There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F J Cheney & Co, Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F J CHENEY & Co, Toledo, Ohio, Sold by druggists, 75c. Hall's Family Pills are the best.

DISASTROUS TO SHEEP.

Patent Dip Causes Loss of Sixty Head at Monroe.

MONROE, Or., Aug 21.—M L Barnett, a stockman of this place, lost 60 head of sheep last week as a result of using patent dip. Whether the directions accompanying the condensed fluid were wrongly construed, or the dip was of a poisonous nature to sheep, is not known. Mr Barnett expresses the belief that the "cure" was worse than the scab itself.

SECOND CITY.

Captain Heath Says Eugene is Next to Portland.

Capt H L Heath, of McMinnville, is in the city and will go the Blue River mines tomorrow, where he has large interests. He informs us that Eugene is the best town in all of Western Oregon. He says: "Eugene's tributary timber and mining interests are what is booming her. Her streets are crowded with people doing trading, and dwellings and business blocks are springing up on every hand, while the other valley towns, on account of the failure of the grain crops, are dull and lifeless. Eugene is bound to make the second city of Oregon, if her people rustle, and I am satisfied they are made of that kind of material."

Where Pearl Comes From.

The pearl fisheries of the Red Sea extend the whole length of that water. About three hundred boats are employed by the Arab tribes, manned by crews of from five to twelve men, each provided with a number of small canoes. There are two fishing seasons of the year, and this treasure is said to be oftimes as elusive as a far more precious treasure—Health for which so many search uselessly. The sure guide to health is Hostetter's Stomach Bitters, an invaluable remedy for stomach disorders, recommended by the best physicians for the past fifty years. It should be taken for constipation, indigestion, dyspepsia, liver trouble, kidney weakness or any disorders resulting from impure blood or an overworked stomach.

OUR FIREMEN.—At a joint meeting of Rescue and Cyclone hose teams, last night, it was voted to attend the carnival at Roseburg September 17, 18 and 19, and contest for firemen's prizes, provided our business men would subscribe enough money to meet their expenses while gone. Chief Engineer Hodes presided over the meeting and appointed Ray Barb and Wm Branstetter a committee to make all necessary arrangements for the trip, and to raise the money needed. We hope they will have no trouble in raising the money.

BIG FREIGHT TO MINES.

Large Quantities of Supplies Being Hauled to Blue River Mines Over Gate Creek Road.

Cal Young has just returned from a trip into the Blue River mining district. Mr Young came out down the Gate Creek wagon road, and says he was astonished at the volume of teaming that is being done into the mines, and the quantity of supplies that are being hauled in for winter and present use. He gives us the following notes as to the loaded teams that went into the mines over the Gate Creek road during the several days of which he had information: Wednesday, August 15—Four 4-horse and one 2-horse teams. Thursday, August 16—Three heavy and two light loaded 2-horse teams. Friday, August 17—Thirteen 4 horse and one 6-horse teams as close together as they could drive.

Monday, August 20—Four 4-horse and two 2-horse teams.

Mr Young took in 744 feet of dressed lumber with one two horse team, 740 feet with another, and doubled his teams but three times on the road. Dressed and seasoned larch lumber weighs three pounds to the foot, so it will be seen he hauled over 2,200 pounds to the span of horses.

Notice to Contractors.

The County Court of Lane County, Oregon, will receive bids up to 2 o'clock p m Wednesday, September 5th, 1900, for furnishing the materials and constructing a wagon road bridge (covered) across the Long Tom river at what is known as the "Taylor bridge" on said river, in Lane County, Oregon. Plans, specifications and strain diagrams must accompany each bid together with a certified check to the amount of five per cent of the bid. The court reserves the right to reject any and all bids.

By order of the court. E U LEK, County Clerk.

To Stump for Bryan.

CHICAGO, Aug. 15.—Col William R Morrison will stump for Bryan this year.

Col Morrison, who is now past seventy years of age, served in congress for many years. He was the author of the Morrison tariff bill, presented by the democrats in the early eighties, and providing for a horizontal reduction of the existing duties. Four years ago, while a member of the interstate commerce commission, he bolted both Bryan and Altgeld.

AT ROSEBURG.—Plaindealer August 15: "Capt Darwin Yoran, W W Brown and I T Nicklin, a trio of prominent young men of Eugene, who have been touring the coast counties on wheels, arrived in Roseburg Friday evening in good spirits but pretty much fatigued as a result of their long tireome, but interesting journey. Their itinerary included the descent of the Suslaw river to Florence, thence down the coast to Empire and Bandon, thence out to Roseburg via the old Coos Bay road, which they report in a horrible condition. This office acknowledges a pleasant call from the tourists, who informed us that after a Sunday's rest at Roswell Springs they would return home well satisfied with their summer's outing."

OUR MINES.—Corvallis Gazette: J E Andrews returned Sunday morning from an outing of a few days in Eugene and Cottage Grove. In speaking of the grain crops in that section, Mr Andrews stated that they were really poorer than they are in Benton, and in one instance a man is reported to have threshed only 50 bushels of wheat from 24 acres. However, he states that the mines of the Bohemia and Blue River districts, and the lumbering industry will tide the crop over, and they will not feel the people failure as they would had wheat-raising been their sole support.

WOOD COMING.—The 2,300 cords of wood from Fall Creek, of J I Barbre, has commenced arriving here, about 25 cords being against the boom in the millrace. The main body of the wood is at the head of the Springfield millrace. The wood is contracted to the Eugene Electric Light and Water Companies and the public schools.

CONCENTRATES.—Ray Frank and Bert Apgar arrived here yesterday with a load of concentrates from the Blue River quartz mill. In due course of time they will be shipped to the smelter at Tacoma to be treated. They are rich in gold.

Wasting

Are you nervous, restless, pale and easily tired? Perhaps the scales can tell you why. If your weight is below your average, that explains it.

Scott's Emulsion is a fat-producing food. You soon begin to gain and you keep on gaining long after you stop taking it. For all wasting diseases, in both young and old, it is the one standard remedy.
