GUNS RECOVERED

It will be remembered that last week a Mr. Richie, a California tourist, while riding down the Willamette about 2 1/2 miles above Hyland's, in a canvas boat, struck a rock on a tifle and lost two valuable guns, costing \$90, a Savage rifle and a Parker shotgun. He informed J A Desmond he could have the guns if he could recover them. This week Mr Desmond procured a boat and repaired to the scene of the accident. He could see the guns lying in about five feet of water running over the rocks, and in less than an hour he had recovered them.

State Fair.

The State Board of Agriculture is making a great effort this year to make the state fair a representative agricultural and livestock show. The program list is out and is being thoughtfully distributed throughout the state and personal efforts are being made to attract the attention of farmers and stockmen to the very liberal premiums offered.

Several counties in the state are preparing a county exhibit for the fair, for they realize that it will be a good opportunity to advertise their county in a most practical way. Each exhibit will be a lecture room, and an object lesson for the home-seeker, where he can get information, along intelligent lines, and will be worth many dollars in advertising the county's resources.

The livestock show will be without question the best ever held on the coast. Breeders all over the country are preparing to exhibit at the fair this year. There is an opportunity here in Oregon for the farmers who have been running in debt raising wheat, to turn their attention to the profitable production of beef, mutton and pork, or engage in dairying, which has already taken its place as a leading paying industry in this state. There is a demand for the best specimens of all breeds, which will continue to grow for years to come, and there is nothing that will encourage this industry so much as stock shows at the state and county fairs.

The Mill Cannot Grind with Water That's Past.

A fagged out, tearful little woman said this in telling her cares and weaknesses. Her friend encouraged by telling of a relative who was cured of just such troubles by Hood's Sarsaparilla. The little woman now has reason for joy, for she took Hood's, which put her blood in prime order, and she lives on the strength of the present instead of weeping about that of the past.

Told Her Friend—"After having gone on my sick 42 years Hood's Sarsaparilla completely cured me. I was so glad I told friends about it and a lady in Wisconsin who read of my cure told me she also took Hood's for the same trouble and was cured. She thanked me." Mrs. Anna Sutherland, Kalamazoo, Mich.

Hood's Sarsaparilla NEVER DISAPPOINTS. Hood's Pills cure liver ills, the constipating and only cathartic to save with Hood's Sarsaparilla.

WANT OREGON PRUNES

California Buyers Desire to Contract Our Crop.

There will be a shortage in the California prune crop this year and buyers from there are already visiting the prune sections of Oregon growers for this year's crop that they may be able to supply orders they have received, says the Salem Statesman.

A representative of Porter Bros., of San Francisco, has been in this vicinity for several days and is anxious to write contracts with Oregon growers for this year's prune crop. It is not known with what success the agent has met, but with the spirit of organization that so universally exists among the growers of this section, it is not likely that they will be in any great haste to contract their prunes at a nominal figure but rather investigate the benefits to be derived from co-operation. It is understood contracting agents from California offer to contract for from 2 1/2 to 4 1/2 cents according to the grade of the fruit to be delivered.

The shortage of the California prune crop, which until recently promised a good yield, is due to the unusual extent of the June "drop" of the fruit. Growers in this county report a considerable dropping of the fruit in this section, which will to an extent reduce the yield in the Willamette valley.

Vesuvius Has Lost Its Cone

This fiery crater, now suddenly silent, was explored by scientific men who discovered that the cone had disappeared. Several theories are propounded as to why the eruption ceased, also regarding the disappearance of the cone. The general belief is that it was due to subsidence, and which is looked upon as providential. It was as unexpected as are the stomach disorders with which people suddenly find themselves afflicted. Slight symptoms are neglected, until dyspepsia is chronic. The remedy to take is Hostetter's Stomach Bitters. This valuable medicine is unequalled in all cases of constipation, indigestion, biliousness, or malaria fever and ague. It brings about a healthy condition of the bowels, and improves the appetite. Be sure to give it a trial.

TOUGH HORSE.—Cottage Grove Nugget: On Monday morning at the depot was standing a well preserved but badly scarred horse which now belongs to Angelo Perini from below Comstock, that has known trouble in his day, and loss of it. Bill Landess said that some years ago the horse was lost in the Bohemia hills and for twelve days was wedged in at the hips between two trees, and when he and others found it the poor brute was so badly emaciated that it looked like two porous plasters stuck onto a Boston cracker. Barring the many scars the animal is now in fine condition.

HERE TOO.—The Stayton Mail says the population of that city as shown by the census will be a lie on its face, and complains that so much of the city lies outside the incorporation. The same condition of things will make a poor showing for McMinnville, says the Telephone-Register. This is also true of Roseburg, at least one fourth of her population being outside the corporation limits.

TO BE REPAIRED.—J M Withrow, road supervisor of Camp Creek district, with his wagon and team, and Philip A Wenger, of Camp Creek, and another man, will start up the McKenzie next Monday, by order of the county court to repair the road on the mountain east of McKenzie Bridge, which is reported to be almost impassable.

THE MAZAMAS.—This organization this year will hold their annual meeting on the pinnacle of Mt Jefferson, 10,567 feet above the Pacific ocean. The society has 230 members and is in good condition financially speaking.

Which Way?

Are the children growing nicely? A little stronger each month? A trifle heavier? That's good. Or is one of them growing the other way? Growing weaker, growing thinner, growing paler? If so, you should try Scott's Emulsion at once. 'Tis both a food and a medicine to all delicate children. It makes them grow in the right way—taller, stronger, healthier.

RUNNING UP A BIG BILL

For doctor's fees wouldn't be necessary, when you are attacked with colds at this season of the year, if you would keep a bottle of our pure and high grade Cyrus Noble Whiskey in your house and then take it in the form of toddy, or as your taste dictates, at bedtime or any other old time. There is nothing like it for colds, La Grippe or kindred ailments.
