Two Opinions.

Public Monthly for July.

The action of the regents of the University of Oregon in prohibiting the erection of a Y. M. C. A. building on the University campus opens a wide field for discussion. Those opposed to the scheme contend that it would be contrary to both the spirit and the letter of the state constitution and contrary to public sentiment. They do not deny that the college Christian Association is an instrument of good, but they claim that there are some religious denominations whose members cannot be admitted to it. Those who favor the building project say that similar structures have been built on other state university grounds, but, on the other hand, it is argued that these same structures have been the cause of endless trouble. Although the Y. M. C. A. of the University of Oregon feels somewhat disappointed over the outcome of its plan, the vote of the board of regents was unanimous and public sentiment throughout the state seems to endorse their action.

More Postal Money Orders.

The postoffice department looks for a considerable increase in the money order business between the United States and Cuba, Canada and the Philippines, by reason of the adoption of its recent order doing away with the old "certification" process, and permitting the direct exchange of money orders. Heretofore a person in the United States sending a money order to one in Cuba, Canada or the Philippines has been compelled to send that order first to an "exchange office," where the order was certified and then forwarded to its destination for payment. This certification often caused delays of from one to two weeks, which will be entirely done away with under the new system. The same certification process was adhered to in Canada, Cuba and the Philippines with money orders coming to the United States.

Now, orders issued at an office in the United States and draw on any money order office in Canada, Cuba or the Philippines, will be honored and paid without certification, and the same is true as to orders coming to this country. Not only is this saving in time, but in cost to the sender. Under the foreign exchange a charge of 1 per cent of the amount forwarded was made for transmission. Now but three-tenths of 1 per cent will be charged, as on local money orders. There was said to have been a great exchange of money between points in Alaska, Adlin, and British Columbia. They formerly had to be sent to Victoria, now they go to Adlin direct.

Free Lectures.

Posters are out announcing the coming of W. G. Calderwood, secretary of state prohibition committee of Minnesota. This eminent reformer will be in Eugene, Saturday, August 2, and will speak in the Park at 4 p. m.

Amongst the topics he discusses are: "The Failure of Prohibition," "The Devil's Quips," "Once One Is One" and "Dollars and Doughnuts." Calderwood is a forceful speaker and no doubt will have a good sized audience Saturday. The Midland Advocate speaking of one of his recent addresses says:

"He talked to both eyes and ears of his audience and held them spell bound, evoking cries of 'Go on' when time was up. When he sat down the applause amounted to an ovation."

Military Club Meeting.

Regular meeting of the Eugene Military Club tomorrow evening. A number of important questions to consider. Members are urged to be present.

LEG BROKEN AGAIN.—Yesterday afternoon about 4 o'clock, at Springfield, Rev. N. B. Alley, the contractor, had his right leg broken, just above the fracture received in June, 1900. He and Samuel Battee were working on Nate Hill's house when the scaffold gave way and precipitated Mr. Alley to the ground, a distance of about ten feet, with the above result. Mr. Battee clung to a portion of the scaffold that remained and was uninjured. The fall also wrenched Mr. Alley's back and then he received several injuries about the head and body. He was brought to his residence in this city and the fractures were set by Dr. T. W. Harris, last evening. About a year ago he fell from Dr. Selover's residence and broke the same leg. The patient today is resting as well as can be expected under the circumstances. The GUARD trusts the gentleman will soon be about again. It is just the season of year that it is very hard to be laid up, and also considering the fact that Mr. Alley has a number of contracts on hand.

A CONSIDERATE ACT.—Capt. Spong, of the steamer, Pomona, as he came up the river on his way to Salem on Monday evening, says the Statesman, found a cow stuck in the mud on the bank of the river. He stopped his boat and with the assistance of his crew, pulled the unfortunate bovine out of the mud, put her on terra firma, and sent her on her way homeward. Then the boat proceeded on up the river, the captain not thinking he had done anything more or less than his duty. But this writer would like to remark that a man who is thus considerate of the welfare of a poor dumb creature, would not show a less consideration for the feelings or safety of sentient being. As he "done his duty" by the cow, he will do by all God's creatures.

NEW FLOUR MILL.—Corvallis Times: Maudeville is no more, says a Monroe correspondent. Only the hole, at one time, served as basement to the flouring mill remains to mark the spot where the hopes and ambitions of town builders failed to materialize. The entire mill structure, buildings and machinery, even the brick used in setting the bolles have been removed to Harrisburg where the owners, A. Wilhelm & Sons, of Monroe, are constructing a modern mill at a cost of \$17,000.

BAND ENGAGED.—The Fourth Regiment band, of this city, has been engaged to furnish music for the Roseburg street fair this fall. The band is an excellent one.

WANTED.—A man and wife to work on a farm. Call on S. M. Douglas above Springfield, or address him at Eugene.
