The Greatest Monarch
 is a fit subject for pity if he is troubled with dyspepsia, while his poorest subject who digests properly may well be envied by a prince thus afflicted. The dyspeptic of every clime and nation owe a debt of gratitude to Hostetter's Stomach Bitters, which rescues them from one of the most obdurate and troublesome complaints against which medical skill is directed. On this continent, in Europe and the tropics, this sterling remedy is pre-eminently and justly popular, not only as a stomachic, but also as a means of preventive and curing malaria, rheumatic, kidney, bilious and nervous disorders. It improves appetite and sleep, lessens constipation and the acquisition of vigorous, healthy yielding sleep, a boon much coveted by nervous persons.
