THE LESSON OF SANTIAGO.

Our Government Slow in Making Military Improvements.—Unnecessary Loss of Life the Result.

It is now seen that black powder is not as good as smokeless powder. This fact was known among all the civilized nations of the world except in the United States. Whose fault was it that the Washington authorities were destitute of that knowledge? It was known everywhere but at Washington that there had been vast improvements made in army rifles since the Springfield rifle was regarded as first-class. Every other government in the world knew that the Mauser rifle has an effective range of 2,000 yards and the Springfield rifle of only 800 yards. Why was not this fact know at Washington? Modern trenches, guarded by strong barbed wire fences amply supplied with experienced soldiers and Mauser rifles, are not usually captured by infantry without the use of artillery or some other method of demoralizing the concealed enemy or driving him into the open. The necessity of marching brave American boys against such death-dealing breast works as existed at Santiago has not been explained.

The question will be asked, was the United States too poor to provide artillery and our engineers too ignorant or inefficient to place and use modern guns, or did the authorities at Washington think it was better to sacrifice our brave boys in an unequal encounter than to bother about using ordinary modern appliances in the only rational way to meet such a case as confronted us at Santiago? The American people will unanimously stand by the administration in the vigorous prosecution of the war, in spite of mistakes, but excuses for failure to have and use the best guns, the best powder and the highest intelligence, will not be received. The men who assume places of high responsibility will be held to a strict accountability for the needless sacrifice of human life.

If a great war should be started, how could it be prosecuted on the gold standard? Will any one have the boldness to prophecy that we could get enough of gold and silver combined for use as money in such an emergency?

The Only One.

President McKinley recently asked Stephen B Elkins, Jr, the son of the West Virginia senator, what part he intends to take in the war. "I have already enlisted as a private," replied young Elkins, "and I am the only son of a United States Senator who has that honor."

The New York Assembly of 1899 will contain one free silver Republican, a classification which has become even more of an anomaly than that of gold Democrat. At their convention the republicans of the First Assembly district of Chautauqua county made James I Fowler the regular party candidate. This insures his election, as the district is Republican by nearly 5 to 1. Fowler favors the free coinage of silver.

There is nothing in a name anyway. Prof Craps of Salem advertises to give the best preparation for obtaining teachers certificates. But the point of this paragraph will be lost on the many who have never witnessed a crowd of American citizens of African descent playing craps with dice on a hot summer day.

The Chicago platform has received another round of indorsements from recent state conventions. It is about as impossible to make the American people forget that great document as to forget the wrongs committed by Spain on the helpless Cubans.

Boise and D'Arcy.

The Salem Journal says the contest between Mr D'Arcy and Judge Boise over the circuit judgship of the third judicial district continues to be the center of political and legal interest. That it will be a hard fought battle, no one can doubt. Judge Boise's duties on the bench preclude his taking a hand as attorney, but Messrs Holmes and Ford will make the effort of their lives, and they are men of prime ability.

"Tears, idle tears, I know not what they mean," wrote the poet Tennyson. But tears always mean something. There are tears of melancholy, tears of joy, and of despair, and those saddest most pathetic tears of the nervous overwrought woman who has been bearing up as bravely as she may under a daily burden of weakness and dragging, torturing pain.

No wonder women weep. The wonder is that they are not oftener in tears for all they have to bear and suffer; and the saddest thing about it is how little their sufferings are understood. Even the doctor, nine times in ten says: "Oh, a little nervousness, that's all" or "neuralgia," or "insomnia," or "dyspepsia." If he suspects the real cause he insists upon examinations and local treatment,—about the very worst thing possible to a nervous, overwrought woman.

There is no need of these repugnant methods. Any woman may insure health and strength in a womanly way by the use of Dr. Pierce's Favorite Prescription. It cures the weaknesses and diseases of the feminine organism absolutely and completely. It was devised for this special purpose by one of the most eminent and experienced physicians in this country; an expert specialist in women's diseases.

For nearly 30 years Dr. Pierce has been chief consulting physician of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. Any woman may consult him by letter, free of charge. Her letter will be answered not by a mere nurse or uneducated, unscientific person, but by the most competent medical authority anywhere obtainable.

All women should read Dr. Pierce's thousand-page illustrated book, "The People's Common Sense Medical Adviser." It contains more clear and comprehensive advice on medical subjects than any other book ever published. A paper-bound copy sent free for twenty-one one-cent stamps to pay the *cost of mailing only*.
