A high toned dance on North Pearl street last evening. Matlock & Goodchild today received 20 new Rambler bicycles. The first district republican convention will be held in Roseburg April 1st. Miss M. Sewer gas and I never did agree, because I place the waste and vent pipes in a practical way that isolates the deadly poison from your homes. W. M. Morrow, 489 Willamette street. J. W. Baker, of Cottage Grove, well known in Eugene, has been seriously ill, but is slightly improved. Dr. Calbreath, of the Salem insane asylum, waited on him a few days ago. A notice is stuck up on the vacant lot just west of Farrow's real estate office on West Eighth street that "Prof. Hooville and Hopkins will give a free exhibition of rope walking on this lot Saturday afternoon." The WEEKLY GUARD, issued today, contains an excellent picture of J. R. Whitney, of the Albany Herald, who is a candidate for the nomination of state printer on the republican ticket. He is a former Eugene boy. J. C. Roach, of Coburg, has bought a lot on East Thirteenth and Patterson streets and is now hauling lumber to build a new house this fall. Mr. Roach is the owner of other valuable property in our flourishing city. The wife of Prof. J. T. Handaker, whose home is in Seattle, was quite seriously injured a few days ago in that city, caused by the carelessness of a street car conductor starting up too soon when she was leaving the car. State Journal: Who are the people responsible for the scheme to appropriate \$150,000 for a public building at Oregon City and the same amount for Albany and nothing for Eugene? Eugene is a more important place now than either Oregon City or Albany and is going ahead much faster than either of them. The First Republican Congressional district convention will be held in Roseburg April 1st. Dr. T. W. Harris is back from Portland where he acted as chairman of the committee that called the convention, and represented seven of the fifteen counties. Today's Oregonian contains a picture of the doctor. Snell Bicycles. Come in and see the beautiful Snells, the small Snell. The Snell Cycle Co is not in the bicycle trust. It is on the outside and is the largest independent maker of bicycles in America, the factory covering over 7 acres. The Snell bicycles are the finest in existence and are so recognized by expert mechanics. They are sold in all European countries in the face of the hottest competition in Europe. The Snells sell one-third higher than the native bicycles, but the better class of people buy Snells because they are recognized as the best. Like a handsome woman they attract attention wherever seen. They are very light, and the handsomest wheels you ever saw. Come in and see these Snells. They are the only bicycle that has made any improvements for 1903 worthy of mention. We would like for you to come in and look these wheels over. The quality is the finest you ever saw and the bearings are as fine as silk and as clean as glass. BARKER GUN WORKS, East Ninth street, Eugene, Or. The Revised Bible.

The new American standard revision of the Bible brings it up to date, without changing its meaning; but do the people want any change from the original copy? Thousands will answer "No." This would also be the popular answer if you ask people who have tried Hostetter's Stomach Bitters to use some other remedy. New medicines come and go, but this old reliable remedy continues to be the favorite, because it can always be relied on in the most severe cases of indigestion, dyspepsia, flatulency, nervousness, constipation or biliousness. We would therefore urge you to try it. You will feel its beneficial effect from the start, and it will eventually restore you to perfect health. Our private die stamp is over the neck of the bottle.

Last evening the Misses Mollie and Ernest Whitmore were given a surprise at their home on East Ninth street by the guards of Eugene circle No. 16, Women of Woodcraft, Miss Mollie Whitmore being captain of the guards. FINE NEW BUILDING.

J. H. McClung Will Erect a Three Story Brick. TO REPLACE PRESENT STRUCTURE. For some time Hon. J. H. McClung has contemplated replacing the two-story stone and brick building now occupied by his dry goods store at the corner of Eighth and Willamette streets, with a three-story brick. He has been consulting several architects during the last few weeks and has just accepted the plans drawn by W. C. Knighton, of Portland. A GUARD reporter was shown the plans this morning. The building, while plain on the exterior, will present an imposing appearance and will materially beautify that portion of the business district. The building will be 55x114 feet in dimensions, extending from Willamette street to Park street. The lower floor will contain four rooms, the largest one to be occupied by Mr. McClung's store and will be 34x80 feet. The one next door facing on Willamette street will be a small one and will be occupied by a barber shop. The two other rooms will front on East Eighth street and will be located in the rear of the main store room. They have already been spoken for but it has not been definitely settled as to who will occupy them. The interior of the main room as well as the others will be handsomely finished in the most up-to-date manner. There will be a vestibule entrance with tile floor and from the vestibule two swinging doors will open into the main room. A stairway will be put in at the north side of the building leading from Willamette street. An elevator will be put in at the rear of the building. The second and third stories will be partitioned off into office rooms, 24 to be on the second and 25 on the third floor. All of these will be very well lighted. A basement will be constructed and a steam heating plant put in to furnish warmth for the entire building. The total cost of this fine structure will be in the neighborhood of \$20,000. The work of tearing down the old building will commence between the first and 15th of May and the new one will be finished before winter comes again. Mr. McClung expects to occupy the lower floor by autumn. THE OLD BUILDING. The old building as it now stands was built by J. B. Underwood and J. G. Gray in 1872. In 1888 Joseph Teal, now residing in Portland, erected a one-story stone building 27x65 feet on that corner, the stone being taken from the Fairmount quarry now owned by Peter Nye. Messrs Underwood and Gray built onto this structure with brick, extending it back to the rear about 15 feet, to the north about 20 feet and added a second story. It was then—in 1872—about the handsomest building in the city. The building has for a good many years been owned by a company, of which Mr. McClung was a member, until only a few months ago he bought out the interest held by the other members. Thus Eugene grows. This structure, together with the others in contemplation, will cause great activity in the building line this coming spring and summer. Wants the \$50. DEAR GUARD:—The Register rode a "high horse" this morning and talked about "Cowardly Sampson" intemperately and indecently, and offered \$50 (on paper of course) for proof that he had "personally supported \$5000 Furnish for Governor." I meekly refer that paper to a conversation the editor had recently with Chas. A. Hardy and L. Blyden on Willamette street, it being a public one. Now give the \$50 to J. W. Geary Post, G. A. R., Mr. Editor, a prominent member of which you recently "offered" (cheek galore) "two positions on the county republican ticket, if they were selected at once," and you will satisfy SAMPSON.
