STATEMENT FROM THE POPULISTS.

The populist members of the legislature have issued the following to the people's party in the state:

"The undersigned, your members-elect to the legislature, ask your loyal support and that of all good citizens in our contest for such an organization of the house as we believe will result in economical and remedial legislation, that will make an honest vote and fair count possible in Oregon. We are contesting for a fair organization of the house, in order to make possible the passage of the Bingham registration bill, the Holt judges-of-election bill, and an amendment to the constitution providing for the direct law-making by the people by means of the initiative and referendum in its optional form.

"We are assured by eminent lawyers that the Bingham registration bill is constitutional, and likely to be effective. The Holt bill allows the county central committees of each of the three principal political parties to each name one clerk of election in each precinct. The initiative and referendum need no explanation to Oregon populists. These measures we believe to be all important in obtaining honest elections and control by the people of law-making in Oregon, and thereby preserving our liberties. The situation is this:

"Last June the republican party elected 38 members of the house of representatives. Only 28 of this number have agreed to act together in organizing the house. Part of the remaining 10 republican members support Mr Bourne and part do not support any candidate. The populist and democrat members are staying out until such time as a republican majority may agree upon a candidate of its own for speaker, or until a sufficient number of them unite with us to assure Bourne's election, which we believe will enable us to obtain the measures herein named. As long as republicans are thus divided, and it is possible that we may, by preventing organization, finally elect Mr Bourne, and probably obtain the legislation before mentioned, we feel it to be our duty to the people of Oregon to stay out—wages or no wages. With this knowledge of the facts, we feel that we are entitled to your support for ourselves and our allies."

The above is signed by the following:

J S Smith, J H Kruse, John Whitaker, George Orle, N J Svindsoth, O S Dustin, D W Yoakum, Thomas Buckman, John W McAllister, G F Schmidlein, John Gill, W S U'Ren, S H Holt and W R King. Absent populists have endorsed the statement.

Vice-President Adlai Stevenson, who has extensive interests in San Bernardino and Riverside counties, has been in Southern California a good part of this year looking after his orchards and supervising further improvements on his large estate. He says he will probably go to Los Angeles immediately on the expiration of his term as vice-president next March, but will keep his present home and law practice at Bloomington, Ill. Vice-

President Stevenson has a very large olive grove, planted last year near Etiwanda. It is one of the best varieties of olives imported from Italy at great expense. Besides this the vice-president has a large lemon grove in San Diego county and 800 acres of bare land at Riverside.

From one of the tables of the new World Almanac it appears that in 1897 there will be six state elections, the first in Rhode Island on April 7, too early to be of much value in showing the drift of political sentiment. The five others are in the fall. On November 2, Massachusetts, Ohio, Iowa and Virginia, representing in a way important sections of the union, hold elections for all state officers, and on November 8, New York elects a judge of the court of appeals and members of the assembly.

TOY GUNS.—M S Barker, of the Barker Gun Works is getting out three models or toy wooden guns, which he has invented. One of the guns throws a small wooden pellet but the other two are not made for the use of projectiles of any kind. The latter two are recommended on account of being perfectly harmless. All three guns explode paper caps, and are sure to please the juvenile.

The county jail now has two occupants.

Many a nervous woman sits up all the night and tries to read herself sleepy. Nine to one she don't accomplish her purpose. Nine to one, she gets more and more nervous. The slightest sound strikes terror to her heart. The dark corners of the room contain a thousand frights. She doesn't know what she is afraid of, but she is afraid, actually, honestly, nervously, abjectly afraid. Healthy women are not cowards. If a woman is nervous and sleepless and afraid of the rustle of her own dress, there is something the matter with her. The most delicate nervousness in her body are set on edge by weakness or disease. Nine-tenths of the nervousness, irritability and bad temper in women is merely a symptom of ill health—ill health of the delicate and sensitive organism that makes her a woman. If she is overworked, or over-worried, the effect will show itself there first. There is no use taking harmful and deadly narcotics for nervousness and sleeplessness. It will leave the body in a worse condition than it was before. The way to effect a cure is to cure the cause. Dr. Pierce's Favorite Prescription will do it. It has cured tens of thousands of cases of female weakness and nervousness. It is a most wonderful invigorating, purifying and nerve food. It brings sound healthy sleep and restores the glow and bloom of health. It is the only medicine now before the public for woman's peculiar ailments, adapted to her delicate organization by a regularly graduated physician—an experienced and skilled specialist in these maladies. It cannot do harm in any condition of the system. Its sales exceed the combined sales of all other medicines for women.

The story of its discovery and its wonderful success is told in one part of Dr. Pierce's great thousand page book, "Common Sense Medical Advice," which will be sent free on receipt of 21 cent stamps to pay for mailing only. A LARGE SALE OF HOPS.—Salem Journal: Horst & Lachmund Saturday, purchased from S Ramsey 700 bales of hops of the 1896 crop. This is an unusually large sale of this staple this late in the season. During the past week this firm has shipped 1,000 bales from different points in the Willamette valley. There are only about 1,500 bales in the hands of the growers of this state which certainly does not indicate an overproduction in this locality. Contracts for the 1897 crop are being drawn up every day, from 7 to 10 cents being the stipulated price to be paid therefor. Julius Pincus, the general representative of this firm, returned Sunday morning to the head office at Portland, having received and shipped several consignments at the different valley towns surrounding Salem.

OFFICERS ELECTED.—The officers and staff of editors for the new University paper were elected at assembly this morning. The officers are as follows: President, C F Woodson; vice, Owen Vandayne; secretary, Floy Watkins. The editorial staff is as follows: Editor-in-chief, D V Kuykendall; associate editors, Leslie Scott and Kate Kelley; business manager, L R Alden; assistant, R S Bryson. The association will be known as the College Student Association, and the paper will be called the "Webfoot Student." The first issue will probably appear in February.

TWO PAIRS OF TWINS.—John Benson and family of the Dakotas, arrived last night and are now quartered at the Minnesota hotel. There is nothing unusual about this family except that it contains two pairs of twins. The eldest pair is 15 months old and the youngest pair is one month of age. All four are girls and are healthy, good looking and have splendid lungs. Besides the twins there are three small boys in the family, all older than the eldest pair of twins. If cold and bleak Dakota is so productive, what will be the result here in the warm congenial climate of Oregon.
