.

Jesse F Holbrook was in this vicinity this week.

Tan bark is all the go in this community at present.

Cor.

Portland has a wood Sawyer 55 years of age. Bent with age and years of hard toil he still goes about the streets of the city seeking odd jobs of wood sawing. "It seems too bad," remarked a passer by a few days ago, as the old man was at work, "that in your old age you should have to work so hard." "Ah," replied the old man, "devil the bit does the work bother me, it's the findin' of it that comes hard."

Salem Statesman: Hon Harry B Miller, of Eugene, who will be invested with the presidency of the Oregon agricultural college on the 28th of this month, was a business visitor in the Capital City yesterday.

#### Brevities.

Ax Billy is hot. Read today's new ad.

J P Jones, of S P R R, is in Eugene today.

The southwest wind cleared away the smoke. A blessing.

C W Keene has resurged from a visit of several days at Cottage Grove.

Only a few days more left in which to consult Dr. Lowe about your eyes.

Albert Applegate left this afternoon for Scotts valley where he will spend the summer.

A Dolly Varden trout was caught at Belknap Springs last week, which weighed 14 pounds.

Teller and the other bolting republicans are out with a manifesto in favor of W J Bryan.

Attorney Markley has returned home from his Princville trip. He reports having had a pleasant outing.

M S Hubble started a four horse team to McMinnville today with a lot of Rev H L Boardman's household goods.

A thoroughbred Jersey heifer calf, five weeks old, weaned, for sale for \$5. For information apply at Young's meat market.

The thermometer registered 82 in the shade this afternoon, 10 degrees cooler than yesterday. The difference is quite perceptible.

H Wolf & Bro's store at Portland burned last evening; loss \$60,000. Insurance \$28,000. The building was also considerably damaged.

The Albany Herald says that Hon H B Miller will be chosen as president of the state agricultural college at the meeting of the board of regents on the 28th inst.

Pendleton E O Cleaver and Teutsch went up the river fishing Sunday. Aside from the trifling fact that they caught no fish, the trip was perfectly satisfactory.

Misses Jennie and Stella Anderson, Mary Lindley, Eunis Stewart and Della McFarland leave for Waterloo tomorrow morning where they will spend a month or more.

Mayor Pennoyer of Portland, has appointed the following commissioners: Police—S B Riggen, T M Richardson and Napoleon Davis; fire—R D Inman, Paul Wessinger and John Montag.

Doek Hesse, a miner, was brought down from Dave Wyoff's on the McKenzie last evening. He is suffering with an attack of typhoid fever and is now at the Minnesota hotel.

Cottage Grove Leader: Douglas R Ladd of San Francisco a grandson of John Knott, the man who thirty years ago, undertook the development of the Bohemia mines, has been visiting the scenes of his ancestors at the Knott mine. Mr Ladd's mother is the owner of the idle mine, and he is the heir apparent to the property.

An educational circular has just been issued by Superintendent of Public Instruction Irwin, which gives the names of those constituting the board of education and the board of examiners, a list of county superintendents and other valuable information relative to school matters. Dr C H Chapman, of the U of O, is a member of the state board of education.

Albany Democrat: Mr W W Rowell has returned from Belknap Springs, where he had an enjoyable stay. He was greatly pleased with the hot springs, 150° all the time regardless of shade. It brings all the badness out of a man when bathed in regularly. It is said that after a hard drinker gets through, the odor is strong enough to intoxicate a man. The streams are kept pretty well flushed out and most of the game is the small kind like cougars and bears.
