PUSHING WORK ON BUILDINGS IN SAN FRANCISCO

San Francisco, May 21.—The impatience of business men to provide quarters to recommence business led to a continuance of building operations in many places yesterday. On Van Ness and Sutter streets many retail stores are being pushed to completion. One hundred and fifty men were put to work this morning inspecting fifty thousand chimneys, for which a fee of one dollar each will be charged, and it is expected that street kitchens will soon be a thing of the past in the residence district. The bread line is growing shorter each day, the number of rations now being issued being about ninety thousand, and four thousand are being fed at soup kitchens. Food and clothing distribution is well systematized, an ample supply of each being on hand for present needs. In all 12,000 car loads of supplies have been received. The total relief fund is now \$6,533,247.

FIGHT WITH LOOTERS.

San Francisco, May 21.—A running fight between four members of Company E, First regiment National Guard, occurred at noon with five looters engaged in making off with dynamites from the substation of the San Francisco Gas and Electric Company. S. A. D. PUTER UNDER ARREST IN CALIFORNIA

San Francisco, May 21.—Assistant U. S. Attorney Black stated this morning that S. A. D. Puter, apprehended at Alameda yesterday for alleged complicity in the Oregon land frauds, will be taken to Oregon immediately, where proceedings in the federal court will be begun against him.

Several weeks ago S. A. D. Puter, who had been convicted in the federal courts of Oregon in December, 1904, on account of his connection with the famous "11-7" land fraud cases, and who was under indictment on other conspiracy charges to defraud the government of its public domain, made a sensational escape in Boston from Secret Service Agent William J. Burus, who had arrested him after a long chase.

Nothing more has been heard from him from that day to this, until apprehended last night. His family resides in Berkeley, Cal., only a few miles distant from the point of his arrest, and it is believed his presence in that neighborhood was brought about through anxiety for the members of his household on account of the recent earthquake.
