TRIED TO WALK ON THE WATER

Aberdeen, Wash., Feb. 20.—E. N. Nash, a logger working for Polson, was seized with a form of religious mania Sunday. Acting on the belief that he was directed by God to walk on the water, he made the attempt to do so on the Hoquiam river several times, resulting in his receiving a number of cold baths. Nash, wet and dripping, started for Gray's Harbor City, but was captured by officers and will be examined at Monesano, the county seat, as to his sanity. Nothing is known of the man, but he is supposed to have a wife and family in San Francisco and a sister in Ellensburg.

MRS. POWERS AWARDED INSURANCE MONEY
 Court Decrees That She is Entitled to \$2,000 Life Insurance Held by Her Husband
 Judge J. W. Hamilton of the circuit court has handed down a decree in the case wherein there was a doubt as to the rightful owner of the \$2,000 insurance money carried in the Woodmen of the World by the late Lew A. Powers. The judge awards the money to Mrs. Mettie Powers, wife of the deceased, and decrees that the costs of the suit be paid out of the sum.
 It will be remembered that shortly after Mr. Powers' death, his brother Glenn O. Powers, sued the head camp of the Pacific Jurisdiction of the Woodmen of the World for the payment of the \$2,000 to him, the policy having been changed to his name some time before Lew's death. Mrs. Mettie Powers fought the case with the result that she receives the money.
 Thompson & Hardy were the attorneys for Mrs. Powers.

LIME DISINFECTANT FOR WELLS
 Several cases of typhoid fever having appeared at Oregon City, Dr. Carl of Portland, in the Telegram, sounds a note of warning to people of lower Willamette river towns that their only absolute safety lies in boiled water. Here is the doctor's advice as to open wells:
 "Unslaked lime is an excellent disinfectant, and is better than chloride of lime and cheaper. People who use wells should throw down a lump as big as one's head at least twice during the season. This will give forth lime water for a few days, but it is not at all injurious, and after that the water will be pure and sweet. The objection to the flat taste of boiled water can easily be removed by placing the boiled water in jugs or bottles, and when the water has cooled the jugs should be shaken for a few minutes and it will re-absorb it. The jugs should not be more than half or two-thirds full."
 The poverty ball will start at 9 o'clock sharp.

 No. 3548. 2-21-06

Note and Comment
 Dr. J. W. Harris, county health officer, informs us that twelve new cases of typhoid fever were reported today.
 Salem people declare that the rumor so persistent in Eugene that Salem is affected with the typhoid fever is untrue.
 Boil your water and kill the microbes. It is the only safe way with the present water supply.
 If the water company could possibly do so it would not be a bad idea to get a supply of water from some temporary source till a permanent location is secured.
 Richard III offered a kingdom for a horse. We have plenty of horses, but would be glad to give a kingdom for some pure water.
 Fresh rain water is microbeless. Those who use it are sure of pure water.

Don't Be Fooled By Misleading Advertisements.

I am the only dealer in Eugene that has in stock or can sell you a new Trowbridge or Kohler & Campbell Piano.
 Any statement that new Pianos of these makes are for sale elsewhere are false.
 All my Pianos and Organs come direct from the factory.
 I am selling Pianos for less money than the consignment dealer can buy them.
 Call and inspect the bright, new Pianos and see if I haven't the least prices for the quality of goods in Oregon.
 All my pianos are bright and new, not the old picked over stuffs sent out of Portland houses to work off on the country people.
 I am the piano dealer that stays with you all the time.
