EDITOR FRED NUTTING
STRUCK WITH EUGENE
Spends a Day Here and Gives the
City Many Compliments - Thinks
Park and Rest Cottage the Thing
For Farmers

Fred Nutting, the famous "Misfit" man of the Albany Democrat, spent Sunday in Eugene, his first visit here in many years. Monday's Democrat

Just a minute of your time!

How about face powders? Almost every woman uses face powder, despite the fact that some self-appointed advisors, in matters relating to health, decry the practice as one fraught with danger. Ask any woman why she uses powder on her face and she will give you a hundred good reasons. She knows it keeps the skin cool and comfortable, and takes away that greasy appearance of the face that makes a woman look ugly.

One of the best powders ever applied to the face is Ed Pinard's Comtesse, a scientific and harmless preparation. It is just what you need to complete your toilet.

For one week only, we will sell this regular 50 cent powder at 38 cents a box.

W. L. DeLano
Druggist

was full of Eugene. Among other things he says:

The Democrat man and wife spent Sunday in Eugene, the guests of Mrs. Kate Cundiff and daughter Margaret, pleasantly situated in their pretty home at the corner of Patterson street and the famous mill race, a great place for boating and swimming. One can plunge into five or six feet of water from the edge of Mrs. Cundiff's three lots and sport amidst the microbes under the wide spreading trees along the banks.

Eugene is one of Oregon's most progressive cities, a beautiful place. One is impressed with the big lots, the big maple and fir trees, and the big and handsome residences. The city has had a rapid growth and will continue to spread itself out over the country, a fine business and educational center.

Among those seen was Mike Gross and his genial family, who recently returned from San Francisco, where they were burned out with the rest. Mike is clerk at the Smeed, and traveling men find him the same pleasant genius with his original remarks and ways as of old.

Mrs. H. C. Watson, her three energetic sons and handsome daughter, are nicely situated only a block from Mrs. Cundiff, directly opposite Professor Straub's famous residence.

Eugene has one thing that is certainly commendable, a park covering two blocks in the middle of the city, with a small rest house for farmers and their families where they can clean up, and plenty of hitching posts for their teams.

Even one policeman dressed in regulation suit gives Eugene a metropolitan appearance among strangers, who never inquire whether the others are or are not.

When it comes to immense fir, oak and maple trees Eugene can give the other towns whole groves and have forests left.

Stock Selling at 20c

Just think—stock selling at only 20 cents.

The Business Men's Association of Eugene has endorsed it. Have you read it?

Never since the organization of the Spencer Butte Coal and Petroleum Co. has their prospects been better than at present with a perfect formation, a sixfoot opening and in good financial circumstances. The stock will advance in price as work progresses which from recent showing will be very soon.

Do not neglect this the greatest of all investments in the entire Willamette Valley.

SOME EXCELLENT
PICTURES TAKEN

Southern Pacific Company's Photographer Driven Through the City and Country in F. L. Chambers' Automobile

Julius Padull, the Southern Pacific Company's official photographer, accompanied by Passenger Agent J. P. Jones and Dr. L. L. Whitson, was driven through the city and out into the country by F. L. Chambers in his automobile this morning. Mr. Padull secured photographs of the principal buildings in Eugene, including the university, the public schools and the Carnegie library, besides several residences. He also secured pictures of buildings in Springfield and of scenes along the Willamette and McKenzie rivers.

Mr. Jones, who is accompanying the photographer up and down the state, said he enjoyed the forenoon better than any he had at any other time on the trip. He was very much struck with the appearance of the country surrounding Eugene and Springfield.

The special car carrying the photographic outfit was taken to Chemawa this afternoon and will be back here probably within two weeks when more photographs will be taken.

Married

At the home of the bride's mother, Mrs. Emma Cobb, on East Eighth street, in Eugene, at noon today, John P. Parker and Miss Emma F. Sales, Justice of the Peace R. S. Bryson officiating. The ceremony was witnessed by quite a number of the friends and relatives of the contracting parties, and an elaborate wedding breakfast was served. Mr. and Mrs. Parker will reside at Mabel.

This was Judge Bryson's first marriage ceremony but it is needless to say that he performed it in a very graceful manner.

At the residence of J. P. Sweet at Elmira, July 1, 1906, Geo. W. Sweet and Ethel J. McMillen, T. A. Fountain, Justice of the Peace, officiating.

At the residence of Mr. and Mrs. Cobine at Wendling, July 1, 1906, Wm. E. Clements and Hazel F. Cobine, Elder John W. Perkins officiating.

At the M. E. parsonage at Springfield, July 1, 1906, Chester A. W. and Mrs. Ruth E. Mills, Rev. W. M. Erskine officiating.

WEINHARD WILL
ERECT LARGER
ICE PLANT

Forty-Ton Capacity Machine
Will Be Brought To Eugene Next Spring

New Building To Be Erected Near Site of Present Plant—Hopes That Voters Will Change Their Minds Two Years Hence - Present Plant Will Operate During Summer

Joe Pironi, manager of the Weinhard ice works in this city, returned last night from Portland, where he was called to discuss with the owner the advisability of keeping the plant in operation.

It was decided to operate the plant all summer, as the demand for ice here and at adjacent cities, aside from the saloon trade which is now cut off, is sufficient to justify keeping the plant going.

Mr. Pironi stated to a reporter this morning that the new and larger ice plant which the Weinhard had contemplated erecting in Eugene and which was mentioned by the Guard a few days ago, will be put in next spring. The owners are hopeful that the voters will have changed their minds two years hence and vote the county "wet" again, but even if they do not it is thought the business aside from the saloon trade will be sufficiently large to justify a much larger plant here.

