SOME RESULTS OF RECENT ELECTION

Seven counties in Oregon "went dry" in the election last Monday, so far as returns are as yet available, and others are still to be heard from.

The "dry" counties are: Benton, carried by 170 votes; Sherman, by 179; Linn, by 450; Lane, by 280; Yamhill, by 200; Tillamook, by 100; and Walworth, by a small margin.

Counties which rejected prohibition as a whole were Malheur, by a small plurality; Folk, by 203; Morrow, by 62; Wasco, by 150. By the terms of the local option law, under which the prohibition elections were held, a county which rejected prohibition as a whole receives prohibition in the precinct voting for it.

A very active campaign for prohibition was waged in the foregoing counties, between the liquor forces on the one side and the prohibition forces on the other.

Exact figures of the pluralities of Monday's election will not be secured until the official canvass shall be made by the secretary of state on the returns from the several counties. These returns will not, however, change to any considerable degree the pluralities as they are already estimated.

Chamberlain's lead over Withycombe for governor will probably be between 2500 and 3000, and that of Bourne over Gearin for United States senator will fall slightly under 2500.

Woman suffrage was defeated by approximately 19,000, the local option change by perhaps 9000, and the Barlow road appropriation by about 7500. Multnomah county gave the Barlow bill 300 plurality, but the bill encountered heavy opposition in other counties, such as Clackamas, Marion and Polk.

The referendum appropriation bill of the last legislature, providing for state institutions, is sustained by perhaps 13,000. Majorities for all the other initiative measures will range from 15,000 to 30,000, the latter figures probably being attained by the majorities for the gross earnings tax bills, which received a larger vote than any of the bills in the election.

The majority for the anti-pass bill will exceed 20,000 and for the state printer amendment 25,000.

CATTARRH A GERM DISEASE

Breath Air Medicated by Hyomei and Kill the Germs

Now that physicians and scientists universally agree that cattarrh is a germ disease the reason for the failure of the old-fashioned stomach dosing in this trouble is readily seen.

Prior to the discovery of Hyomei, a treatment which cures cattarrh by filling the air you breathe with germ-killing and healing medication, statistics showed that at least ninety-seven out of every hundred persons in this state were suffering from cattarrh of some form.

The treatment with Hyomei is very simple and pleasant; a small inhaler comes with every outfit and three or four times a day Hyomei is breathed through this, making the air at that time like that found on the mountains where the pine forests give off their fragrant and healing balsams.

The complete outfit costs but one dollar, while extra bottles can be obtained for 50 cents. Mr. Hull has seen such remarkable results from the use of Hyomei that he sells it under an absolute guarantee that it costs nothing unless it cures. j s 15
