MR CORBETT PAYS THE FREIGHT.

The Republican St Helens Mist, U S Senator McBride's official organ talks thusly: "Mr H W Corbett has come to be a great man all at once in the opinion of a few Portland politicians, and there are several of them just now using his name in connection with the United States senatorship, not because they want the old gentleman elected, or even imagine that he will be elected; but he is a wealthy man, and by making him believe he has a certain following his "leg can be pulled" for boodle with which to defeat Mitchell. The old gentleman is childish and a little taffy pleases him very much; indeed so much that from his millions he, no doubt, cheerfully contributes, liberally to the fellows who are out for boodle, but whose real purpose is to make a cat's paw of Mr Corbett and get him to put up the money with which to defeat Mitchell in the hope that Mr Joseph Simon may go to the senate.

Mr Corbett, no doubt, is in good faith the same as John F Caples was for the nomination for congress last spring, but the use of his name at this time is for the sole purpose of making him pay the campaign expenses of another whose name will be put forward whenever the opportunity presents itself. In the case of Mr Caples last spring they wanted to use his ability and influence, with Mr Corbett they want to use his money.

The first object of this small aggregation of boodle politicians is to create dissension sufficient to prevent Mr Mitchell's election, and if that is accomplished with Mr Corbett's money that gentleman will be brought to the stern realization that he has performed his part in the political drama and he will be cast aside and the author of the play will be presented.

Those who have watched the drift of the proceedings closely agree that this is the ostensible purpose of the opposition to Mitchell, and coming events will, no doubt, soon demonstrate the truthfulness of the prediction. One thing is certain, Mr Corbett's name is not being used with the belief that he stands the slightest chance of success."

Oakdale, Wash., has a populist mayor, with a will of his own. The city marshal became intoxicated the other night and held up two young men and a young lady returning from choir practice. He drew his revolver, commanded the trio to hold up their hands, and gave them a lecture on keeping such late hours. One of the young men was a son of the mayor. Mayor Williams and his two sons went down town immediately after, found the marshal in a saloon, took his "gun" and shield from him, and put him in the city "cooler." The next morning the office of marshal was declared vacant.

The district court of appeals at Washington has very properly held that a telegraph company is liable for blunders of its employes. A New York firm telegraphed to a customer that it would sell potatoes at 55 cents a bushel. As delivered the telegram read 45 cents. Two car loads were ordered, and customers were found for half the con-

signment. He brought suit to recover the profits he would have made from the resale. This was denied by the court, but it held that he was entitled to recover "the actual pecuniary damage that he might have sustained through the failure to obtain the potatoes at the price at which he had reason to suppose they had been offered him." Telegraph companies have always disclaimed liability for errors in transmission, unless the message was repeated, the sender to pay for the repeating, but it is nonsense to suppose that such corporations have any right to compel double payment in order to secure perfect service.

The agriculture department has made an appeal for the observance a "bird day" throughout the country. The object is to instruct the people generally and the young in particular, in the value of our native birds and the means of protecting them from wanton destruction. The idea is a good one and should receive generous support from people of all classes, especially in the rural district.

If Senator Corbett gets into the senatorial fight it will be the case of a "goose being well plucked" by the politicians.

During the Christmas season it's the early shopper that catches the bargain.

A man's life may be saved in many ways. A man may commit suicide in a great many ways. Shooting himself through the head is quicker, but it is no more certain than neglecting his health. If a woman saw her husband with a pistol to his head, she would take prompt and vigorous measures to save him; but the same woman might see her husband on the down-grade to disease and death without seeing the seriousness of it. One-sixth of all the people who die, die of consumption. Consumption doesn't come all at once. It is insidious. The seeds of it are seemingly insignificant. Most people do not know how it starts. Thousands of people are on the road to consumption and don't know it. Whenever there is a loss of flesh—paleness—wasting away—look out. Consumption easily finds a foothold in a weakened body. Low vitality, impure or poor blood, imperfect digestion, nervousness, sleeplessness—all these lead to consumption.

Taken in time, Dr. Pierce's Golden Medical Discovery will prevent the development of the disease. Taken according to directions, it will positively and perfectly cure ninety-eight per cent. of all cases of consumption, whether incipient or fully developed. Consumption is a disease of the blood. The "Golden Medical Discovery" is a cure for all blood diseases, no matter in what part or how they manifest themselves. If you want to know all about it, and what it has done for other people, send twenty-one (21) one-cent stamps to cover the cost of mailing only for a FREE COPY of Dr. Pierce's great 1008 page work, "Common Sense Medical Adviser." Every family should have a copy of this book for ready reference. World's Dispensary Medical Association, Buffalo, N. Y.

THE EUGENE EVENING GUARD

IS one of the few prominent papers in Oregon that does not resort to Chromos, Coupons, Prize Packages, Picture Books, Corn Plasters or some other fake device to make an apparent sowing of an increase in circulation. It therefore escapes the fate of papers that depend for a show of success upon these extraneous inducements, which is to be pitched into the street or thrown into the waste basket as soon as the coupon is cut from their columns.

THE GUARD, on the other hand, goes regularly and permanently into 80 per cent of the homes of Eugene solely and entirely on its merits as a bright, clean, enterprising progressive and comprehensive newspaper. It is delivered at an hour, moreover, when the household has both time and inclination to read, and it is read thoroughly and carefully by every member of the family. These conditions insure for every class of business announcements not only the widest but the best publicity that can be secured in our city.

Guarantees advertisers that it reaches more people than any other paper published in Eugene, and therefore has better results. THE EVENING GUARD, in short, covers the field completely, and no one who desires to reach the people can afford to do without the facilities placed at their command.
