An Enjoyable Evening

The party given last night by Professors Baright and DeLashmutt in honor of Mr Rosco Bryson and Ivan DeLashmutt, to the Sophomore class was indeed a success. Invitations had been sent out inviting all ye shades of last year's Freshman class to meet the said professors in the shades of night. Each member wrapped in a sheet with only an opening for the eyes together with the shadowy lights cast by Jack o lanterns presented a ghostly scene that would have put to flight a braver man than Tam O'Shanter. Ghost stories were told that even made ye shades quake and tremble; after which each ghost selected a partner, supposed to be of the opposite sex, for an excellent lunch that was served, and many were the surprises in store for them when the sheets were removed. Lunch over, games were played that were enjoyed by all and the class left feeling that they had enjoyed one of the most pleasant events of a lifetime.

Professors Baright and DeLashmutt are expert entertainers and will ever fill a warm place in the memories of the Sophomore class.

IN POOR HEALTH.—McMinnville Reporter: "President and Mrs Boardman left last Friday for Colfax, Wash. Mrs Boardman has been in poor health for a number of months, from pulmonary trouble, and recently her condition has assumed such form as to seriously alarm her husband and immediate friends. Her parents reside at Colfax, and it is hoped that the recreative influence of a change of climate may work the benefit the many friends here so earnestly wish for."

How to Prevent Croup.

Some reading that will prove interesting to young mothers. How to guard against the disease.

Croup is a terror to young mothers and to post them concerning the cause, first symptoms and treatment is the object of this item. The origin of croup is a common cold. Children who are subject to it take cold very easily and croup is almost sure to follow. The first symptom is hoarseness; this is soon followed by a peculiar rough cough, which is easily recognized and will never be forgotten by anyone who has heard it. The time to act is when the child first becomes hoarse. If Chamberlain's Cough Remedy is freely given all tendency to croup will soon disappear. even after the croupy cough has developed it will prevent the attack. There is no danger in giving this remedy for it contains nothing injurious. For sale by Osburn & DeLano, druggists.
