CONDEMNS THE WAR.

San Francisco Chronicle, Rep:

troops could subdue the Filipinos. Spain, with 200,000 made no impression on the 20,000 or 30,000 revolutionists in Cuba, and certainly Spaniards ought to fight as well as Cubans. The 150,000 Americans now asked for are proposed for service in Luzon alone. Suppose the 1,200 other islands in the archipelago, big and little, should blaze with revolution, where would the Americans be then? Might we not need 500,000 men before we had finished this little affair with the 10,000,000 Filipinos, some of whose ancestors helped bushwhack the first Napoleon out of Spain?

"The question now is: Do the American people want to resolve their war for humanity into a bloody conquest of subjugation? If they do, well and good; but for ourselves we believe they would prefer to try conciliation first. It is not true that it has been fairly tried already, for, as the Chronicle has often declared, and as Captain McQuestion now affirms, the peace commission was a bigger failure than the war. Schurman should have had power from congress to offer something definite, and until the offer is made no actual and sensible attempt at conciliation can be held.

"That is why the Chronicle calls for an extra session. Let the representatives of the people get together and decide what they really mean to do for the Filipinos before the government wastes any more lives and money against them."

The San Francisco Call (Rep) says in an editorial:

"We have indirectly some uncensored real news from the wife of an officer who has recently arrived here, her husband being still in the Philippines. She says insurgent bullets frequently whistle right in the city, and the Americans have to fight to hold the water works; that the narrow peninsula on which Cavite is situated has been bombarded daily for months, but was not captured until the recent expedition; that any territory, outside of Manila, is not held, while ammunition is readily smuggled through the lines to the Filipino army. It also was incidentally mentioned in her presence by another arrival that an American gunboat had been captured by the Filipinos, with a supply of Krag Jorgenson bullets. She says the people here have no idea by reason of the rigid censorship, of the actual situation in the Philippines, which is far worse for the American forces than is represented, even Manila itself not being safe. It is evident that the administration is determined that our people shall not know the truth. But murder will out."

In the resignation of the Secretary of War Russell A Alger, appears another evidence of the power of public opinion to mould the destiny of man. The acts of a public man are given to the people for approval or criticism, and their favorable decree is one which should be courted Secretary Alger is plainly unqualified for this broad and patriotic position by his many acts which looked only to pecuniary gain, or increase of political power. From either of these views, even, his zeal was like unto the man who killed the goose that laid the golden egg.

Oregon volunteers, still in the service, display a human trait in expressing too freely opinions of superior officers and conduct of campaign. Captain Coghlan and others high in rank have had the humiliation of rebuke thrust upon them for this act, which should be a lesson. The boys should wait a week or two, when they will again become private citizens. Besides General Otis has an excellent army record and will not be condemned until he has spoken.

No sympathy can go to the Brooklyn strikers who wantanly destroy property because they fail to gain a desired point. Crime is not the actwhich appeals to manly instincts.

A marriage, unged with romance, such as occurred in this city a few evenings ago, may have a tendency to boom amateur theatricals.

Fishing for Health.

When a man breaks down with that dread disease, consumption, and recognizes his condition, he starts out to fish for health. He tries this thing and that thing. He consults this doctor and that doctor. He indulges in all kinds of absurd athletic exercises. He tries first one climate and then another. He tries the rest cure and the work cure. He grows steadily worse.

That is the story of most consumptives. Finally, when the consumptive dies, the doctor shrugs his shoulders and pronounces consumption incurable. A thirty years' test of Dr. Pierce's Golden Medical Discovery has demonstrated that it cures 98 per cent. of all cases of consumption, if taken in the earlier stages of the disease, before the lungs are too far wasted. In a consumptive there is a weaker spot than even the lungs. That spot is the stomach. A consumptive never really begins to die until his stomach gives out. The "Golden Medical Discovery" not only braces up the stomach, but acts directly on the lungs, healing them and driving out all impurities. Honest medicine dealers will not urge you to take an inferior substitute.

"I had a very bad cough, also night-sweats, and was almost in my grave with consumption," writes Mrs. Clara A. McIntyre, Box 171, Ashland, Middlesex Co., Mass. "A friend of mine who had died with consumption came to me in a dream and told me to take Dr. Pierce's Golden Medical Discovery, and, thank the Lord, I did so. By the time I had taken half of the first bottle I felt much better. I kept on until I had taken three bottles. That was all I needed. I got well and strong again."

Whenever constipation is one of the complicating causes of disease, the most perfect remedy is Dr. Pierce's Pleasant Pellets, which are always effective, yet absolutely mild and harmless. There never was any remedy invented which can take their place. They never gripe.

Our baby has been continually troubled with colic and cholera infantum since his birth, and all that we could do for him did not seem to give more than temporary relief, until we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy. Since giving that remedy he has not been troubled.
