

THE MATCHLESS AND UNMATCHABLE

Embroidery Sale

At the Bon Marche Store.

Two Days (FRIDAY AND SATURDAY) Two Days Only. (16th and 17th.) Only.

WE HAVE imported on our own account direct from St. Gall, Switzerland, 500 pieces Embroideries, 36 yards to the piece, eighteen thousand (18,000) yards, at a price which enables us to sell fine, wide embroideries for less than half of regular prices. The patterns are strictly new, and different from the ordinary patterns you see everyone have on sale.

You owe it to yourself to make an exceptional effort to be present at the beginning of this sale merely to satisfy yourself by undisputable evidence—the goods and prices themselves—that we are right now giving you a chance to save from a third to one-half of what you will ordinarily have to pay for Embroidery from any other store in Eugene.

Here's a chance to save money given to everybody!

Regular 15c to 20c Embroideries, the yard — 9c
 Regular 30c to 35c Embroideries, the yard — 12c
 Regular 45c to 75c Embroideries, the yard — 18c

Not One Yard Will Be Sold Before or After This Sale At These Prices, As This is Our Customers' Benefit Sale, And Not Ours.

The BON MARCHE,

A Place to Save Money on Embroideries.

DOCTORS WORK FOR PURE MEAT

Instances Where Unwholesome Foods Were Peddled in Eugene

Effort Being Made to Have Only Pure Food Handled—Prospects of Having Authority Established

During Eugene's slug the meat supply is being looked after, and it is probable in the near future that all meats sold in this city will be inspected so as to guarantee that it is wholesome, nutritious and innocuous. It is stated that abattoirs can be had at this place that will do away with all unsanitary killing and butchering of meat, and under the system all meat must be inspected.

EUGENE'S MEAT SUPPLY.

It is stated that much of the cheap meat offered to Eugene people is diseased and unfit for food. It is stated that a short time ago a farmer near Eugene was killing an old diseased cow to feed to his chickens when a peddler came along, bought the carcass for almost nothing, and peddled it out to Eugene's epicureans. This is bad enough, but worse is told of a man residing near the city. One of his cows had sloughed a calf, and being of an economical disposition, he killed a hog and ground the two together, made sausage meat of them and peddled it out to consumers in this city.

DOCTORS SIGN PETITION.

Some Eugene doctors have signed a petition asking that a regular inspector of meat and stock be appointed with power to seize and retain carcasses of diseased animals. All live animals unfit for human food should be given attention by this same authority, and milk from diseased cows should also be condemned.

WANT HEALTHY CONDITIONS.

The doctors believe that the health of the community depends much on the meat supply that it should be safeguarded as much as possible. If some such arrangement is made as is planned it will avoid any unnecessary danger.

Bijou Announcement

Owing to a great deal of sickness in Eugene the Nonpareil Stock Company will not show here until Tuesday, February 20th, when they will appear with another new show.

Luckiest Man in Arkansas

"I'm the luckiest man in Arkansas," writes H. L. Stanley, of Bruno, "since the restoration of my wife's health after five years of continuous coughing and bleeding from the lungs, and I owe my good fortune to the world's greatest medicine, Dr. King's New Discovery for Consumption, which I know from experience will cure consumption if taken in time. My wife improved with first bottle and twelve bottles completed the cure." Cures the worst coughs, attacks of colds or more, refunded. At W. L. DeLano's drug store, 30c and \$1. Trial bottle free.

For the Public Benefit

O. C. Mickelson would like the public to read what Dr. Harris says: "I have had the O. C. Mickelson & Co. dairy examined and find everything in a satisfactory condition." J. W. HARRIS, Co. Health Officer, February 10, 1906.

Frightfully Burned

Chas. W. Moore, a machinist, of Ford City, Pa., had his hand frightfully burned in an electrical furnace. He applied Bucklen's Arnica Salve with the usual result: "A quick and perfect cure." Greatest healer on earth for burns, wounds, sores, eczema, and piles. 25c at W. L. DeLano's drug store.

