Frank E. Dunn.

A FULL LINE OF Heating and Cook Stoves.

Prices Low. LOUGHMILLER & PETER.

BIG GAME TOMORROW

University of Oregon and Whitman College on Gridiron.

U. O. Will Be at a Disadvantage but Hopes to Pull Down a Victory...The Lineup.

Among college and 'Varsity people the talk about the game tomorrow is varied. The consensus of opinion is that Oregon is at a slight disadvantage. We hope not.

The big game between the 'Varsity and Whitman College elevens will be well worth seeing. The visitors average 161 pounds to the man and the home team 158. The field will very likely be muddy and slippery and it will be exceedingly difficult for 140-pound Chandler or Jordan at the ends to stop the Missionaries from the north in end plays. We do not think they have any advantage over the home line, as the 'Varsity boys found their weaknesses Saturday and are correcting them. Nothing can be told as to the outcome.

The Washington lads are in the very best of condition, while Oregon's warriors are still lame and bruised up in spots. Goodrich is not in fast form and Pat Murphy, the quarter, is out of the game. Templeton is just recovering from a severe boil which has kept playing easy. With all their faults we love them still, and hope they ektu the Washington lads decisively on the murky turf of Kincaid field tomorrow.

It is to be hoped that the field will be completely marked and the crowd wired back from the south side.

Both teams practiced secretly on Kincaid field yesterday and today.

Following is the lineup of the teams and the respective weights of the members:

Table with columns for OREGON and WHITMAN, listing player names and weights.

Substitutes—Oregon: Starr (144), Latourette (136), Sergeant (143), Penland (156), Applegate (135). Whitman: W. Lassater (180), Malloy (170), Dement (181). Average weight—Oregon, 158; Whitman, 161.

AN IMPORTANT TRANSACTION

A Spokane Syndicate Buys an Interest of Great Central Townsite Co.

ROSEMUR, Oct. 21.—The Great Central Townsite Company, which recently acquired a little over one thousand acres of land in North Roseburg, comprising nearly all of what is known as the Bushert addition, have sold this property to the agent of a Spokane syndicate for the reported price of \$50,000. To the original owner and for an option from the leasee of this property, the Great Central Townsite Company paid \$13,000 and \$5,000 respectively, some few days ago. The importance of this deal lies in the fact that on this property the erection of the depot and office building of the Great Central railroad, Salt Lake to Coos Bay, has been begun. The business character of the purchasing syndicate has not been divulged, but it is understood that their acquisition of this land will in no way effect the operations of the railroad company thereon.

OREGON WHEAT.

Department of Agriculture Gives Average of 19.1 Bushels to the Acre.

WASHINGTON, Oct. 21.—The monthly report of the states to the department of agriculture shows the average of yield per acre in states having 100,000 acres, or upwards, in the spring wheat are as follows: Minnesota 13.0; Nebraska, 13.0; Colorado, 17.4; North Dakota, 15.7; Washington, 21.0; Kansas, 10.9; South Dakota, 12.4; Oregon, 19.1; Utah, 24.2; Iowa, 12.0; Wisconsin, 17.8; Idaho, 25.1. The average quality of spring wheat is 87.7. The estimate of the average yield per acre of oats is 34.5 bushels. This is the largest ever reported by the department.

Courthouse News.

MARRIAGE LICENSES.

Chaney Davis and May Haakin, J C Haakin witness.

Four Great Universities.

Seattle, Oct. 20.—Dr George E Howard, who has come by the invitation of the Board of Regents to investigate the conditions of the university with a view of accepting the office of president, made a tour of inspection yesterday. He says he believes that within 10 years, the university will have an annual enrollment of 2500. He says that he is greatly pleased with the location of the campus and its arrangement, and that there is destined to be four truly great universities in the Western states—the University of Washington, the University of Oregon, Stanford University and the University of California.

Immense Spuds.

The Willamette Valley Land Co has on exhibition at its office 10 enormous potatoes grown just north of the city across the river. They weigh 16 pounds or an average of 1 3/4 lbs each and were gotten out of the same hill. If every hill contained the same number as this one the yield would be 1750 bushels per acre.

The company will take these potatoes, along with a lot of other farm products to Oklahoma for exhibition in the near future.

Christian Alliance Meeting.

This Tuesday evening, October 21, at 8 o'clock, the Christian Alliance will hold its first meeting after adjournment. A good program. Mrs. Lovdell will sing. The public invited.

MINERS' CONVENTION

Many Excited Speeches for and Against Arbitration.

Scotch Colliery Fire—Fifty Thousand Dollar Stake for Air-Ship Race.

By Scripps News Association

LONDON, Oct. 21.—An English syndicate has made an offer of \$50,000 as a prize for an airship race between London and Paris. Lord Spencer is named as a contestant. Aeronaut Dumont has been asked to enter, but has refused on the plea that he requires a year's time in which to build an airship.

Arbitration Fight.

By Scripps News Association

WILKESBARRE, Oct. 21.—The second day of the coal-miners' convention opened this morning with arbitration adherents and its opponents squarely facing each other and fitted for a desperate struggle in behalf of their respective contentions.

Many delegates who had put themselves squarely on record as opposed to the proposed arbitration scheme were won over during the night.

President Mitchell and Secretary Wilson made strong pleas in favor of accepting the arbitration proposed by President Roosevelt.

There is every indication that the men will be ordered to go back to resume work Thursday.

Colliery Fire.

By Scripps News Association

GLASGOW, Oct. 21.—The United colliery at Fauldhouse is afire. It is certain that four miners have lost their lives.

Miners Go to Work.

By Scripps News Association

WILKESBARRE, Oct. 21.—The big strike was settled at 12 o'clock exactly today. The miners go back to work awaiting the direction of the Presidential arbitration commission.

President Mitchell heard all who desired to speak on the question and patiently answered the questions asked him. He then put the question as to returning to work. It carried without a dissenting vote.

[The strike commenced Sunday, April 27th, therefore has lasted nearly six months. It has cost many lives and millions upon millions of dollars in loss of wages to miners and others dependent on coal for fuel in manufacturing.—ED GUARD.]