The new plant will have a capacity of forty tons of ice each day, five times greater than that of the plant now in operation here. A new building will be erected to the west of the present one. New and larger boilers will have to be put in and it is probable that oil will be used as fuel, as wood is getting to be more expensive every year and it is thought oil can be secured cheaper and it is easier to handle.

The plant to be put in is the one formerly used in the old U. S. brewery at Portland. Weinhard has another plant of similar capacity in that city which they intend installing at Medford.

CREDIT TO DR. WHITSON.

A great deal of the credit for the resumption of operations at the local ice plant is due Dr. L. L. Whitson, president of the Eugene Commercial Club. After the plant had closed down he at once went to Portland to see Mr. Wessinger, manager of the Weinhard interests. Mr. Wessinger at first absolutely refused to talk to Dr. Whitson about the matter, declaring that under no circumstances would the plant here resume operations. The doctor was persistent, however, and after a several hours' conversation with Mr. Wessinger convinced him that Eugene could not very well get along without the plant and that it would be a great hardship to ship ice from Portland or other points. Finally Dr. Whitson suggested that Mr. Wessinger wire Manager Pironi to start the plant at once and he did so. This was Sunday about noon. Mr. Pironi did not get the message till three or four o'clock in the afternoon, but within an hour or two after receiving it the machinery was in operation and today the first ice is being turned out.

MITCHELL DISCHARGED
BY JUSTICE BRYSON

James A. Mitchell, who was arrested a few days ago as he arrived here from Florence on the stage, charged with stealing the rudder brass from the schooner Bella which is stranded on the beach south of Florence, was acquitted of the charge in Justice of the Peace Bryson's court this forenoon. The evidence tended to show that while Mitchell was seen to be working about the vessel, others were seen there, and these others could have taken the brass. J. M. Williams and L. E. Bean represented the state in the case and E. O. Potter appeared as counsel for Mitchell.

Obituary

John S. Deane died at the residence of his son, George W., at Jasper, June 27, 1906, aged 61 years, 7 months and 3 days. He was born in Edinburgh, state of New York. He served ten months in Co. P, 160th regiment, New York Heavy Artillery, Ninth army corps, army of the Potomac.

He leaves behind three sons, Geo.

W. and Frank, of Jasper, and one son in Colorado. He was laid to rest beside his wife in Mt. Vernon cemetery June 28. Peace to his ashes.

Personal.

Walter J. Shelley is here from Pendleton, where he has been engaged in carpenter work. The recent flood there has put a temporary stop to building operations.

Mrs. Mary F. Bell, of Philadelphia, who has been visiting at the home of her cousin, Adam Ritchie, on the McKenzie, left yesterday afternoon for Ashland on her way home.

Miss Eva Hunter, of Crookston, Minn., who has been visiting C. P. and Miss Esther Devereaux in Eugene, left for home today. She will return in the fall and teach the Bailey school, west of Eugene.

W. D. Combs returned last night from a trip to the Combs-Williams Dunn ranch at Oils, Alberta. He says the crops there are looking fine and people are still going into that country in large numbers.

CHANCE FOR
NEW INDUSTRY
FOR EUGENE

H. B. Williams, Representative of Firm Which Operates Wood Distilling Plants, in the City - Manufactures Tar, Turpentine, Gas and Other Materials

H. B. Williams, representing a firm operating a wood-distilling plant in Portland, has been in the city for the last few days and expects to remain a few days longer before leaving for Coos Bay, where he goes on business connected with his firm.

Mr. Williams was in Eugene several months ago, expecting to locate his plant here, but he was induced to go to Portland and built there. The firm may, however, decide to build other plants and has a proposition from a Washington city to erect a large one there. Here may be an opportunity for Eugene to secure an industry that would distribute considerable money and one that would be of benefit to the community.

A wood-distilling plant uses up all the refuse lumber from sawmills and manufactures turpentine, tar, gas and other materials. The gas manufactured in this manner is said to be superior to the ordinary coal gas and the same amount can be made out of a cord of wood as out of a ton of coal.

The plant at Portland which is a small one, with a capacity of only eight cords of wood each day, was built as an experiment, but it has proved a success and now the firm is looking for other locations. Mr. Williams is staying at the Hoffman House while here.

The Commercial Club or Merchants' Protective Association should look into this matter and ascertain what can be done towards securing for Eugene such a plant.

Brevities

It will be a dry Fourth of July.

Where will you celebrate tomorrow?

Weather prediction: Fair tonight; Wednesday fair and not so warm.

The remains of the old barn on the lot at Fifth and Willamette streets were burned today.

Wick Huff went to Salem today to work during the celebration tomorrow. He may remain there.

The weather is some cooler today. The thermometer registering two or three degrees lower—from 80 to 90 in the shade.

A large number of Eugene people will celebrate tomorrow at Springfield, while others will go to Junction, Cottage Grove, Thurston and Elmira.

A marriage license was issued this morning to John F. Parker and Emma F. Sales; one yesterday afternoon to James T. Aubrey and Caroline Wal-laces.

Yesterday's Albany Democrat: Professor B. J. Hawthorne and family and W. H. Hoffman, wife and niece, prominent Eugene people, were in the city this forenoon on their way to Seal Rock, on the Pacific, where they will spend the summer.

Garvin, the once famous baseball pitcher, who formerly was a star in the American and National leagues, has just been released by Portland for failure to make good this year. He has won very few games since the season opened. This is his thirteenth year in professional baseball.

Wm. Doe, a young man who could not tell his name and didn't know where he came from and who was committed to the insane asylum from Lane county on Feb. 14, 1906, was released from that institution on July 1, 1906, according to information received at the county clerk's office.

Born

In Eugene, July 1, 1906, to H. M. Barnum and wife, a son.
