Office over Henderson & Linn's Drug Store. Office Hours: 9 to 12 a. m.; 2 to 5, and 7 to 8. Residence—Ferry street between 11th and 13th.

A New Tourist Sleeping Car Line.
Commencing Sunday, June 13th, the Union Pacific in connection with the Southern Pacific (Shasta Route) and Chicago & Northwestern Ry. will inaugurate a DAILY TOURIST SLEEPING CAR LINE between Portland and Chicago without change. In addition to the regular daily service via this new line, leaving Portland once a week on a special tourist excursion, a conductor will be in charge of the car through to Chicago, whose duties will be to look after the wants and comforts of the passengers enroute, without additional charge. These personally conducted excursions will be found most desirable by ladies and children. Via this through line, passengers pass through the finest scenery of the continent, including Willamette, Umpqua, Rogue and Sacramento River valleys, the Siskiyou and Cascade Mountains. Observation cars are attached to all trains for use of patrons in passing over the world famous Siskiyou Range. For rates, tickets, sleeping car reservations or any information, apply to any agent of the Southern Pacific Company, or R. W. BAXTER, General Agent Union Pacific System, No. 135 Third Street, Portland, Oregon.

The Conductor's Excursion.
At 7 o'clock Sunday morning the excursion train pulled out from Eugene with eight coaches, all well filled, and before reaching Salem three more were added, making a train load of eleven coaches, or about 800 people. The day was apparently enjoyed by all, the hospitable conductors furnishing a good program of amusements during the day, and the state institutions were all placed open for the inspection of visitors. The ride through the valley reveals the fact that the grain crop of this year will be a short one, the fall sown grain looking good, but the spring crops proving to be scanty, which even the past week's copious showers will not benefit much. The Stomach Cannot be Freightened. With greater trash than a violent drastic purgative. True, such a medicine relieves constipation for the time, but at the expense of great injury to the intestinal canal, which is both inflamed and weakened, thus nullifying it for the performance of its proper functions. Widely different is the action of Hostetter's Stomach Bitters, a tonic aperient which produced effects prompt, indeed, but never violent or convulsing. The purity of its botanic ingredients, its unobjectionable flavor, its general influence upon the mind, and the thoroughness of its remedial action in cases of constipation, liver complaint and dyspepsia, combine to render it a most desirable family specific. It increases both physical vigor and substance, tranquilizes and invigorates the nervous system, and gives an unswerving relish for the food. A wineglass three times daily is the average dose.

W. KUYKENDALL, M. D.,
Physician and Surgeon.
Office in Chrisman Block.
Special attention to surgery and surgical diseases of women.

L. L. WHITSON
DENTIST.
Having purchased the office and fixtures of the late deceased W. V. Henderson, I am now prepared to do anything in the line of Dentistry in the above said office.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligation made by him.
WERT & TAGGART, Wholesale Druggists, Toledo, O.
WALDRON, KINMAN & MARVIN, Wholesale Druggists, Toledo, O.
Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price 75 cents per bottle. Sold by all Druggists. Testimonials free.

The New Sewers.
The work of digging the new South Park and North Pearl street sewers is about completed and the contractors will, in a few days lay their mains. The workmen on the South park sewer, three in number, completed the excavating across the entire block in two and one-half days. The North Pearl street sewer is a benefit to a large number of citizens and is of a great deal of benefit.

W. C. T. U.
The last regular meeting of the year, will be June 23d, Wednesday at 3 p m in the Reading room. Superintendents of the departments will present their annual reports. Members, remember and bring your annual leaflet.
BY ORDER PRESIDENT.
EUGENE CATTLE—Arlington Record: Twenty-five dead cattle were taken from stock cars at this place Friday. The stock had been loaded at Eugene, and by the time they reached Arlington, the above number had been trampled to death. It is believed that the loss was the result of leaving the cattle too long without feed while waiting shipment.
ANOTHER MERCHANDISE STORE.—Albert Plato, of Pasadena, Cal., has rented the north room in the Walton brick block and will open therein a stock of general merchandise. He is a man of family and has also rented a dwelling. Some of his goods have already arrived here.

