### Hot on the Trail of Coffee!

What will you take to try a single pound of Chase & Sanborn's High-Grade Coffee?

All beginnings are hard, as the thief said when he began by stealing an anvil. But listen to the facts!

The beginning of everything is a curious machine used only by them. It separates out the full-grown berries. Other firms would call this extravagant, but you won't when you come to drink the coffee.

These berries are then only roasted to order. The same day they are hermetically sealed in canisters so that not a breath of aroma is lost. (By the great Abu Bakr of blessed memory, what a flavor this gives to your coffee pot in the kitchen!)

Your grocer breaks the hermetic seals and puts the coffee into Chase & Sanborn's imported parchment-lined bags, each bearing the Seal Trade-mark with their signed warranty of Highest Quality. This he does to you.

and you never buy any other coffee afterward!

ROSEBURG "STREET FAIR".—Roseburg Review: "The street fair meeting last night resulted as the former ones have in no definite action. The subject was discussed pro and con for a long time, and finally was adjourned to next Monday night without action. Messrs Strong, Childs, Churchill and Wellenburg, of the executive committee, stated that they felt that they could not make a success of the fair in the time given them and with the amount of money subscribed. They were willing to co-operate in making the project a success, and asked that another committee be appointed. No action was taken but Chairman Hilbrand will probably appoint a committee."

Junction City Times: J. T. Clow, who passed an examination and applied for a position as brakeman on the S. P., was finally called and is now on the road. The boys report that "Jim" buckles down to work like an old timer and does good work.

## SAFETY CONFIRMED

### FOREIGN LEGATIONS AT PEKIN STILL ALIVE.

#### South Africa Again Heard From.

Special to the Guard.

WASHINGTON, July 21.—Minister Wu, of the Chinese government, has received during the past 24 hours, two cablegrams from Sheng, the imperial officer, stating that an imperial edict just issued reports all foreign ministers in Peking safe July 18. The report is further corroborated by the viceroy of Nanking. This news is most cheering, and since yesterday when the message came through from Minister Conger, there has been joy and rejoicing where before only sorrow prevailed. Having held out so long there is high hopes that the ministers and their families may yet be rescued.

### WHEAT CROP.

#### Farmers State It Will Be Better Than Predicted.

A GUARD reporter today interviewed quite a number of farmers on the condition of the wheat crop. Many of them have now been cutting wheat from six to ten days. Next week threshing of fall wheat will become general. Most of the farmers predict that the yield will be much better than they thought it would be 10 or 12 days ago. They now think they will have considerably over a half crop while previously they thought the yield would be under a half crop.

#### MARRIAGE LICENSE.

Geo. Bohman and Miss A. Helarich.

#### Is Known Here.

Today's Oregonian: "Gov. T. T. Geer today received a requisition from the governor of the state of Kentucky for the person of J. B. Bowlin, a teacher in the Weston schools, who is wanted in Kentucky for the crime of uttering and publishing a forged instrument. The requisition was granted, though Bowlin and his attorney appeared before the governor in opposition.

Bowlin taught school in the Spencer Creek district, this county, about one year ago. He is about 38 years old, and had a wife and daughter with him. His wife is a sister of Mrs. Amelia Smith.

ANOTHER SALOON.—J. Wils Owen and Tom L. Gilliam have leased the south room in the Hotel Eugene for a term of years, and will immediately open up a first-class saloon in the same. The Booth, Kelly Lumber Co gave up a temporary lease and have now temporarily leased the room just north of McClung's store.

### BLUE RIVER

#### Eugene Is Losing Some of Its Trade.

A TURNPIKE ROAD IS ESSENTIAL.

"The road from Eugene to Blue River should be improved," said a well known professional man to a GUARD reporter this morning. "The trade of the district will amount to thousands of dollars in a year, and Eugene is entitled to that trade. She cannot get it however, without enterprise. Brownsville will step in and secure what is Eugene's birthright, because that town is spending money on a road, and is already getting trade as a result."

"My attention was brought to this matter very forcibly this week by an Eastern man, who had been in the district on a tour of inspection. He is well pleased with the camp and asserts that it will be prominent in a few years. The one thing unexplainable to him was the fact that the road from Eugene to the district is in such bad shape."

It would be a good and profitable investment for Lane county and Eugene to build a turnpike the entire distance. Money spent in this way is never wasted. It Eugene is to hold the Blue River trade the town must rustle for it, and road building is the best rustling.
