AN INDEPENDENT PAPER.

TUESDAY, MAY 8

Today's News Today

The evening papers publish the news on the day events occur, not the day after."—George P. Rowell. (The largest advertising agency in the world.)

This especially applies to Pacific coast evening papers. The Evening Guard gets dispatches up till nearly five o'clock ni the afternoon. Do you know what time it is then in London? It is about 10 o'clock at night of that same day. What time in New York? About 8 o'clock of that same evening. In Chicago? About 7 o'clock of that same evening. Is it any wonder, do you think, that evening papers all over the country seek circulation on the assertion that they give the news the day it happens—"Today's news today."

The San Francisco horror grows apace. Edwin H. Markham has written a "poem" on the subject.

It's hard to decide which made the best shot, Harry Draper or George Mitchell. Both deserve medals.

All pull together for a greater Eugene, remembering always that cities do not grow but must be built up.

Uncle Joe Cannon is seventy years old and is nursing a te[illegible] little presidential boomlet. [illegible] is old enough to know better.

Hon. R. M. Veatch is a man who has represented Lane county well in the state senate in the past. He possesses the ability and strict intergity necessary to make an ideal representative of the people, and his support at the polls will come from the voters of all parties who want that kind of a man to make their laws.

The Guard does not agree altogether with the views expressed by Mr. Miller in his letter published in yesterday's paper. It is true that a railroad to the Siuslaw is badly needed for the development of the country, but we cannot see why a city and suburban electric system should be made dependent upon the consummation of any other enterprise. It may be years before capitalists are found who will be willing to put several millions of dollars into the Siuslaw railroad project, while a city car line is badly needed at the present time. It is more than likely, however, that once the desired franchises are granted, our hopes for lines radiating from the city, possibly down to the coast, will not be long deferred of fulfillment. It has ever been the history of electric railway building that extension is easy and it is safe to say that once a car line is operated through the streets of Eugene to Springfield it will not be long before it is extended to more distant timber belts and mineral districts. To build a city here we must invite the investment of capital in big enterprises that tend for development, and in considering franchises like those now pending before the city council it seems to us an unwise policy to impose conditions that make their acceptance an imposi bility.
