DON'T BE DUPED

There have been placed upon the market several cheap reprints of an obsolete edition of "Webster's Dictionary." They are being offered under various names at a low price.

By

Worthless

reprints are very misleading. For instance, they are advertised to be the substantial equivalent of a higher-priced book, when in reality, so far as we know and believe, they are all, from A to Z.

Reprint Dictionaries,

phototype copies of a book of over fifty years ago, which is today wanted for about \$5.00, and which was much superior in paper, print, and binding to these imitations, being then a work of some merit instead of one.

Long Since Obsolete.

The supplement of 1900 included "new words," which sum of these reprints does not contain, was compiled by a competent man who died over forty years ago, and was published before his death. These reprints, which are not only obsolete, but also contain many errors, should be discarded.

The Webster's Unabridged Dictionary, published by our house is the only authoritative one of that name familiar to all. It contains over 200,000 words, and is the only one that contains the most complete and accurate definitions of every word in the English language. It is the only one that is up to date, and is the only one that is worth the money.

SAWMILLS IN LANE.

Building New Ones—Buying Others—Contracts for Millions of Railroad Ties.

Corvallis Times.

The scramble for Oregon timber and the activity in the lumber business is illustrated by operations in the hills west of Monroe. From there to Lake Creek vast bodies of timber have recently been located by Eastern men. The amount so taken is not known, but it reaches into thousands of acres.

J. W. Walters, who has long been operating a saw mill, ten miles west of Monroe, has purchased a big mill at Elmira, and has contracted with parties to cut for him three million feet of logs in the Lake Creek mountains. These logs are to be floated down to Elmira during the rise in the mountain streams. The undertaking is one of vast proportions; Elmira is in Lane county. The output of the newly purchased mill is to be for the Southern Pacific railroad. Mr. Walters' contract is a sub-contract from the Booth-Kelly company at Grant's Pass, which is said to have a contract with the railroad for the delivery of nine million ties. The ties are for use on the Southern Pacific system in various parts of the Union.

Another feature of the operations in the vicinity is the construction, six or eight miles southwest of Monroe, of another large mill, now in progress. The mill is to be of 20,000 or 30,000 capacity daily. The entire output for the present is to be for the Southern Pacific. These ties, like those to be furnished by Walters, are supplied on a sub-contract with the Booth-Kelly company. The promoters of the new mill are Portland parties.

Asthma, bronchitis, hoarseness and all diseases of the throat, chest and lungs are surely cured by it. Call on W. L. DeLano, druggist, and get a free trial bottle. Regular size, 50¢ and \$1.
