HOP MARKET SEEMS BAD

Hop news is, to say the least, discouraging to the big industry of Oregon. The latest hop reports show 1904s selling as low as 4½ cents, and 5 cents is now a big price for the hops that were 32 cents at one time. The 1905s are not much better, the price ranging from 6 cents to 9½ cents. The shorts are now contracting to deliver 1906 hops in New York city for 12 cents. This means that these gamblers guarantee that 1906 Oregon hops will not bring over 6 or 7 cents a pound next year. Under these circumstances growers will be compelled to cut all expenses and pickers will not be given over half of this year's prices.

HIGH SCHOOL PLAYS HARRISBURG

On Christmas night the Eugene high school basketball team will play a game with a team from Harrisburg in that city. The Linn county boys have some good material to choose from, but when it comes to the game as a science the high school lads can outshine them. The team from here will be as follows: Perret, centre; Watson Hurd, King, forwards; Smith, Farrington, guards.

WILL HOLD ANOTHER ELECTION

Electric Light and Water Bonds Question to Be Resubmitted

Election Will Be Held Tuesday, January 2—No Bids Received for Bonds Voted in September

The voters of Eugene will have another opportunity to express their views upon the municipal ownership question. At last night's meeting of the city council another special election, as predicted in the Guard last evening, was ordered held on Tuesday, January 2, 1906, for the purpose of re-submitting the question of the issuance of \$100,000 electric light bonds and \$100,000 water bonds.

A resolution to this effect was introduced by Councilman Matlock and carried 6 to 2. Councilman Spencer and Heston voting no for the reason, they stated, that the date was inconvenient for most of the voters, it being practically the first day of the year, when all business men are busy with their monthly and yearly collections.

Mr. Matlock, in presenting the resolution, stated that since a suit to enjoin the council from issuing the bonds had been commenced there has existed a doubt as to the legality of the election in September, and inasmuch as another election would be less expensive than a lawsuit, it was thought best to re-submit the question to the voters and proceed in a manner that would appear to all to be entirely legal. He also stated that inasmuch as a report had been circulated that the voters had changed their minds on the municipal ownership question, this would give them an opportunity to express themselves.

NO BIDDERS FOR BONDS.

The meeting last night was called for the purpose of opening bids for the \$200,000 bonds voted in September. Letters from four bond-purchasing concerns were opened but no bids were received. These firms thought that 4 per cent., the rate of interest offered by the city, was too low. Three of them wanted 4½ per cent., and another higher than that. The firms are: Leason, Wood & Mayer, of Cincinnati; John Naveen, of Chicago; N. W. Harris & Co., of Chicago, and Morris Brothers, of Portland.

After the letters were read Councilman Matlock offered a resolution, which was passed, to defer the matter of acting upon any bids for bonds until Wednesday evening, January 3, 1906.

OTHER BUSINESS.

Ordinances were passed as follows: To levy an assessment for the improvement of Stewart avenue from West Thirteenth street to West Seventeenth street.

To establish grade in alley running east and west between West Eighth and West Ninth streets from centre of block to Olive street.

Fire Chief Moran submitted his plan for a fire alarm system, as outlined in the Guard a few days ago, and the matter was referred to the committee of the whole.

After reading a number of bills and transacting other minor business the meeting adjourned.

INJURED IN LOGGING CAMP

Emory Richardson, a young man employed in Fellman & Nicolle's logging camp on the Siuslaw river, was quite badly hurt yesterday and will be unable to work for several weeks on account of his injury. The crew was breaking a jam of logs and young Richardson was working on the line. The lead block suddenly broke and the line flew back, striking the young man on the back of the head, rendering him unconscious. He soon regained consciousness, but no bones were broken. He will be laid up for some time to come.

THE CHURCH ON WHEELS

Services are attracting considerable attention in the chapel car Emmanuel, sidetracked at the depot. There is a short song service and gospel address by Rev. and Mrs. E. R. Hermiton, who have charge of the work. The car is well equipped for religious service. There is an Estey organ inside, a brass pulpit and Edison phonograph and a blackboard, with seating capacity of 120 persons. There are six of these cars being operated by the American Baptist Publication Society. Over 12,000 persons have publicly professed faith in the Christian religion as a result of this unique method of work. The car work has been greatly blessed among the railroad men. Each one of these cars has a special history. The first one, "Emanuel," was built by a chapel car syndicate, the "Serald of Hope" was built by the young men in the Baptist denomination, and "Glad Tidings" was built by Wm. Hills and supported by him. "Emmanuel," the one that is in the city at this time, was built by the Baptists on the Pacific coast. The cost of the car is about six thousand dollars, and was raised by small offerings. Tonight at 7:30 Mrs. Hermiton will preach. This will be the last service held this week in the car.