INTERESTING MEETING OF COUNCIL

Warm Discussion on Water, Typhoid Fever and Other Matters

Number of Arc Lights Ordered Put in—Ordinance Passed Ordering University to Connect Its Sewer With City Sewer

The meeting of the city council last night was an interesting one and was attended by a large number of citizens interested in the health of the city, for it had been rumored about the streets that some warm discussion upon the subjects of the water supply and the typhoid fever epidemic would be had. And the spectators were not disappointed, either.

A petition from the Fortnightly Club demanding that the city immediately secure a supply of pure water and one from a number of citizens residing in the southeastern part of the city demanding that the council compel the water company to act immediately to better the water supply and the petitioners would hold the city responsible for damages, provoked much discussion. The mayor ordered the latter petition placed on file, whereupon Councilman Matlock objected in no uncertain terms and finally moved that the petition be referred to the city attorney, to report at a meeting to be called by the mayor.

Discussion on other matters became heated at times and several enthusiastic spectators broke out with applause and hisses at different times.

ROUTINE MATTERS.

Report of the street commissioner showed that 17,106 feet of lumber had been used during the month.

A petition for a sidewalk on Stewart avenue from West Thirteenth street to West Seventeenth street was presented and it was announced that the walk had already been built.

A petition for a sidewalk on West Seventeenth street from Stewart avenue to Willamette street, was not allowed but the present sidewalk was ordered repaired.

The street committee was authorized to advertise for bids for the city lamp supply.

Deed of dedication from W. P. Deedshire to the city was read. The deed gives the city the right to enter upon private property for the construction of a sewer.

CONTAGIOUS DISEASES.

The health committee reported 23 cases of measles, six of smallpox and between 90 and 100 cases of typhoid. The mayor and health committee were authorized to secure disinfectants and use their judgment about using them.

MORE ARC LIGHTS.

A resolution authorizing the city to contract for more street arc lights until the total number is 50, at \$6 per light, was passed by a narrow margin, the mayor casting the deciding vote.

The vote on the resolution stood as follows: Aye—Spencer, Bristow, Horn, Beckwith, Mayor Wilkins. No—Calkins, Matlock, Henderson, Garrett.

Petitions for numerous lights at different places were then read and referred to a committee appointed by the mayor to locate the additional lights ordered.

OTHER MATTERS.

A petition to abolish the present dumping ground near the river was granted.

A petition for the removal of the old junk shop on the R. A. Booth property at the corner of East Eleventh and Mill streets, was referred to the health committee with power to act.

The bill of Engineer F. C. Kelsey for \$225.75, balance due for surveys for the municipal light and water plants, was presented by Councilman Matlock.

UNIVERSITY SEWER.

As predicted in last night's Guard, an ordinance was passed authorizing the construction of a 12-inch sewer on the south side of East Eleventh street from the university to the High street sewer and doing away with the university sewer emptying into the mill-race.

CURB ORDINANCE.

The curb ordinance was passed. A uniform curb for all streets excepting the principal business streets is provided for. This will leave 34 feet of street proper.

With the services of their new cook the Palms is making a specialty of dinner. Try them and be convinced.

DEATH OF AN EARLY OREGON PIONEER

Died—In Acme, Oregon, on Friday, February 2, 1906, Mrs. Emily Vandenberg, in the 82nd year of her age.

Emily Culver was born in the state of Ohio on March 11, 1824. At the age of 18 years she united in marriage to John Vandenberg, who died some sixteen years ago. In 1864 she crossed the plains to Oregon, with her husband and children and settled on South Coos river near Marshfield, where they made their home for some twenty years. About 1881 they moved to the Siuslaw, and here a few years later Mr. Vandenberg was laid to rest. Since the death of her husband Mrs. Vandenberg has made her home most of the time with her daughter, Mrs. Lindsay.

Funeral services were held Sunday at the remains laid to rest in the Masonic cemetery.

Mrs. Vandenberg left four sons and three daughters.

