A SCATHING ANSWER TO THE EAST.

W. J. Bryan's answer to the eastern gold standard men in his speech before the Chicago convention:

"When you come before us and tell us that we shall disturb our business interests, we reply that you have disturbed our business interests by your course, have made it too limited in its application, that the business man who is employed for wages is as much a business man as his employer. The attorney in a country town is as much a business man as the lawyer in the great metropolis. The merchant at a cross-roads is as much a business man as the merchant of New York. The farmer who goes forth in the morning and tills all day, begins in the spring and tills all summer, and by the application of brain and muscle to the natural resources of the country, creates wealth, is as much a business man as the man who goes upon the Board of Trade and bets upon the price of grain. The miners who go a thousand feet into the earth or climb two thousand feet up the cliffs, that bring forth from their hiding places the precious metals to be poured into the channels of trade are as much business men as the financial magnates who, in a back room, corner the money of the world."

The change in the weather is a welcome one.

The ice man is the only happy individual these times.

Farmers report early wheat injured by the hot weather. Late grain is almost a failure.

Johnathan Bourne seems to hold the fort in spite of H. W. Scott et al. He is outspoken in favor of free silver.

The Cuban general Jose Maceo has been killed by telegraph again. When it comes to a multiplicity of lives the cat is not in it with him.

The prune crop is almost an entire failure. The only exception is the Petite variety which will bear a small percentage of an average crop.

The late ex-Governor Russell was the most prominently mentioned candidate of the gold standard wing of the democracy for president. He was but three years older than Bryan, thirty nine.

By all means Eugene should see that the proposed road into the Bohemia mines is constructed. The way to build up a city is to reach out and secure all the trade that she can possibly procure.

Many prospectors are at work this summer in the Blue River mining district. From the amount of work in this district the mines show up exceedingly well and experts one and all are confident that they will prove to be among the richest in the state.

Gold is being steadily drawn from the treasury. Another bond issue before the presidential election would be the finishing blow to McKinleyism. Cleveland and McKinley stand on the same bottom as is evident by the fact that Cleveland's closest political associates, so far as they have spoken, advocate his election.

Every person that can by any means afford it should take a vacation of a month during the summer. They will live longer and be better equipped for work when they return home to their business or avocation. It is a well established fact that the average American does not take the amount of recreation that he ought to. Lane county has some of the grandest natural resorts in the world and one can spend a month of outdoor living for an exceedingly small amount.

Colonel Richard W. Thompson, of Terre Haut, Ind., ex-secretary of the navy, was 87 years old on Tuesday. He is in perfect health, and was at the St. Louis convention at the head of the Indiana delegation. He is the only survivor of the Congress of 1841, and there are no members of previous congresses living. There are few living who served with Lincoln in the old hall of the house of representatives.

LOOKING AHEAD Golden Medical Discovery. It doesn't work miracles; but it does what other medicine can't do and what doctors say can't be done—until they see it done right under their noses—it cures consumption. Not always; to say that would be an exaggeration, but in a large majority of cases; in advanced cases which have been given up as hopeless.

The "Discovery" is not called a consumption-cure; it is a blood-maker. It gives energy to the blood-making organs to create new blood, full of healthy red corpuscles. This rapid supply of pure, rich, red blood drives out all diseases that have their roots in the blood: Consumption is one of these; scrofula, malaria, eczema, erysipelas, catarrh—are others. It is absurd to doctor them separately as lung, or skin, or head diseases. They must be driven out of the blood. You can rely on the "Golden Medical Discovery" to do this every time.

It is not a patent medicine. It is the perfected result of 30 years, practical experience by one of the most skillful physicians and eminent medical authorities in this country:—Dr. R. V. Pierce, Chief Consulting Physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

Dr. Pierce's tool page book, "The People's Common Sense Medical Adviser," reached the enormous sale of 60,000 copies at \$1.50 each. This enormous sale having paid him a fair profit on the great amount of labor and money expended in producing it, he is now giving away absolutely free 500,000 copies, the recipient only being required to mail to him, at the above institution, 21 one-cent stamps to cover cost of mailing only, and the book will be sent post-paid.

Foley Springs.

The Foley Springs health and summer resort has been refitted and refurbished and is now open to the public for this year's season.

The natural mineral hot water and steam baths are curative of rheumatism, kidney, liver, stomach, private and other complaints. The temperature of the water is 188 degrees.

These springs are situated in the heart of the Cascade mountains, 60 miles east of Eugene. Fine fishing and hunting during the open season.

Stages leave hotels of Eugene Mondays, Wednesdays and Fridays at 6 o'clock a m., returning on alternate days.

"A Scorcher." Battle Ax PLUG

Tobacco Dealers say, that "BATTLE AX" is a "scorcher" because it sells so fast. Tobacco Chewers say, it is a "scorcher" because 10 cents' worth goes so far. It's as good as can be made regardless of cost. For 10 cents you get almost twice as much as you do of other high grade brands.
