## CLEAN RUBBISH FROM PREMISES

### Insurance Inspector Says He Might Have to Raise Rates on the City.

The notice which has been inserted in the Eugene papers admonishing property owners to clean up their premises must be obeyed at once. The city is in fairly good shape except in some instances where excelsior, old boxes, barrels and rubbish of various kinds which accumulates in short time, have become piled up in rear of stores and on lots adjacent. These substances lying around are invitations to flames and might cause serious loss of property if they are not at once removed.  
A. T. Von Edinger, traveling inspector for the Palatine, Commercial Union and Alliance Fire Insurance Companies, was in the city this morning and made the rounds of business premises with the chief of police and street commissioner. He found the condition of things not quite satisfactory and states that it must be immediately remedied or he will be compelled to report to his companies and to the board of fire underwriters, and the result will be an increase in insurance rates for Eugene.  
This city has enjoyed reasonable rates and will continue to do so. The business men and residents will no doubt see to it that their premises are kept in proper condition.

## To Protect Timber.

The timber companies holding timber west of Dallas, are putting in fire wardens at their own expense for the protection of their own interests. Last summer after some of the timber fires up the McKenzie, the holders of timber here talked of placing a scout or two in various localities to protect their timber interests. This would cost but little to the claim and would insure safety of timber, but like other things, it was forgotten with the winter rains. It is now a good time to consider this matter; this fall may be too late.

## Logan-Wild Blackberry Cross.

Mrs. L. Bilyeu favored the Guard yesterday with samples of a new berry that cannot but become a favorite, that is if prolific like its popular parents. The berry in question is a cross between the wild blackberry and the Logan berry--both popular fruits.

The new berry has the shape of the Logan, with much of the tart and piquancy of the wild berry. In size it is a medium between the parent berries. It is named the Mammoth by its originator.

## Coburg Picnic.

A mid-summer picnic has been planned by the ladies of Coburg to take place at the Coburg bridge on the McKenzie, Sunday, July 26. The event is being conducted for the benefit of the Coburg band. Amusements, literary exercises and pleasure boats will be provided.

Mr. E. King Henderson, deputy postmaster of Eugene, arrived in our valley last Saturday and is visiting with his brother, Charles Henderson. We acknowledge a pleasant call from Mr. H. and it reminded us of our boyhood days when we were both printer boys. Time appears to have dealt gently with him and we hope it will so continue. ## FRANK E DUNN'S

## CIRCUS DATE IS ARRANGED

The Ringling Brothers Circus, the most famous show in America at this time, has arranged a date for Eugene. August 28th will be the time for all small boys to look forward to and the time for all grown people to commence thinking about taking the children. The show is said to be larger and better than ever.  
Geo. Gross has secured the contract to feed three bunches of bill posters, 25 in each bunch, for three days in Eugene, so we may also look forward to the time when the bill boards will tell what the show is going to be.

## Note and Comment.

The Register remarked of the various criticisms which have been seen in the Albany Democrat concerning the recent carnival held there and stated that the Democrat did not have nerve enough to oppose its coming in the first place. All of which brings the following statement from that paper: "The Democrat has not opposed the carnival since its coming. It has simply criticized it where it deserved to be. It gave some interesting attractions and we had heaps of fun."  
"By the way it was not nerve at all, but spite of local character, which induced the Register to oppose the carnival. It stands in with worse fakes right along."

Following a statement in the press that Eugene daily consumed some 600,000 gallons of water, the Albany Democrat says:

"Mr. Hogue, of the Albany Water Company, gives the daily consumption of water in Albany in 24 hours as approximately 1,000,000 gallons. The increase over Eugene is probably due to the greater number of feet of pipe here, and yet there are sections of the city that are not yet receiving water."

It's a good thing to have a second say. The Democrat man was probably estimating on all the pumps and including the beer consumption of the city too.

The fact that Engle and Kostal, the star twirlers of the Browns who pitched for Roseburg Saturday and Sunday in Albany, were touched up for his almost at will by the Albany haters, proves that the teams of the Willamette Valley Baseball League are fast company all by themselves. Every team in the bunch, except that of Albany, could win game after game in the Pacific Coast League. This is not conceit, it is almost an assured fact. Somers, of Eugene, is one of the best pitchers on the coast. His team supports him and when a hit is made off him there is no time going to waste in the field returning the ball to the proper place. With such fast men as O'Day, Ordway and Strub to toss to such a sure catcher as Crawford, all of them aided by such fielders as Shanahan,

Harper and Chapin, make the aggregation which is winning the pennant. Of course with Mahoney behind the bat and Pratt to alternate in the box and in the field, there is nothing to it but victory.

The Corvallis Gazette has a long article headed "Come, Let's Wake Up." It is probable that the Gazette man recently came through Albany, hence his desire to "wake up."

## FORESTERS WILL CONDUCT PICNIC

### Committee Appointed to Arrange Fine Program for Foresters Day in Park.

The Eugene lodge, Court Popular, Foresters of America, will conduct a picnic at Bang's Park on Forester's Day, the 15th of August. The affair is to be one of the events of outdoor summer life and will be made an attraction for everybody. Games, contests, races of all kinds and amusements by the dozen are being figured for by the enterprising Foresters.  
The committee, appointed at the last meeting of the lodge to have charge of the affair is as follows:  
M. S. Moon, Fred Bloomfield, A. Lombard, C. C. White and Walter Ross. Sub-committees will probably be appointed by these to have charge of minor parts. The picnic will probably be made an annual affair if this one is a success.

## Evidence is Delayed.

In the will contest being conducted by Mrs. McLam before County Judge Kincaid against her brother's will, alleging that insanity and undue influence caused him to sign the paper when he was unwilling, the case has adjourned from Michigan which will arrive from Michigan which will prove that Covell was subject to insanity and that that was one of the grounds for which a divorce was granted to his wife in Michigan years ago.

The case will rest until the papers arrive.
