The Greatest Remedy

Is a fit subject for play if he is troubled with dyspepsia, while his poorest subject who digests properly may well be envied by a prince thus afflicted. This dyspeptic of every clime and nation owe a debt of gratitude to Hostetter's Stomach Bitters, which rescue them from one of the most obstinate and troublesome complaints against which medical skill is directed. On this continent, in Europe and the tropics, this sterling remedy is pre-eminently and justly popular, not only as a stomachic, but also as a means of preventing and curing malarial, rheumatic, kidney, bilious and nervous disorders. It improves appetite and sleep, hastens convalescence and the acquisition of vigor after exhausting malarial, and counteracts the insidious effects of age. A wise physician taken before retiring has a tendency to promote tranquility, health yielding sleep, a tonic much coveted by nervous invalids.

WILL NOT "STOP."

The GUARD Feels Compelled to Pay
Its Respects to Doctor Chapman.

Rather Personal, But True.

The publishers of the GUARD received a severe shock the other day. They were notified to "stop the paper." When it is considered the subscription list and good will of a firmly established newspaper has a cash market value corresponding to its name, age, subscription list and management, our readers will not be surprised that we were somewhat taken aback on receipt of the order to "stop the paper." This would mean the loss of several thousands of dollars to the proprietors, who for years have managed the GUARD, and gained for it, among newspaper men, the reputation of being one of the best country properties in the state. We speak of this, not in a vaunting spirit, but from a knowledge that the newspaper fraternity of the state will cheerfully render us that meed of praise. All this was to be wiped out by the edict of a self-constituted boss, and that, too, without a cent of compensation.

However, on taking time to consider the unpleasant subject, we came to the conclusion that it was intended only to stop the single copy that was being delivered to one of our prominent citizens, Doctor Chapman, who by some inscrutable dispensation of Providence has been fastened on the State University with title of president of the faculty. We have stopped that copy, but the paper will be published as usual.

We suspect all this fuss and flurry on the part of the esteemed Doctor was occasioned by the mention of his having employed a Japanese house servant. If it was right for the Doctor to take the little brown foreigner into his household, there certainly could be no harm in mentioning the fact. If there was we stand ready to apologize to the Doctor for any needless injury to his feelings. He may not have been aware of the prejudice, a just one we believe, that on this coast, attaches to the employment of Japanese or Chinese laborers. We are willing to give him the benefit of the doubt. But, Doctor, we shall not "stop the paper."

Another point, Doctor. We employ considerable labor, but none of the Chinese or Japanese type. The GUARD has in its employ seven regular employees, and also employs occasional extra help. These men are paid their wages in coin every Saturday night, no difference whether the paper has paid expenses or not. If we should "stop the paper" these men would be thrown out of employment, at least temporarily.

No, Doctor, we are here to stay, and shall stay regardless of the approval, or disapproval, of any of your class of citizens, who do a great deal of talking but pay little or no taxes, own no property, and have no real interest in the state except to draw an exorbitant salary.

Beware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure, be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.
