## FROM KLONDIKE

### R Smoole, the Former Hop Man, Back From Alaska.

#### GIVES SOME INFORMATION.

R Smoole, of Klondike, was in Eugene today after a few days stay with his relatives at Thurston, having come direct from Dawson City, Northwest Territory.

Mr Smoole left here about seven months ago, after having lost his all in the hop business, to try for new fortunes. His many friends will be pleased to learn that he has been fortunate in that regard. With two parties he took up a claim about 60 miles from Dawson City, between Bonanza and Eldorado creeks and the same proved to be rich, and he came home with considerable of the shining metal. He would not tell the amount, but his friends estimate it all the way between \$3000 and \$5000. He struck a good claim quickly. He says the climate is a hard one and he has been sick for some time, but is now rapidly recovering. He will return early in spring to work his claim. It is his opinion that the country is a rich one, and many valuable diggings will yet be discovered. He does not advise any one doing well here to go there.

He met Glen and Low Powers last fall near Dawson. He says they expect to return here next week.

Chris Barber, he says is making money rapidly, owning one of the leading meat markets in that city. Meats sell from \$1 to \$1.50 per pound.

Neusbaum is cutting wood under contract and is making some money.

Chas Kenzie of Pleasant Hill, he met a couple of months ago. He was well.

#### AFTER HIS CHILDREN.

While absent his three children were sent to the Boys' and Girls' Aid Society, at Portland, unbeknown to himself, their mother being dead. He is very anxious to recover them and has authorized Dr B F Russell to go to Portland as soon as the errand of the doctor will go on the errand the first of the week.

#### QUITS MONDAY.

Will Turn His Office Over to Meiklejohn That Day.

Washington, July 20.—Secretary Algor will turn the war department over to Assistant Secretary Meiklejohn on Monday next, having today received a telegram from the latter at New London, Wis, stating that he would arrive in Washington on Saturday night.

#### HIGHLY VALUABLE.—Oregonian:

The amount of matter in this publication is very large, and as it lies at the very beginning of the history of the settlement of Oregon, it is highly valuable.

## A LARGE MEETING

### Wm. J. Bryan Addresses 4,000 People.

#### "LET THAT REPUBLIC LIVE."

CHICAGO, July 20.—Four thousand people crowded into the Auditorium tonight, despite the sweltering heat, to attend the political meeting given under the auspices of the Chicago-platform democrats. It was, from first to last, a silver meeting, an Altgeld meeting, an anti-trust and an anti-expansion meeting. All of the speakers, save ex-Governor Stone, of Missouri, who was ill, talked for less than two minutes in favor of 16 to 1 and against the war in the Philippine islands.

The speech of Mr Bryan evoked great enthusiasm among his hearers, especially when he declared that the American government should pursue in Luzon the same policy as was pursued in Cuba. The Philippines, he said, came into our hands by accident. Had we known better, they should have been treated on American principles, and not on those practiced by European governments. The policy of the United States he claimed, should have been to create a republic in the Philippines and say to all the world, "hands off and let that republic live." His audience was in sympathy with his suggestions regarding the Philippines and punctured his speech with cheers.

#### HE BUYS CHITTIM BARK

Dr J A Lamberson, of Lebanon, Tella of the Bark Industry.

#### Friday's Albany Herald: Dr J A

Lamberson, of Lebanon, was in the city yesterday, returning from a trip to Eugene, where he made extensive purchases of chittim bark from dealers in that city. The doctor has been engaged in buying and shipping Oregon medicines, including grape root, sarsaparilla and chittim bark, or as it is known by its medical name, cascara sagrada, for a number of years and also manufactures the various oils and extracts at his laboratory in Lebanon. His principal business just at present is in buying all the chittim bark he can, but he also expects to ship a carload of pine pitch in a few days. His activity at present is occasioned by the San Francisco syndicate attempting to force the price down and the doctor is buying all bark in sight and not allowing the cheap bark to get on the market. He is a small trust all by himself and has succeeded in cornering nearly the entire output of the upper valley, which represents a considerable proportion of the world's supply. He is paying \$90 per ton for bark at Lebanon, Albany and Eugene and has 85 tons in the Albany freight house for shipment. He purchased 70 tons yesterday from Eugene parties and last week bought about the same amount along the C & E railroad from Corvallis west to Yacquina.