Notes and Comment

If the members of the city council or the new water company think so a instant that the citizens of Eugene are not in earnest when they ask and demand pure, wholesome water, they are in error. Promises were repeatedly made that a new source of supply for the water system would be obtained that would be satisfactory to the people of Eugene, and further, it is stated to have it. The water company is digging new wells, but the location is worse than the present source. The new wells are less than 15 feet from the river bed and in the midst of the most unsanitary conditions that can be imagined. The council is aware of these conditions, yet it does not respond to the voices from the homes of this city. Well, 100 cases of typhoid and new cases developing daily, several deaths have occurred, and more will follow, it seems to us the height of folly not to attempt to remedy the situation. The Guard fully understands that the new company has only had control of the plant a few days and are much concerned, but the placing of the well or the new water supply does not show good faith. The council last night received a communication from the Fortnightly Club, the women's organization of this city, appealing for help. It is true that Councilman Matlock, supported by three other councilmen, tried to prevent its being ignored by placing it on the table, but the effort failed, and a citizens' petition failed but little better. In speaking of the matter one councilman stated conditions were not as bad as made out by the newspapers. We can easily convince him that he erred. When every physician in Eugene states the conditions as they exist, it is time something was done to give us pure water. The water company has a filter and new pipes enroute. They announce that dead ends will be eliminated entirely. Now if they will eliminate the bad water supply we will have no cause for complaint.

Business Briefs

A PUBLIC BUILDING FOR EUGENE

Commercial Club Will Take Matter up at Tonight's Meeting

Committee Will Probably Be Appointed to Communicate With Representatives in Congress for Appropriation

The Commercial Club will meet tonight to discuss the matter of securing an appropriation from congress for the erection of a public building for Eugene. It is probable that a committee will be appointed to communicate with Oregon's representatives in congress looking to such an appropriation.

Salem, not much larger than Eugene, has had its public building for three or four years. Bills have been introduced for public buildings at Baker City, Oregon City and other places in the state, but Eugene has not yet asked for one. We have a population of over 6000 and if we are not entitled to a public building no city in the state outside of Portland is.

The Commercial Club is the proper organization to take up this matter and the Guard predicts that the committee, if one is appointed, will be successful in its efforts to secure an appropriation.

DEMOCRATIC MASS MEETING CALLED

Eugene, Or., Feb. 12, 1906.

At a meeting of the Democratic county central committee held February 10, 1906, it was resolved that a Democratic mass meeting be called to meet at the courthouse on Saturday, February 24, at 10 o'clock in the forenoon to make a platform and suggest suitable persons for nomination at the primary election to be held April 23, 1906, and to transact other business which may come before the meeting.

Now, therefore, in compliance with said resolution, a mass meeting of the Democratic party is called to meet at the courthouse in Eugene, Saturday, February 24, 1906, at 10 o'clock in the forenoon, to consider the subjects and to transact such other business as may come before the assembly. All Democrats are urged to attend and participate in said meeting.

J. D. MATLOCK,
Chairman Democratic County Central Committee.

M. S. WALLIS,
Secretary.

Notice to Tax Payers

Believing that conditions will be materially improved by complying strictly with the requirements of law and assessing all property for its "true cash value," I take this means of notifying the public that such will be my purpose and that assessing will commence on March 1st. Unrecorded deeds should be placed on record before March 1st, else property represented by same will be assessed to former owner.

Please have your list of personal property ready when the assessor or deputy calls for same—that owned on March 1st at one o'clock a. m., 1906.

B. F. KEENEY,
County Assessor.

A Healing Gospel

The Rev. J. C. Warren, pastor of Sharon Baptist church, Balair, Ga., says of Electric Bitters: "It's a god-send to mankind. It cured me of lame back, stiff joints and complete physical collapse. I was so weak I took me half an hour to walk a mile. Two bottles of Electric Bitters have made me so strong I have just walked three miles in 30 minutes and feel like walking three more. It's made a new man of me." Greatest remedy for weakness and all stomach, liver and kidney complaints. Sold under guarantee by W. L. DeLano, druggist. Price 50c.

25 Cent Beds.

Nice, clean beds. Every room on the outside. No noise from street or sidewalk travel. Well lighted, roomy, comfortable offices with safe but handy baggage room. On same block and just back of courthouse.

We Fill Any Prescription.

You have the same right to your druggist that you do your physician. Each should be chosen with care. Many people have the impression that prescriptions must be filled by the druggist upon whose blank they appear. But the blank has nothing whatever to do with it. The physician is apt to pick up whatever one has in hand, and he has no choice in the matter except that the prescription be filled where the work will be properly done. We make a specialty of graded prescription work and are prepared to give service of ideal character. No matter what physician you consult he will be glad to have his prescriptions filled here.
