## DISTANCE TRAVELED BY A DANCER

Professor C. A. Burden, the gymnastic instructor at the university, last week made an investigation of how far a person travels at an evening's dance. By the use of a pedometer last Saturday night he found that during an evening's dance of three hours' duration the average number of miles that a man dances is six and a quarter. This distance also includes the distance walked across the hall and to and from the auterooms.

## WOMAN'S SUFFRAGE AND PROHIBITION

(Communicated.)

It has frequently been asserted that woman suffrage would solve the liquor problem. The student of reform would do well to study the situation in Kansas before coming to any such conclusion. Kansas is the only state which has tried the experiment of municipal suffrage pure and simple.

When the prohibition movement was at its height in the Northwest a provision was added to the state constitution of Kansas prohibiting saloons and making the sale of liquor illegal. This was done largely at the instance of women and it was supposed their votes under the municipal suffrage law would secure the enforcement of prohibition, but the women soon found as many men had learned before them that the ballot is not a self-acting agency. There must be a voter behind it, and in cases where a moral evil is to be suppressed by law, a very active, vigilant and untiring voter. They learned how hard a task it is for even a majority of women voters to hold in check the strong passions of the stronger sex and great tired of their self-sought duties as guardians of public morals. The consequence was that liquor selling flourished in prohibition Kansas as it did scarcely anywhere else. Then a few women fell back on the tactics of a perverted feminism, and sought under the leadership of a half-crazed woman to do by violent, emotional means what had proved so impossible by legal methods. Evidently the temperance situation in Kansas was not improved by woman suffrage.

It was not until men took up the question of saloon licenses that the reputation of Kansas was partially redeemed. The moral influence of Carrie Nation and her cohort may have helped the situation, but neither her vote nor those of her followers had anything to do with the result. The men of Kansas seem to have taken the moral of all this to heart. They are trying no more experiments with woman suffrage. Municipal suffrage was granted to women, as we have said, in 1905. In four years the fatality of it as a moral purifier had become so evident that in 1901 the legislature defeated two bills giving additional political rights to women. Three years later a suffrage proposition was submitted to the people and defeated by a majority of 31,827. In nearly every legislature since some such measure has been defeated. During the last session, 1904-05, a suffrage bill was killed in the senate by a vote of 19 to 5, almost 5 to 1. Such a test and such a failure of woman suffrage is worth more than pages of theorizing.

## SALOON LICENSE TO BE RAISED IN EUGENE

Ruling Majority in Council Favors Advance to \$300 per Year

City Council Makes Counter Proposal to Water Co. for Purchase of Plant-Slot Machine Must Go

At last night's adjourned meeting of the city council the matter of the Willamette Valley Company's proposition to sell the water works to the city, a price to be fixed by arbitration committee of three, was taken up. It was decided not to accept the proposition, but instead a resolution as follows was unanimously adopted, it being introduced by Councilman Calkins:

"Whereas, An offer has been submitted to the city of Eugene for the acquiring by said city of the present plant of the Willamette Valley Company; be it

"Resolved, That it is the desire of the common council of the city of Eugene that the Willamette Valley Company submit to the common council a proposition for the sale of said property, and the common council expresses a willingness and a desire to meet with the representatives of said company at any time in the immediate future to take up and consider the purchase and sale of said property; and be it further

"Resolved, That a copy of these resolutions be furnished to the said company by the city recorder."

### COMMITTEE ASSIGNMENTS.

At the opening of the meeting Councilman Calkins addressed the council in regard to the committee assignments made by Mayor Wilkins at the last meeting. He stated that the municipal ownership councilmen felt that the mayor had not been fair and impartial in the assignments in that the chairmanship of the three most important committees was given to the anti-municipal ownership councilmen, who are in the minority. He thought that the chairmanship of at least one of these committees be given the municipal ownership people and asked that Mr. Henderson be named as chairman of the fire and water committee in place of Mr. Bristol. The other members of the committee are Mr. Calkins and Mr. Spencer. The mayor stated that in making the appointments he had endeavored to be fair and impartial, but that he would take Mr. Calkins' request under consideration.

### SALOON ORDINANCES.

Councilman Calkins introduced an ordinance fixing the annual saloon license at \$300 per year instead of \$200, as at present. An effort was made to secure a vote on it last night but the matter was postponed until tonight, when the council meets again. The ordinance will probably pass, as the majority are in favor of it. It is said that the following will vote for its passage: Calkins, Garrett, Henderson, McCrady and Gilbert.

Councilman Garrett introduced an ordinance compelling the saloons to remove all screens from their windows on Sundays and other closing hours.

Councilman Calkins introduced an ordinance forbidding the use of nickel-in-the-slot machines. It will probably pass tonight, as the ruling majority is in favor of it.

## WM. BENNETT KILLED IN THE FOREST

Young Lumberman Meets Sudden Death Above Cottage Grove

A Large Tree Fell on Him, Crushing His Life Out Instantly—His Mother Lives in Massachusetts

Wm. Bennett, a young man in the employ of the Chambers Lumber Co. in the logging camp above Cottage Grove, was struck and instantly killed Wednesday by a falling tree. He was working alone and over a hillock out of sight of his associates, who were falling timber. One very tall tree fell his way. About ten feet of the top broke off when it struck the hillock. This piece hit Bennett. The deceased had been on the company's payroll only about a month. A letter found on his person from his mother gives her residence as Holland, Mass.

A receipt for dues paid to the W. O. W. shows membership in that order. The officer signing the receipt lives at Lemon Grove, Cal. The Cottage Grove lodge communicated with that official and received instructions to wire Mary E. Layken, Brookfield, Mass. No answer had been received up to last night. Undertaker Ventch has funeral arrangements in hand under the direction of the Cottage Grove camp of W. O. W.

## RAILROAD MAN BADLY INJURED

Handcar Runs Over Him—Head Badly Cut and Body Bruised

C. E. Selch, foreman of one of the Japanese construction crews now at work on the S. P. railroad in this vicinity, was severely injured by being run over by a handcar between 7 and 8 o'clock last night. The handcar was coming into town from the south, and Selch was riding in front with his feet hanging down. One of his feet struck an obstruction on the track, pulling him off the handcar beneath its wheels. When he was picked up almost unconscious it was found that a deep cut had been inflicted on his forehead, and other parts of his head and his limbs were badly bruised and scratched up. Dr. Faine, the company physician, attended the injuries. Selch went to Portland today to enter the hospital.

## Note and Comment

New brooms sweep clean.

Eugene has a reform council.

If we have to drink microbes and our whiskey and beer are shut off by blue laws, what will we do?

The slot machines in Eugene must go if the council is able to draft an ordinance that will hold good, which seems to be doubtful.

The council has asked the water company to set a price on its plant here with a view of its purchase. In case arrangements are not made then the council will probably take immediate steps to build a new system.

During the month of April only three new cases of typhoid fever have been reported. Of contagious cases only one case of scarlet fever has been reported. This is certainly a good record, considering all circumstances.

The Eugene councilmen play "follow the leader" to perfection. A new game should be introduced entitled, "Get a think tank of your own," and see if it would be possible to break that monotonous game of "follow the leader."
