SEWER MAIN CHOKED.—Sewer main extending along the alley by the city jail has been choked up for some time. The choke was not discovered until this morning, when an effort was made to "flush" the main, the clog was broken with a small pipe in sections about four feet long. The sections of pipe were placed in the main at a "man hole" on Eighth street and then screwed togeather. In this way a rod over 160 feet long was formed in the main. The obstruction was penetrated by the rod and the force of the water carried it away.

BICYCLE STOLEN.—Some one stole Dr W Kuykendall's bicycle last night. The doctor had left the wheel on a back porch at his residence on south Willamette street, and it was there when the family retired at 10 o'clock last night, but was gone this morning. It was a new Columbia, having been purchased last spring, model 40, No. 19,588, and had adjusted handle bars. The matter has been placed in the hands of the officers who are endeavoring to trace the theft to the guilty party.

SHAKESPEARE CLUB.—The Shakespeare Club met last evening with Mrs Minnie Washburne, at the home of Mr and Mrs Walter Eakin. It was called to order promptly at 7:45 p m by the president. Prof Carson then entertained the club with a charming and interesting resume of the play, and a description of its leading characters. After reading the first two scenes in "The Winters Tale," the club adjourned to meet next Tuesday evening with Rev and Mrs W S Gilbert at the Presbyterian manse.

Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflamation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free;

A Partial Blockade

Of the main avenue for escape of refuse from the human system is utterly subversive of regularity among the other organs. Let constipation become chronic, and, leaving out the imminent danger of inflammation of the bowels and their total obstruction occurring, jaundice is almost certain to ensue, the liver is liable to become engorged. the blood and urine are poisoned by the bile, which also vitiates the juices of the stomach, and other unhappy consequences follow. Hostetter's Stomach Bitters, a prime tonic alterative, prevents or remedies these results and their cause, as the case may require, and is also signally efficacious in overcoming flatulence, heartburn, and variable as well as constipated action of the bowels. It renews nerve power, improves the appetite, stays the progress of early decay, relieves the infirmities of age, and is a healthy appetizer.

There are still quite a number of large taxpayers who have not paid.

COLE'S AIRTIGHT STOVES

Five reasons why you should buy them.

1st. Ashes are removed from front, not through cover, as fire can be started at the bottom
2nd. Our draft is the tightest of its kind, and air-tight is essential to the success and durability of the stove. Our extra cast collar on the lining protects the outside joint. The lining is not attached to the outside, and can be removed when it gives out.
3d. Our cast top stoves can be nested; no sheet iron covers to blow off. Swing cover prevents jerking out smoke, burning the carpet with a hot cover and ruining the urn by using it as a handle; the damper is made so it can't blow out. Our stove is absolutely safe.
4th. All stoves are lined with heavy steel plate and have an air space between the lining and outside, that prevents the stove from warping and burning red.
5th. Our draft is attached to the body, not to the lining. The expansion of the lining does not affect the joints in Cole's Airtight

PORTLAND BETTING.—The Daily Tribune, of Portland, last evening, says: "Bets on McKinley are difficult to get. Cigar stores have signs posted up offering large odds on the republican candidate, but people who go there are unable to secure bets. Mr Patrick Maher called at several of the places Saturday and could find no money. The proprietor of one place which offered $250 to $100 on McKinley said he had no funds and that the offer had been made by a customer. He did not know the 'customer's' name. After some haranguing Mr Maher offered $100 to $75 on Bryan, and even then could find no takers. Fnally Mr Maher secured a bet at $100 to $50 that Bryan would carry Oregon, and the taker considered McKinley's chances in this state so slim that he demanded 3 to 1 before accepting the 2 to 1 bet."

Marvelous Results.

From a letter written by Rev J Gundermann, of Dimondale, Mich, we are permitted to make this extract: "I have no hesitation in recommending Dr King's New Discovery as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at Rives Junction she was brought down with pneumonia succeeding la grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at Henderson & Linn's drug store. Regular size, 50c and $1.

Be comfortable while traveling in cool weather. The Union Pacific heats its trains throughout by steam heat from the engine, thus making every part of all its cars pleasant and comfortable. It also lights its cars by the celebrated Pintsch light, making them brilliant at night. Passengers carried daily on the fast mail, which leaves Portland at 7 p m. For sleeping car reservations, tickets, or information, call on or address E J McClanahan, agent, Eugene. Ore.
