AS VIEWED ABROAD.

The Salem Journal Gives the Register's "Resources" a Lick.

The Register of this morning devotes several columns of space to an effort to convince its readers that taxes due the county, but much of which will not be collected before the fall and winter months, are "resources" to be figured against the \$118,000 indebtedness on which Lane county is paying interest. The Salem Journal has this criticism that is exactly in point:

A Lane county paper admits that the outstanding warrants in that county are \$114,695.98, but points with pride to the alleged fact that the county has \$66,739.33 "resources" applicable to the payment of the same. Holding that amount of "resources" while the old warrants are drawing eight per cent interest, is an indictment.

SENATORS DON'T LIKE THE PRECEDENT.

An honest expression of opinion from millionaire Clark of Montana, just refused admission to the United States senate, would be very interesting. He probably thinks that some of the senators got their places in about the same manner, only cheaper, and should not object to his companionship. Clark should recollect that he set too rapid a pace for his would-be colleagues. If he had spent a reasonable amount he might have been admitted. Senators do not wish to go home for election with such a precedent for expenses. Clark would spend a million where the ordinary senator would hesitate to contribute ten thousand.

POLITICS THAT PAYS.

Two years ago our neighbor on the south, Douglas county, elected Union officials. That it has been for the best interests of the people is shown by the following presentation of facts published in the Roseburg Review of April 23:

The semi-annual report of the county officers printed in today's Review is interesting in at least one respect. On July 1st, 1898, when the Union officials took their seats, the county debt was \$99,578.91, according to the official figures of the retiring officials; now, after only twenty-one months, it is \$13,578.91 less. This excellent showing is made notwithstanding the fact that the court house has been rebuilt and refurnished at a cost exceeding the insurance upon the burned building by several thousand dollars, and the tax levy increased for the current year by some \$20,000, thus giving the people of the county some of the substantial and gratifying fruits of economical valuation been as high as in former years the actual county debt in this present statement would have shown further corresponding decrease. This condition of the county's finances is evidence that politics sometimes pays the people who engage in it. In this instance it has certainly paid the taxpayers of Douglas county to elect the present Union officials—men who made the right kind of pledges and kept them faithfully.

In this connection it might not be out of place to emphasize the fact that a Union legislature would, also, save the people much money. Notwithstanding the reduced assessment valuation Douglas county pays this year \$25,563.45 into the state treasury because of the extravagance of the Republican legislature. If this state tax was reduced one half, as it might be if proper economy was observed in appropriating money, our county officials could easily wipe out our interest-bearing debt in a few years without levying any additional taxes.

The GUARD is in a position to speak as to the activity of mining prospectors in the mineral belts that lie east of us in the Cascade range of mountains. A location of a quartz claim is made by posting three notices on the same describing a starting point and direction of lode, with the signature of the locator attached. The GUARD prints these notices and keeps them in stock for sale. A few years ago a hundred blanks would meet the demand for a year. Now that number, or more, is sold every month.

Ten Lost Years.

Figure it for yourself. From the age of fifteen to that of forty-five a woman gives one-third of her time to the suffering periodic function. Ten years of suffering! And this condition of things is popularly accepted as natural, and endured as a feminine disability for which there is no help. Is there no help? There is help for every woman and for almost every woman. Perfect healing in the use of Dr. Pierce's Favorite Prescription. It restores regularity, drives the drains which weaken women, heals inflammation and ulceration and cures female weakness. It is a temperance medicine—non-alcoholic and non-narcotic.

"I was so weak I did not have breath to walk across my room," writes Miss Isabel Miller, of New Providence, Calhoun Co., Ky. "My periods occurred too often and the hemorrhage would be prolonged and the loss of blood very excessive. I also had spells which the doctor said were fainting fits. I did not gain strength from one month's period to another; was very weak and nervous all the time. Was confined to my bed for three months and the doctor told me I would never be any better. I lived in this way for sixteen years and in the last year I was advised by a kind friend to try Dr. Pierce's Favorite Prescription, which I did, and before I had taken two bottles of it I could walk all day. I took in all six bottles of the 'Favorite Prescription' and about five vials of Dr. Pierce's Pellets. I used no other medicine. I have never had a return of this trouble since."

The Railroad Excursion.

This year the free-for-all excursion from all valley points to Salem for \$1 round trip, will be given by the Brotherhood of Railway Trainmen, instead of the conductors. The big day is billed for Sunday, June 3, and the usual special features of amusement and entertainment will be provided. Posters announcing the excursion have already been distributed along the S. P. lines.

RUNNING UP A BIG BILL

For doctor's fees wouldn't be necessary, when you are attacked with colic at this season of the year, if you would keep a bottle of pure and high grade Cyrus Noble Whiskey in your home, and then take it in the form of toddy, or any curative diet, at bedtime or any other time. There is nothing like it for colds, La Grippe or kindred ailments.
