THE BEST SPRING MEDICINE

Is SIMMONS' LIVER REGULATOR—don't forget to take it. The Liver gets sluggish during the Winter, just like all nature, and the system becomes clogged up by the accumulated waste which brings on Malaria, Fever and Ague and Rheumatism. You want to wake up your Liver now, but be sure you take SIMMONS' LIVER REGULATOR to do it. It also regulates the Liver—keeps it properly at work, when your system will be free from poison and the whole body invigorated. You get **BILIOUS BLOOD** when your system is in a condition, and that will only be when the Liver is kept active. Try a Liver Regulator and note the difference. But take only SIMMONS' LIVER REGULATOR—It is SIMMONS' LIVER REGULATOR which makes the difference. Take it in powder or in liquid already prepared, or make a tea of the powder; but take SIMMONS' LIVER REGULATOR. You'll find the RED Z on every package. Look for it.

Our I's and....Other Eyes.

Our I's are just as strong as they were fifty years ago, when we have cause to use them. But we have less and less cause to praise ourselves, since others do the praising, and we are more than willing for you to see us through other eyes. This is how we look to S. F. Boyce, wholesale and retail druggist, Duluth, Minn, who after a quarter of a century of observation writes:

"I have sold Ayer's Sarsaparilla for more than 25 years, both at wholesale and retail, and have never heard anything but words of praise from my customers; not a single complaint has ever reached me. I believe Ayer's Sarsaparilla to be the best blood purifier, that has been introduced to the general public." This, from a man who has sold thousands of dozens of Ayer's Sarsaparilla, is strong testimony. But it only echoes popular sentiment the world over, which has, "Nothing but words of praise for Ayer's Sarsaparilla."

Any doubt about it? Send for "Carebook" It kills doubts and cures doubts. Address J. C. AYER Co., Lowell, Mass.

Hops.

Salem Statesman: Hops are worth between 11 and 12 cents; there are few unsold hops in this market, however. Of the hop situation among Gervais today's issue of the Star will say:

"We have met a number of growers and we find that they are intending to cultivate their several yards in anticipation of a good market the coming year. As the matter now stands the prospects for next year are for good prices. To be sure the time is a long way off, but hope springs eternal in the hop growers breast, and it is fortunate it does. * * * Now that the crop is all accounted for it will be found that the year's output will not exceed 35,000 bales in Oregon if as much. Quality was the main feature of this year's crop."

HOPS IN NEW YORK.

From the Otsego Farmer of the 13th the following is taken:

"Perhaps the number of the bales bought this week does not come up to last week's record, but the prices paid have been higher and the general tone of the market has been firmer. Twelve cents has been paid quite generally for shippers, and a hop fair quality will bring 10 cents readily. We learn of no sales this week under 8 cents, and only one lot at that figure.

"The Wallerville correspondent of the Utica Herald mentions the sale of one lot at 13 cents. On the streets here there are rumors of sales as high as 14 and 15 cents. A cable from London to the Farmer as we go to press says that the market there is advancing."

The Wallerville Times of the same date says:

"The highest market reached this week for hops according to our best information is 13 cents. Nine to 11 cents appears to be about the range for the majority of stock moving."

Transportation.

Harrisburg Review: "The matter of transportation rates to and from Harrisburg, is exercising our shippers at this time and in fact all the business men and farmers are proclaiming their dissatisfaction with rates, placed by the late combine, on what they consume and on what they export as well. They seem to think the rates imposed involve a considerable degree of extortion. While they are convinced that the rates charged by the river companies last boating season, viz: \$3 per ton up, and \$1.50 on grain down stream was not reasonable pay for the service rendered, they do not believe that an advance of more than three hundred per cent on the rate mentioned is justifiable. It is now proposed by some, as a measure of relief to pool all the freight to be shipped from this point and offer it by contract to an independent company.

"This plan has the appearance of being feasible. No doubt our neighbors below us on the river would join the Harrisburg people in such an arrangement, and perhaps Eugene shippers would become interested parties. Altogether an amount of freight would be represented sufficient to induce a responsible company to take hold of the business. 'Where there is a will there is a way' according to the old adage, and the Willamette river seems to be the way in this instance."

THE S P COMPANY'S ASSESSMENT.—The S P Company's assessment on road bed in this county has been reduced \$500 per mile by the county board of equalization. The company was assessed \$5000 per mile on the main line and \$4000 per mile on the Woodburn-Springfield branch. Lands owned by the company were assessed at a general average of \$1.30 per acre. The burnetizing plant at Latham was assessed at \$12,500 by Assessor Burton, and wood, ties, piling, etc. in the county was assessed at about \$900. The reduction made by the county board of equalization on road bed amounts to \$29,195. The entire assessment against the burnetizing plant, wood, ties, piling, etc., was stricken off the roll, making the total reduction over \$50,000. The company's assessment this year was the same as it was last year, but the reduction made by the board last year was \$750 per mile. The company will be required to pay taxes on about 35,000 acres more land this year than it did last, which will amount to about \$45,000. The land in question was in dispute as to right of title last year and for that reason was excluded from taxation. The company asked for a reduction on its land to an average of 50 cents per acre but the board refused to make the cut.

A game between the first and second teams of the Central school this afternoon resulted in 8 to 4 favor of first team.

Astoria Daily News: "The next time the University of Oregon and Oregon Agricultural College football teams play a game they should send for Jack Wilson of Fort Canby, to act as referee. It takes a gentlemanly prize-fighter to give some of the ruffianly football players what they need."

If you have trouble with your eyes place your case in the hands of a reliable optician; one who will remain right here where you can consult him at anytime. J O Watts is a graduate optician and has one of the most complete outfits for the work in the state. He guarantees all work and charges reasonable prices. Call on him.

SHOT IN THE STREETS.—The Corvallis people were treated to the killing of a deer on the streets the other morning. The poor thing was bewilderred by the floods and had been previously wounded, and yielded up its life to pistol and rifle shots. The dressing process revealed its hide full of shot from shotgun charge fired into it. The poor thing ran into town through fear but found its bitterest enemy there.

ANOTHER ARCTIC OWL.—A V Bond of Irving was in Eugene today with an arctic owl which he winged with a shotgun at his place yesterday. This is the second one of the birds brought into town since yesterday. They seem to be quite numerous this season.
