STREET RAILWAY SYSTEM FOR CITY OF EUGENE

A. B. Wood, G. B. Hengen, O. F. Paxton and F. L. Cham-
bers Make Application for Franchise for Line at
Last Night's Meeting of City Council

Mr. Chambers Says Financial End Is All Fixed and as Soon as Suitable
Franchise Is Granted Construction Work Will Begin-- Line Will
First Be Built on West Sixth, Willamette, East Thirteenth,
East Fifteenth Streets and University Avenue

At last night's meeting of the city
council A. B. Wood, manager of the
Oregon & Southeastern railroad (the
Cottage Grove-Bohemia line) and of
the Oregon Securities Company, the
big mining concern operating in the
Bohemia district, presented a petition
asking that a franchise for an electric
street railway to be built on the
streets of Eugene be granted. He
stated that his associates were G. B.
Hengen, principal owner of the Bo-
hemia railroad, of New York; O. F.
Paxton, a prominent lawyer of Port-
land and F. L. Chambers, president
of the Chambers-Bristow Banking
Company of Eugene.

A franchise is desired for construc-
tion of lines on the following streets:
Running east and west on Sixth,
Eighth, Ninth, Eleventh, Twelfth,
Thirteenth and Fifteenth; north and
south on Washington, Willamette,
Pearl, Ferry, Patterson and Univer-
sity avenue. The application stipu-
lates that work is to begin on the
lines within one year after granting
the franchise and to be completed
within three years. A maximum sum
of five cents is to be charged as fare
in any one direction and the cars are
to be operated either by electricity or
cable.

The application will be considered
by the council within a short time.

CONSTRUCTION BEGINS SOON.

F. L. Chambers, who is named as
one of the applicants for the fran-
chise, was interviewed in regard to

the matter this morning. He stated
that just as soon as a franchise is
granted, and if it is satisfactory to
the promoters of the enterprise, con-
struction work on the line will com-
mence. Work will at first begin on
West Sixth street, at the intersection
of Washington. It will then extend
east to Willamette street, south on
Willamette to Thirteenth street, east
on East Thirteenth street to Univer-
sity avenue, south on University ave-
nue to East Fifteenth street and east
on East Fifteenth street across Fair-
mount to the city limits. Other lines
will be constructed as soon as the
necessity demands.

MONEY IS READY.

Mr. Chambers said that all the
money necessary for the construction
is ready. To use his own words, "The
financial end is all fixed and as soon
as this end is fixed construction will
begin."

When asked if the Willamette Valley
Traction Co. was behind the project
Mr. Chambers replied that a separate
company would construct the system,
but that it would be closely allied
with the Willamette Traction Co., as
evidenced by the fact that Mr. Pax-
ton is one of the applicants for the
franchise. The company will not be
incorporated and organized until the
franchise is secured.

Mr. Chambers said that other im-
portant enterprises hinged on this
one, but no information concerning
them is yet ready to be given out.
