Lowell Items

Lowell, June 6.—Two large drives of logs are wending their way down the river, one by C. P. Williams, of Dexter, to the Eugene Lumber Co., now at Rush island, five miles above Lowell, and the other one by Hills brothers to the Springfield mill for the Booth-Kelly Company, now at Black Canyon, twelve miles above Lowell.

Three men came over the mountains one day last week and report the snow ten feet deep in places on the summit.

Charley Hills has finished putting in the big pile of logs for the Booth-Kelly Company that was on the Grant Hyland place and will soon move the donkey engine over the ridge to Winberry.

The bounty rock crusher is hammering away and will soon have the Hyland lane finished, then it will be moved up the river to fix the road between Rush island and Lowell.

The late rains are making vegetation grow very rapidly. The gardens are getting weedy and some grain is lodging.

The logging crews are losing no time, as they are getting in all the logs possible before the drives pass them. Most of the Winberry camps will continue putting in logs all summer.

Hops are looking fine and from all appearances will be a good crop.

Sickness in Eugene. More Cases of Illness This Spring Than in Former Years.

Physicians and druggists say there are more cases of illness in Eugene this spring than in former years. Perhaps there is not so much serious sickness, but spring languor, loss of appetite, headaches, dizziness, backaches, weakness and debility, indigestion or an overworked stomach, are more common than they have been for some years past.

This has resulted in an unusual demand for M. O. R. stomach tablets at Hall's drug store. Because he felt that he could recommend this remedy Mr. Hall tested it rightly in many cases of heartburn, indigestion, wind on the stomach, debility and other troubles that result from a weakened digestion, with the greatest success.

In fact, M. O. R. has been so uniformly successful in curing all stomach troubles that Hall's drug store gives a 50-cent guarantee with every 50-cent box of M. O. R. If it does not cure.
