Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars.

The Devil's Platform.

New York Illustrated Life.

Satan whispered a word to the Statesman:

"Quick, out with thy idle knife! Else the People, thy trust, will be harnessed just."

Go, preach them the Statesman's Life."

And the Statesman sprang at the summons.

And donned his warlike coat.

Obed the Devil, "Hurry!" as each man he saw.

With his hand on his neighbor's throat.

Which a vastly amused Devil.

That the tears ran down his face.

And he wagged his tail as men cried:

"Hail!"

Make way for the dominant race!"

The Devil slipped into the pulpit.

"Tis the spread of the cross!" he hissed.

And preachers with outstretched blessing of God.

On the march of the sanctified fleet.

And he shook his sides as he watched them.

Nor once did his soft laugh cease.

As the dominant race ran on its happy pace.

In the name of the Prince of Peace.

FOSSIL FIELDS OF EASTERN OREGON.

University of California Scientists Report Some Interesting Discoveries in Blue Mountains.

BERKELEY, Cal., July 27.—Discoveries of paleontological material are reported in a recent letter to President Wheeler, dated Mountain, Or., July 4, from Professor John C. Merriam, who is at the head of the expedition to the John Day fossil fields in Eastern Oregon by the University of California. It says in part:

"So far we have been operating in the northern range of the Blue Mountains. Among our specimens are quite a number of fish skulls, some of which are the best that have been found here. One of our most interesting finds is a new geological formation, which is a very important feature of this region, both geologically and paleontologically."

Collections are also being made by this expedition for the University of Munich, one of the chief seats of paleontological learning in the old world.

FILIPINOS COMING TO AMERICA

New Commission Contemplates Sending Natives to This Country to Be Educated

Berkeley, Cal., July 27.—The Philippine Commissioners contemplate sending natives of the islands to the United States to study. The first news concerning this important new policy was brought by a letter from Bernard Moses, professor of history in the University of California, and a member of the Philippine Commission, in a letter just received by President Wheeler. The letter says in part:

"From observations already made, I am inclined to think that we shall find among the young people of the islands a large number of eager and competent students, and I hope some arrangements may be made, by which from time to time, a goodly number may be sent to the schools of America. It may, perhaps, be found advisable to render some of them assistance from public funds. It is quite likely that in this way we can help to bring the people of these islands to appreciate somewhat the civilization of the United States and to mark the difference between America and Spain."

The Australian show is one of the most delightful frauds ever exhibited in this city. It's really "fun" show is enjoyed this one will meet every requirement.

H. S. Wallace expects to start his mill next week. As soon as things are under way, he expects to ship two car loads of ties per day. He will saw for the Booth-Kelly Co.

George Houck reached here Tuesday from California with 1,010 head of goats. They were shipped here by rail and although during the hot spell of weather his loss was trifling. They were a fine band of goats and will bring profitable returns. They were at once driven out to his ranch in the foothills.

Ned Burt met with a serious accident at Sisson's, California, Wednesday. He attempted to board an engine, when he slipped and fell, the wheels crushing his right leg. It was amputated and he was taken to the hospital at Portland Wednesday. He is well known in this city as he was transferred from this place to Sisson's. He was a young man only 20 years of age and had recently given up station work and started in to brake.

PLAYED OUT.

Dull headache, pains in various parts of the body, sinking at the pit of the stomach, loss of appetite, feverishness, pimples or sores, are all positive evidence of impure blood. No matter how it became so, it must be purified in order to obtain good health. Acker's Blood Elixir has never failed to cure Scrofulous or Syphilitic poisons, or any other blood diseases. It is certainly a wonderful remedy and we sell every bottle on positive guarantee. For sale by W. L. DeLano.

DOWN WITH A PARACHUTE.

A Circus Balloon Man Says It's Gentle and Not Hazardous.

"Coming down from the clouds in a parachute is like a dream," said a circus balloon artist. "Ever dream of falling from a high place? You come down, alight quietly and awake, and you're not hurt. Well, that's the parachute drop over again. No; there is no danger. A parachute can be guided readily on the down trip, but you can't steer a balloon. To guide a parachute out of harm's way a practiced hand can tilt it one way or the other, spill out air and thus work it to where you want to land or to avoid water, trees, chimneys or church spires. Circus ascensions are generally made in the evening. When the sun goes down, the wind goes down. The balloon then shoots into the air, and the parachute drops back on the circus lot or not far away. A balloon is made of 4 per cent muslin and weighs about 500 pounds. A parachute is made of 8 cent muslin.

"There is much more danger is coming down in a balloon. When it strikes the earth, it's like a big ball and bounds up again, taking you with it. Not long ago in McKeesport, Pa., I came down in a balloon because the parachute would not let go. I nearly came down in a big stack of a blast furnace, but the hot air drove the balloon away. After that I never trusted the parachute arrangement to any one, but attended to it myself.

