MORE FIGHTING

Engagements Near Angeles and on Negros Island.

INSURGENTS WERE PUT TO ROUT.

Manila, Aug. 20.—One lieutenant of the Twelfth infantry was killed and another was seriously wounded while reconnoitering last evening north of Angeles. The Americans encountered a large force of insurgents and drove them from their position.

Lieutenant Cole, of the Sixth infantry, with 80 men encountered 100 insurgents entrenched in the mountains of the island of Negros and routed them, after an hour and a half of severe fighting. The Americans had three men slightly hurt. Nineteen dead insurgents were counted in the trenches.

Six rifles and a quantity of reserve ammunition were captured.

The insurgents recently cut the cable in Laguna de Bay, leading to Calamba, on the south shore of the lake, but the break has been repaired.

THE RAIN

The Grain is Not Badly Damaged Yet.

SMALL AMOUNT THRASHED.

Our farmers Saturday, were feeling quite buoyant. They thought the rain was over and that the grain crop was saved beyond doubt.

Sunday morning about 8:30 o'clock the rain began falling and continued all day, and showers occurred during the night and today up to the time of going to press.

The farmers who came to town today wore apprehensive faces. They were of the opinion that if the rain should cease today or tomorrow, that the greater portion of the crop would be saved. But if it should continue a few days longer that the grain in the shock would be ruined. The standing grain will stand considerable damp weather yet without harm.

Only a small percentage of the wheat crop was threshed before the rain—not to exceed 15 or 20 per cent.

The warehouses have received about the following number of bushels:

Springfield	5,000
Eugene	5,000
Irving	5,000
Junction	10,000

HOPS.

This crop is practically uninjured, and is in no danger whatever.

HOP CROP

Some News From New York State

The Waterville, (N Y) Times, in a recent issue, says of the hop market. In that place:

Since our last issue we have heard of two sales of '98 stock. James Baldwin sold 47 bales at about 9c and China Smith 39 at 11c. Daniel Livermore has sold his six bales of Palmer Seedlings '98s, for 10c. Mrs A J Hale has sold her West Seedlings, not yet picked, about 12 bales, at 16c and Mrs Wm P Locke 20 bales of same variety for 16c. Offers of from 12c for the late crop have been made but so far not accepted.

All are watching the yards very closely now on account of the critical state they are in regarding lice. Thus far no damage to speak of has been done. It all depends on whether the lice increase and spread to all the yards or disappear as suddenly as they came. There is no denying that there are lice, some of the yards being badly afflicted with them, but it is hoped that the visitation may be short-lived.

The Oneida, (N Y) Union of last week says:

There is but comparatively little doing in the way of hop transactions here or elsewhere. A few of the Palmer Seedling and other early varieties have been harvested in different parts of the county and a few light sales are noted at from 15 to 18 cents per pound. But these sales have no bearing on the market in a general way. E J Smith, of this city, contracted 100 bales on Saturday last, at 12 cents per pound, to be delivered in October, money for picking to be advanced and quality as they grow. Among the lots secured by him was half the amounts grown by Ira L Snel, Addison Snel and Christ Bros, also 10 bales of W I Durlee.

SCHOOL MEETING.

Miss Morris Resigns as a Teacher—Miss Hall Elected to the Vacancy.

A regular meeting of the school directors of district No 4, was held in Eugene today.

ADMIRAL DEWEY

Filipinos Capable of Self Government.

REMARKABLE INTERVIEW.

London, Aug 21.—The Naples correspondent of the Daily News telegraphs the substance of an interview he had with Admiral Dewey there during the admiral's recent visit. Admiral Dewey said he believed the Philippine question would shortly be solved. In his judgment, the inhabitants are capable of self-government, and the only way to settle the insurrection and insure prosperity is to concede it to them. He declared that he was never in favor of violence toward the Filipinos, and remarked that after autonomy had been conceded, annexation might be talked of. When asked whether a conflict between Germany and the United States over the Philippines were possible, Admiral Dewey replied, according to the correspondent: "It is impossible to foresee the unforeseeable."

A FRIEND'S TRIBUTE.

John Burnett Does Honor to the Memory of Sam Simpson.

The Nestor of the Oregon bar and bench, John Burnett, eulogizes Sam Simpson as poet and man. He concludes his tribute, in the Sunday Oregonian, as follows:

"In the early '70s we wrought together in the office of our mutual friend and tutor, Colonel Kelsey. Sam was my friend, and in all the ups and downs of life, whenever and wherever we met, the warm handshake sent the blood bounding through my veins and thrilled at once the deepest recesses of my heart. He was a genial warm-hearted friend, and as white a man as God ever made. It has been well said by the Oregonian that the death of Sam L Simpson leaves an absolute blank in the line of poetical genius; and whatever the future may bring forth, I will add that as Scotland had but one Burns, so Oregon will never have but one Sam Simpson.

"The time will come when Oregonians, wherever dispersed over the face of the earth, will take as much pride in celebrating the birthday of the poet-laureate of Oregon as is now taken by the countrymen of Burns in celebrating his birthday."

John D. Newsome at Home.

Over a year ago John D Newsome, of Prineville, while attending the State University, enlisted for the war with Spain and went to the Philippines with Co C, the only Crook county representative.

"Johnny" returned to his home near Prineville Monday, August 19, and on Tuesday a large crowd of Prineville people gave him a flattering public reception at the I O O F hall. The Prineville Review has this to say of the event: "Our reception may not have been on an extensive scale as was given in some of the valley towns, but the remarks, such as 'Johnny, I am glad your are back,' and others of like tenor showed that our people meant what they said. Johnny passed through the campaign without a scratch, but says that he does not want to duplicate his experiences in the Philippines, and that he will be content with the life of a civilian hereafter."

KILLING FILIPINOS

Oregon Volunteers Tell of Their Experience and Feelings in War.

SHOOTING AND STABBING.

Portland Telegram, August 19.

"How many Filipinos did you actually kill?" was asked of a volunteer. He winced at being asked the question in such a cold-blooded manner, and thought a moment.

"Well," he replied slowly, "I would not like to say. It is a pretty hard thing to say that this one killed so many men or that one so many more, because we all shot together. Sometimes a dozen persons might shoot at the same man. I remember one instance when about 20 of us popped away at a particular Filipino almost simultaneously. He had been hidden, and jumped up to make a run for his lines. We found him later perforated with about 20 bullets. I don't think any of us missed. Except when on the picket line, or doing sharpshooters' duty, the rule was to blaze away at any old thing as long as it was black."

Another volunteer questioned had a more exciting experience.

"I never want to run a man through with a bayonet again," he said. "We were in close quarters. One big black fellow, almost naked, had his machete upraised to strike, and even then I hesitated before plunging my bayonet into him. The excitement of the fight sustained me for the time, but I have seen that fellow agonized, tortured look a thousand times since then. It is no easy job to kill even a 'nigger' in close quarters."

still More Counterfeiting.

The Secret Service has unearthed another band of counterfeiters and secured a large quantity of bogus bills, which are so cleverly executed that the average person would never suspect them of being spurious. Things of great value are always selected by counterfeiters for imitation, notably the celebrated Hostetter's Stomach Bitters, which has many imitators but no equals for indigestion, dyspepsia, constipation, nervousness and debility. The bitters sets things right in the stomach, and when the stomach is in good order it makes good blood and plenty of it. In this manner the bitters gets at the seat of strength and vitality, and restores vigor to the weak and debilitated. Beware of counterfeiters when buying.
