She Found His Ring.

Mr Fitz, the proprietor and manager of "A Breezy Time," which will appear here shortly, is a Knight Templar and a thirty-second degree Mason, and also a Mystic Shriner. On one of his fingers he wears a ring presented to him by his wife, with all the different emblems of the above order on it.

The other morning while he and his wife were at breakfast, he suddenly discovered that he had left the ring in his room, and at once hastened for it. After an unsuccessful search of the room for a few minutes, he asked the chambermaid, who was making the bed at the time, if she had seen it. She answered that the only ring she had found was "this napkin ring," and she presented to him the ring he was looking for. The chambermaid should not be considered impertinent when it is made known to our readers that Mr Fitz weighs only 315 pounds.