"The rope that secures the parachute is cut with a knife. The aeronaut drops fully 100 feet before the parachute begins to fill. It must fill if you're up high enough. There are several hundred parachute men in the business, and the accidents are less in ratio than railroad casualties. A man can't shake out a parachute if it don't open. A man in the air is simply powerless. Invariably the fall is head first. When the parachute begins to fill, the descent is less rapid, and finally when the parachute has gradually filled it bulges out with a pop. Then the aeronaut climbs on to his trapeze and guides the parachute to a safe landing. In seven cases out of ten you can land back on the lot where you started from. The first performers must have had nerve to make the drop. Now it is a regular business, not considered hazardous at all. The hardest work is to bring back the balloon with a wagon. Sometimes it tears in the trees or wherever it may land when not in the open."—New York Sun.

COLT'S INVENTION.

The First Great Improvement Made in Repeating Pistols.

In this day of improved firearms the fact that the first great improvement made in repeating pistols by Colonel Samuel Colt was patented in the day of our grandfathers is seldom recalled. It was Colonel Colt, then of New York, to whom was granted the patent, Feb. 25, 1836. The original petition in the case was destroyed by the fire in December following. The letters patent were returned when application was made for the reissue, Sept. 1, 1848. The original letters are signed by Andrew Jackson, president; John Forsyth, secretary of state, and Benjamin F. Butler, attorney general.

After describing his invention Colonel Colt claims as new "the application of caps at the end of the cylinder, the application of a partition between the caps, the application of a shoulder over the caps as a security against moisture and the action of smoke upon the works of the locks, the principle of the connecting rod between the hammer and the trigger, the application of the shackle to connect the cylinder with the ratchet," etc.

There had been a revolver patented about 20 years before by one Collins, but until Colt's invention little headway was made. Indeed it was not until Colt's invention had been given a trial by Major Sam Walker and his Texas rangers that it gained popularity and was regarded as a success. About the time Colonel Colt was applying for a reissue, in 1848, Mr. Wesson had filed an application for a repeating firearm, by which the Smith & Wesson pistol of today is represented.

The Magical Mirror.

An ordinary mirror of any size or shape, a piece of French chalk, pointed so that it can be used to write, and a silk handkerchief are the requisites. Draw upon the mirror, with the chalk, any design or words you choose. With the handkerchief wipe the glass lightly until it is perfectly clear and no writing or design is apparent. Having all this prepared beforehand, show to some one and request that he breathe gently on the face of the glass, when he will see a picture of his future wife, for the design drawn will show very distinctly. This can again be wiped off, and if breathed upon the design will be again visible.

"Kirk could become famous if he weren't so lazy."

"Oh, he will get famous yet."

"What do you mean?"

"Why, he takes such good care of himself that he will live to be 100 and be famed for that."—Detroit Free Press.

A Labored Effort.

"What do you think of my play?" asked the author.

"Play!" grunted the leading man.

"Play nothing! It's hard work."—Philadelphia North American.

An agent for the American Bible society says that the first book printed in Minnesota was a Bible. It was printed in 1836, about 13 years before the first issue of a newspaper in St. Paul.

Prevented a Tragedy.

Timely information given Mrs. George Long, of New Straitsville, Ohio, prevented a dreadful tragedy and saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery. One bottle wholly cured her, and she writes this marvelous medicine also cured Mr. Long of a severe attack of pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c and \$1.00. Every bottle guaranteed. Trial bottles free at W. L. DeLano's drug store.

Starved Hair

Slow growth of hair comes from lack of hair food.

The hair has no life. It is starved. It keeps coming out, gets thinner and thinner, bald spots appear, then actual baldness. The only good hair food you can buy is—

AYER'S Hair Vigor

It feeds the roots, stops starvation, and the hair grows thick and long, it cures dandruff also. Keep a bottle of it on your dressing table. It's a splendid dressing. It always restores color to faded or gray hair. Mind, we say "always."

\$1.00 a bottle. All druggists.

"I have found your Hair Vigor to be the best remedy I have ever tried for the hair. My hair was falling out very bad, so I thought I would try a bottle of it. I had used only one bottle, and my hair stopped falling out, and it is now real thick and long."

NANCY J. MONTAGNA,
Yonkers, N. Y.,

Would Not Suffer So Again for Fifty Times Its Price

I awoke last night with severe pains in my stomach. I never felt so badly in all my life. When I came down to work this morning I felt so weak I could hardly work. I went to Miller & McCurdy's drug store and they recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. It worked like magic and one dose fixed me all right. It certainly is the finest thing I ever used for stomach trouble. I shall not use without it in my house hereafter, for I should not care to endure the suffering of last night, again for fifty times its price. G. H. WILSON, Livermore, Burg-tstown, Washington Co., Pa. This remedy is for sale by W. L. DeLano.

For the Seashore.

Newport and Yaquina Bay continues to offer for the summer vacation greater variety of attractions than can be found at any other North Pacific resort. Excellent beaches and safe bathing, enticing rides and rambles good boating and fishing, clams, crabs and oysters for the gathering, and unequalled profusion of pebbles, shells and agates. Add to this cheerful and obliging hosts, who are providing at very reasonable rates homelike quarters, and most liberal fare. They won't let one get hungry at Newport.

Story of a Slave.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, N. H., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters she is wonderfully improved and able to do her own work." This supreme remedy for female disease quickly cures nervousness, sleeplessness, melancholy, headache, back ache, fainting and dizzy spells. This miracle working medicine is a godsend to weak, sickly, run-down people. Every bottle guaranteed. Only 50c. Sold by W. L. DeLano, druggist.
