UNCLE SAM'S LATEST PROTEGES.

The Butte, Montana, Miner tells of the arrival home of an army surgeon from two years' duty in the Philippines with his estimate of the Filipino, gained through contact with the animal:

At the best the Filipinos are a stupid, lazy set of people, being below the American Indian in point of intelligence and industry. Capitalists who have gone there to engage in business enterprises have found the labor problem the worst thing that they have to contend with, as it is next to impossible to get the natives to work. All they care for is to get enough money to supply their immediate needs. If a person hires a native to do some work and he gets enough for one day's labor on which to subsist for a week it is impossible to get that Filipino to do any more work until he is again in want. They live very cheaply, their main diet being fish, rice, sweet potatoes and palan, a root which grows wild, which they cook and eat. The government has found by bitter experience that it is next to impossible to starve these people into submission, as those tactics have been tried in the Samar island without success. The natives live on sweet potatoes which grow wild all over the hills, fish which they catch in abundance, and plantain a species of the banana, which grows to a large size and in great abundance in the forests. When cooked this plantain makes a very palatable and nourishing dish.

Albany Democrat: After leaving Albany on Dec 24, A. B. Smith, the sharper who borrowed \$1,000 of Mrs. Harding, of this city, on a forged deed to the property of Mr. Muslemann, of near Lebanon, went directly to Lewiston, Ill., where he played about the same game a second time under the name of Geo. Shafer and secured \$2,000. In this case he bought two pieces and claimed to have money to pay for one and needed the \$2,000 to liquidate for the second eighty acres situated in the adjoining county. A strange coincidence in connection with the matter is that the sheriff had telegraphed to the sheriff of Lewiston inquiring about one Bebe Smith, who about that time had visited an Albany lodge and registered from that place, thinking this was the Smith, whereas Bebe Smith is a barber who had just come here, now working at the Combination shop, a trustworthy gentleman, a fact afterwards learned. Notwithstanding this warning the flimflammer did his work without being captured in Illinois.

Colonel Knight, father of Portia Knight the Salem girl who is suing the Duke of Manchester for breach of promise, takes the public into his fearful confidence with the statement that the "Juke" broke faith with his daughter because he "needed the money" of the Cincinnati girl whom he married. Well, that is no new thing in the matrimonial market line! It is happening every day with men who are not dukes.

And now the cigar trade is up in arms against public trade for public benefit. They protest against free cigars from Cuba, claiming it will ruin their trade. The users of sugar and tobacco, and together they embrace the entire country, should get at least an inkling as to how they are being robbed by these protected monopolists through the frantic appeals being made for tariffs against Cuban and Philippine products.

"He may mean well," said the young doctor, "but I don't ex-

actly like the tone of his letter."

"What's the matter?" inquired the old practitioner.

"Jones, the undertaker, writes and says that if I will send my patients to him he will guarantee them satisfaction."

DIDN'T GO THROUGH HIS POCKETS.

"My dear, you must have slept very soundly last night."

"Why?"

"I left a half-dollar note in my trousers pocket and it was still there this morning."

A Close Call.

Florence West: The steamer Roberts came very near being destroyed by fire Tuesday evening. The flames were seen issuing from the engine room about 8 o'clock and the alarm immediately given. The fire company were promptly on hand with their apparatus, the extinguishers were soon playing on the flames and in a short time the fire was under control.

The craft had been hauled out on the ways for repairs about a week previous and there had been no fire in the furnace for several days. The only fire on board the vessel that day was in the cook stove in the galley and it is thought the blaze started from the stovepipe. The flames evidently spread rapidly as all the woodwork of the upper part of the engine room is charred on the inside.

The loss is comparatively light as the machinery is not injured and only the woodwork of the upper portion is damaged, and this is not enough to prevent the vessel from towing.

This is the second time the Roberts has narrowly escaped destruction by the flames.

The Fuel of the Future.

The question has been worrying many people who fear that the coal supply is becoming exhausted, but there is no need to worry, however, as a substitute has been discovered in petroleum. In nearly all of nature's products we find that as soon as one material becomes scarce another is discovered to take its place. There is one exception and that is Hostetter's Stomach Bitters. It is nature's own remedy for all stomach, liver and bowel complaints, and during the past fifty years it has been impossible to make a better medicine. It cures indigestion, dyspepsia, constipation, nervousness and malaria, fever and ague. If you have never tried it, do so today. It cannot help but do you good. Our private die stamp is over the neck of the bottle.

STEAMER FOR YACUINA.—The Toledo Post says: There is pretty loud talk of putting on a steamer to run from Yacovina to San Francisco. As an independent one responsible firm agrees to place 200 tons of freight every few days at Yacovina to be carried to San Francisco—a good starter, certainly. Now if the return freight can be secured averaging fairly up to the down freight, a steamer may be secured.

OVERBURDENED.

The Egyptian woman looks greatly overburdened, and yet the physical burden she carries will not compare with the burdens borne by many an American woman. There is no burden like the burden of disease. The woman who suffers from inflammation of the uterus, bearing-down pains, weak back and nervousness, bears a burden which crushes her very life.

Every woman should know that Dr. Pierce's Favorite Prescription makes weak women strong and sick women well. It cures the womanly diseases which cause weakness and feebleness. It quiets the nerves, cures the aching back and throbbing head, and gives strength for wifely, social and maternal duties.

"When I first wrote to you I was in a bad condition, and had almost given up," says Mrs. F. W. Osburn, of Willamette, Oregon. "I was suffering from female trouble of the worst kind. I couldn't eat anything without getting sick; was nervous and weak. Had much backache and aching head and back. It seemed that I could not work at all. I got Dr. Pierce's medicine and took it as directed, and the first week it began to help me. I took three bottles and am glad to say that it did me more good than all the other medicine I ever took. I feel better than I have for years."

Dr. Pierce's Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing, or if cloth bound volume is desired, send 11 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

A Deep Mystery.

It is a mystery why women endure backache, headache, nervousness, sleeplessness, melancholy, fainting and dizzy spells when thousands have proved that Electric Bitters will quickly cure such troubles. "I suffered for years with kidney trouble," writes Mrs. Phoebe Cherley, of Peterson, Ia., "and a lame back pained me so I could not dress myself, but Electric Bitters wholly cured me, and, although 78 years old, I now am able to do all my housework." It overcomes constipation, improves appetite, gives perfect health. Only 50c at W. L. DeLano's drug store.
