THE LONDON FINANCIAL NEWS.

We take the following editorial leader from Secretary of State Kincaid's paper, the Oregon State Journal:

The article credited to the London Financial News, which was, printed in these columns some time ago, was clipped from an exchange several weeks before any denial of its authenticity appeared. When it appeared in the Journal we was not aware that anybody doubted that it was authentic. Since then the gold organs have pronounced it a forgery and the bimetalists now assert that it did appear in that paper. As we have been unjustly criticised for publishing a false statement knowingly when in fact we supposed it to be true, we now give the latest version of the matter, telegraphed from Chicago, under date of Chicago, Sept 12, as follows:

Indisputable proof was received at National Democratic headquarters to day of the genuineness of an article which appeared in the London "Financial News" under date of April 30, 1894, relating to the reestablishment of bimetalism in the United States. The article in question declares that the remonetization of silver would ruin English trade and enable Americans to scoop Great Britain out of the world's markets.

The publication, a few weeks ago, of this surprising declaration by the "Financial News" by several American free-silver papers, aroused the Hanna combination to the pitch of despertation, and in their extremity they denied the authenticity of the article and purported to furnish a denial of the same by the editor of the "Financial News." This led to an inquiry in London as to whether the "Financial News" of that date really did contain such an article. In response to this inquiry the national democratic headquarters has now in its possession a certified copy of the article in question, clipped from the London "Financial News" of April 30, 1894 by the Durant Press Cutings, a responsible firm doing business at 157 Holborn viaduct, London, England.

The clipping in question is certified to have been taken from the London "Financial News" of said date, and includes not only the matter hitherto printed by the American papers, but also contains the entire editorial upon the same subject, which is entitled "England and the Silver Question." The following brief extract from the editorial indicates the sensational character of the entire article, and will prove a most formidable argument for the remonetization of silver in the United States:

There is a plain moral in the remark that if the United States would venture to cut herself adrift from Europe and take outright to silver she would have all America and Asia at her back and the command of the markets of both countries. The barrier of gold would be more fatal than any barrier of a custom-house. The bond of silver would be stronger than any bond of free trade. There can be no doubt about it that if the United States were to adopt a silver basis tomorrow British trade would be ruined before the year was out. Every American would be protected not in home, but in every other market.

Of course the United States would suffer to a certain extent through having to pay her obligations abroad in gold, but the loss of exchange under this head would be a mere drop in the bucket as compared to the profit to be reaped from the markets of South America and Asia, to say nothing of Europe. The marvel is the U. S. have not long ago seized the opportunity. It has been a piece of luck that it has never occured to the Americans to scoop us out of the world's markets by going on a silver basis, and it might serve us right if irritated by the contemptible apathy of our government toward the silver problem, the Americans retaliated by freezing out gold. It could be easily done.

LOOKING AHEAD.

If you could look ahead a few months and see what was coming from those spells of weakness, loss of appetite, wasting of flesh and energy you wouldn't wait for disease to get a grip on you. You would begin right away to tone up your constitution with Dr. Pierce's Golden Medical Discovery. It doesn't work miracles; but it does what other medicine can't do and what doctors say can't be done—until they see it done right under their noses—it cures consumption.—Not always; to say that would be an exaggeration, but in a large majority of cases; in advanced cases which have been given up as hopeless.

The "Discovery" is not called a consumption-cure; it is a blood-maker. It gives energy to the blood-making organs to create new blood, full of healthy red corpuscles. This rapid supply of pure, rich, red blood drives out all diseases that have their roots in the blood: Consumption is one of these; scrofula, malaria, eczema, erysipelas, catarrh—are others. It is absurd to doctor them separately as lung, or skin, or head diseases. They must be driven out of the blood. You can rely on the "Golden Medical Discovery" to do this every time.

It is not a patent medicine. It is the perfected result of 30 years, practical experience by one of the most skillful physicians and eminent medical authorities in this country:—Dr. R. V. Pierce, Chief Consulting Physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

Dr. Pierce's 1008 page book, "The People's Common Sense Medical Adviser," reached the enormous sale of 680,000 copies at $1.50 each. This enormous sale having paid him a fair profit on the great amount of labor and money expended in producing it, he is now *giving* away absolutely free 500,000 copies, the recipient only being required to mail to him, at the above institution, 21 one-cent stamps to cover cost of mailing *only*, and the book will be sent post-paid.