OUTSIDE OPINION OF CHAPMAN.
"Has Outlived His Usefulness"—Should be Removed.
Eugene Opinion Should be Considered.
The Corvallis Times, commenting on the situation into which the State University has been brought by the incompetency of Dr Chapman, says: "Squabbles like that at Eugene over the presidency of the state university are to be regretted. A man who has held the position for three years has, in some unexplained way incurred the dislike of Eugene people, who are out in a popular and vehement objection to his further retention in the place as president. There is no use to stop and inquire why or in what way this storm of local opposition was provoked. It is enough to know that it is there and that, being there, the usefulness of the objectionable incumbent is wholly destroyed. With a president handicapped by local unpopularity, the institution itself is crippled, for discipline can only be maintained under the most favorable conditions, and a school, feeble in discipline, is impotent in all things. As to the people of Eugene, their opposition to the man at the head of the state university is to be considered. With the rest of the state, and more than the rest of the state, they are interested in the welfare and development of the university. "At the first appearance of the cancer, it is a fool of a physician who don't instantly cut it off. The longer the disease goes uncut, the more difficult it must be of successful removal. Eugene people see a fungus growth inviting death to the state university and are alarmed, the rest of the people ought to be, for Eugene people are on the scene and must be armed by reliable information. If they want a vaccination, they ought to have it, and the board of regents ought to provide the virus. Dr Chapman may be a broad, strong educator, but it is clear that he has outlived his usefulness as the head of the U of O.

Pleasant Hill Items.
June 15.
Last Saturday was our annual picnic. Despite the rainy morning, by 10 o'clock a large crowd was on the ground—everyone enjoyed themselves. The ball game between this place and Goshen was watched with much interest. The score stood 26 to 19 in favor of the home team.
J F Buehnan and wife returned from Linn county last Friday, where Mr Buchanan was at the death and burial of his mother.
Uncle Sam Daughman received a U S pension recently of \$8.00 a month and back pay amounting to \$564. We congratulate him.
The citizens of Pleasant Hill met last Monday eve, and made arrangements for a picnic for the 4th of July. The 4th coming on Sunday it will be held on Saturday the 3rd. No effort will be spared to make it a joyful day; the Eagle will equal, and patriotism will run high, but remember it will be called a 4th of July picnic, and not a celebration; but we will have fun all the same. Everybody is invited; water will be furnished for horses, and no reason why we should not have a great time. A program is being arranged which will be announced in due time and we'll try to please the most fastidions.

Something to Depend On.
Mr James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr King's New Discovery, says that last winter his wife was attacked with La Grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into hoarse consumption. Having Dr King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from the first dose, and half a dozen dollar bottles cured her sound and well. Dr King's New Discovery for consumption, coughs and colds is guaranteed to do this good work. Try it. Free trial bottles at Henderson & Linn's Drug Store.

To Cure a Cold in One Day.
Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25c

WEEKLY CROP BULLETIN.
Hay Crop Short.—Fall and Winter Grain Excellent.—Spring Grain Promises a Light Yield.
Good Reports From Fruit.
PORTLAND, Oregon, June 14, 1897.
WESTERN OREGON.
Weather.—Slightly lower temperatures, with more clouds and a few sprinkles of rain, have been the weather characteristics for the week. Frosts were general the morning of 9th, which, in exposed localities, injured tender vegetation to some extent.
Wheat, Oats and Hay.—More rain is badly needed. The dry weather has materially affected the hay crop, especially clover and timothy, and the correspondents are of the opinion that not over one-half crop will be secured. Haying has commenced, though the showers in the northern portion of the district have retarded the work. It can safely be estimated that the hay crop will be short. Rains, such as are necessary to improve the late hay, are not probable, hence no material improvement can be expected in the crop. The area of killing frost is very small. Fall and winter sown oats and when are very promising; without more rain they will make very good crops, and with rain the crops will be excellent. Spring grain of all kinds is badly in need of rain. The showers were of benefit, but they were not heavy enough. Spring wheat, in a favorable year, yields from 20 to 35 bushels per acre; but this year, unless most unusual changes occur, it will not yield over from 10 to 20 bushels. Spring oats should yield 40 bushels to the acre but if they give 30 bushels this year the present expectations will be realized.
Small and Orchard Fruits.—Strawberries are about over. Blackberries and raspberries are ripening rapidly, and both are full crops. Of cherries the May Duke is ripe; the Royal Anne and Black Republican are ripening rapidly, and before the current week closes the major portion will be picked and shipped. Some trees are filled with cherries, while others are only partially so. The cherry crop, as a whole is good; in some years better yields have been had, and in others much worse.
The prune crop now promises to be better than was anticipated a few weeks ago; the total prune product will be, from present appearances, larger than ever before, but the yield per tree in some orchards will be less. The dropping which has been reported, appears to have ceased. The peach crop now promises to be very heavy; hand pruning is in progress. The apple crop promises to be fair; some varieties have all the tree can bear; while some are light. Pears are almost the same as apples.
Hops and Gardens.—Hops are growing rapidly. The hop house has appeared and spraying has commenced. The hop prospects are excellent. Gardens are doing remarkably well. Potatoes, peas, beans, cauliflower, and other garden produce, are plentiful. Corn is making a much better growth than usual. Grapes also promise a heavy yield.

