Land Fraud Incidents

A very ludicrous incident just came to light in the Pater-McKinley land frauds—ludicrous to all but the victim—is that of Professor E. J. Toland, a handwriting expert of La Crosse, Wisconsin, and proprietor of several business colleges there. He came out here to give expert testimony that certain signatures in the land fraud trials were not made by Marie Ware or Emma Watson, but as the defendants changed their pleas to "guilty" was not called on their behalf. Now would you for a moment suppose Pater would attempt to put off his forged and worthless paper on his would be benefactor? He not only attempted, but did so, expert Toland having parted with a goodly lot of cash in exchange for fraudulent conveyances.

Herman Goddard is a wealthy La Crosse, Wisconsin, lumberman, who put \$24,000 as he thought into Oregon timber land, only to find the certificates forged. His son came all the way to Salem to learn the exact status of the certificates, and when informed said neither he nor his father would lose any sleep over the affair. Maybe so, yet his making a close to four thousand mile journey to fully assure himself makes us think the information will not by any means prove a sedative to the old man.

Plymouth church, Brooklyn, that once paid Henry Ward Beecher \$100,000 salary a year—and got value received till the scandal involving him with Mrs. Tilton set numberless tongues wagging all over the country, now pays but \$8000, with a deficit this year. And it was not entirely personally with the great preacher, his published sermons and "Life of Christ" being not only readable, but showing intellectual superiority.

It is so the habit to give the Mohammedan a bad name that one is really surprised to read that the Christian Armenians set three hundred Mohammedan houses on fire at Tiflis, Caucasus, fixed on the firemen who attempted to put out the flames, and prevented the inmates from leaving.

GUIDE TO ALL ELECTIONS

Prepared by the Oregon Secretary of State

Complicated System Is Brought Into Action by the Adoption of the Direct Primary Law

The adoption of the direct primary law has given Oregon such a complicated system of elections that not even the accomplished politician can carry in his mind all the details of the proceedings leading to the general election in the state, district and county officers. One of the most difficult things to ascertain and remember is the dates upon which the various steps in the nomination and election of officers must be taken. In fact, the ordinary citizen cannot figure out the dates if he has the statute before him, for the language varies and different methods of computing time must be adopted.

Secretary of State Unubar and Attorney General Crawford have examined the election laws and computed the time within which the petitions must be filed, notices given and other business conducted in preparation for the election.

The following list contains all the dates of interest to the voter and candidate for office:

REGISTRATION.

Registration books opened by county clerks, Tuesday, January 2.
Registration books closed for primary election, April 10, 5 p. m.
Registration books opened after primary election, April 25.
Registration books closed for general election, May 15, 5 p. m.

INITIATIVE PETITIONS.

DIRECT PRIMARY ELECTION.

County clerks give notice of primary election not later than March 21.
Last day for filing petitions for placing names on ballot for state, congressional and district offices, March 30.
Last day for filing petitions for county offices, April 1.
Date of primary election, April 20.
Canvassing votes of primary election for state offices, May 5.

GENERAL ELECTION.

Last day for filing certificates of nomination for state offices by assembly of electors, April 19.
Last day for filing nominating petitions for state offices, May 4.
