Oregon Athletes

A crack Chicago basketball team, which has been beating nearly everything along the way, ran up against two teams in Oregon which were able to defeat them, O. A. C. and Dallas. This speaks well for the position Oregon has in athletics. We have the material here for competing in anything. The best athlete at Yale is an Oregon man, and the head coach for Yale's football team this year will be an Oregon man. Many times in athletics we have furnished the best, Oregon men going East standing at the head. But it is not alone in athletics. Our students in Eastern colleges have almost universally ranked high. The young man with an ambition sufficient to take him so far for an education is bound to make it.—Ex.

A curious will that of a contractor and Board of Trade operator at Chicago. He left \$20,000 to provide a home for his fox terrier dog, and \$300 a year for the care of his old riding horse.

State Game Warden Baker, of Cottage Grove, from his travels about the state in performance of the duties of his office, has exceptional opportunities of learning the feeling about Governor Chamberlain. He says there is a very strong feeling that the governor should be re-elected.

Senator Smoot, of Utah, took his second wife in polygamous marriage through what Mormons term the "celestial" ceremony. While there may have been some things celestial about it, she prosaically gave birth to a son though still bearing the prefix "Miss" to her name. The senator must have thought well of the celestial mode, for he took his third the same way.

A singular case that of George Francis Train, tried at Los Angeles for petit larceny the other day. Jurors were scarce and he agreed to submit his fate to a single juror. After hearing the story the juror was locked up in a room, and as half an hour went by without hearing from him the lawyers concluded it was another case of a hung jury. Then there came a knock at the door and he emerged with a verdict of "not guilty."

Senator Depew, of New York, is a very sick man, all directly traceable to the life insurance investigation, which developed the fact that he had been paid an annual salary as attorney by the New York Life Insurance Company for years without performing a single bit of legal service. At his age he could not stand the inevitable severe criticism that followed publicity.

Rabbi Hirsch, of Chicago, discussing the unusual prevalence of crime in that city, says all the very bad criminals are atheists. Still, we suppose, the rabbi will not deny history—that there have been some very bad things done in the name of religion. Even the devout Puritans who would not so much as cook a meal or kiss their wives on Sunday, burnt witches. The Jews themselves killed and spoiled "the enemy," and skipping lots of other events, we had a great war over slavery in which the participants had God arrayed on either side.

CAKE OUT FOR UNITED STATES SENATOR

I believe the public service corporations should be subject to governmental regulations and control. The power of regulation should be vested in the Interstate Commerce Commission and should be exercised with due regard to the respective rights of the people and the corporation.

Trusts or combinations of capital organized for the purpose of controlling the utilities and necessities of the country, to the exclusion of legitimate competition, are contrary to public policy, in derogation to the rights of the people, and should come under the ban of the law.

I believe in preserving the dignity of our American citizenship and the freedom of the laboring classes of this country, hence I am opposed to the admission of the Chinese coolie labor of China and the undesirable classes of continental Europe.

The growing commerce of Oregon demands the deepening of the bar of the Columbia river, the construction of the Dalles-Celilo canal, the opening of the upper Columbia, the improvement of Coos Bay, Tillamook and Yaquina harbors, the dredging of the Willamette and the government ownership of the locks at Oregon City and Federal appropriations should be made, securing these improvements.

A tariff should be maintained for the protection of American industries and American labor. Where, however, the necessity for protection is removed by the growth and development of a particular industry, the tariff should be modified to meet the changed conditions.

The reclamation of the arid lands is one of the pressing needs of the Northwest, and a condition necessary to its development, and the efficiency of the reclamation service should be one of the first cares of the Federal government.

The Federal constitution should be amended to provide for the election of United States senators by direct vote of the people, and I am in favor of the establishment of the parcels post.