EASTERN OREGON.
Weather.—Slightly warmer weather has prevailed during the past week. The highest temperature was 54 degrees on Friday and Saturday; the lowest 42 degrees, on Thursday, in the Columbia River Valley, and 34 degrees over the Plateau Region. In the latter section injurious frosts were general. Scattered showers occurred Sunday and today, but they were light.
Grain, Hay and Stock.—The lack of rain is being markedly shown. Fall and winter sown grain are heading, but the grain cannot be plump without more moisture. Spring wheat and oats are almost at a stand still, and will not make even good hay without rain. The cloudy weather has been of benefit, and rain would make an entirely new phase upon the conditions. Rain within two weeks will save the spring-sown crops. The prospects are still good for all grains, but they are becoming rapidly poorer. Hye is doing well and will make a fair crop; the same for barley. Grasshoppers and squirrels are doing injury in Morrow county, and the farmers there are well nigh discouraged.

STATE ENCAMPMENT.
Comrade E. F. Chapman Gives a Resume of Proceedings.—Frank Reinsner Elected Commander.
Eugene, June 21, 1897.
EDITOR GUARD: Our State Encampment, G A R, convened at Independence on the 15th of the present month, and concluded its work on the 19th. Many of our comrades having been unable to attend, I thought it would not be unbecoming to give a few items on the subject. Eugene, by hard work, captured the coveted prize, the Department Commander, and his name is Frank Reinsner, which I assure you is quite an honor to our city.
The soldiers home question has been adjusted to the entire satisfaction of all the old soldiers, and friends of the old soldiers. We had a mammoth gathering, consisting of Grand Army men, sons and daughters of veterans, the ladies of the grand army and last, but not least, that band of noble workers, the ladies of the Relief Corps. It was a proud day with us to think we were the guests of honor, and so cordially received by the mayor, (Goodman) and the noble citizens of the beautiful and live city of Independence, Oregon.
The ladies were all so good looking that the encampment could not refrain from adopting one of their number as a daughter of the Grand Army, and presented her with a delegate's badge. She is a great worker in our cause, and an eloquent speaker. Her father was an old soldier, and was shot in the grand charge at Missionary Ridge, Tenn. We voted her a badge suitable to the high honors she won for us. It will be presented to her at our next encampment, that will convene in The Dalles next May. Her name is Mrs Manlio Briggs, of The Dalles, Oregon.
Having elected our several officers, we held a joint installation in the Odd Fellows hall. The Sons installed first, the Ladies Relief Corps next, and the G A R last. We were very badly squeezed in the hall, but strange to say no one objected to the squeeze. We then had a love feast for half an hour, extending congratulations. The encampment concluded its work at 10 o'clock next morning, and ended up in another love feast at the auditorium, and all went their way rejoicing.
Respectfully yours,
E. F. CHAPMAN,
Late Co. B, 10th Iowa, V V I.

THE GYPSY BAND.—Portland Tribune: The band of gypsies that have inflicted themselves upon the city for the past ten days are now camped at Carson Heights, just outside the city boundary line, near five river cemetery. There are sixty-three of the wanderers and they form quite a colony. Since their advent in South Portland they have captured that entire section of the city and make house to house visits for donations. Between telling fortunes (and a good fortune can be had for the reasonable sum of 10 cents), and stealing, the band apparently are making a very comfortable living.

Fifty Years Ago.
This is the way it was bound to look when grandfather had his "pictor took." These were the shadows cast before the coming of Conjuror Daguerre. And his art; like a girl in a pinafore some day to bloom to a goddess fair. Men certainly were not as black, we know as they pictured them, 50 years ago.

Ayer's Sarsaparilla
began to make new men, just as the new pictures of men began to be made. Thousands of people fronted the camera with skins made clean from blotch and blemish, because they had purified the blood with Ayer's Sarsaparilla. It is as powerful now as then. Its record proves it. Others imitate the remedy; they can't imitate the record:
50 Years of Cures.
