AN INDEPENDENT PAPER.

THURSDAY, JULY 16

Ambitious Mr. Hearst

Wm. H. Hearst, who has had a great desire to edit a dozen or more yellow journals from the White House, seems apparently swamped by the onward sweep of the Bryan tidal wave. He recently declared that he would not be a candidate for president, but stood ready to support Bryan or any other Democratic leader, except Senator Bailey, whom he designated as a representative of the trusts and corporations. However sincere this declaration may be, Hearst certainly has not let go his ambition to become governor of New York, as a stepping stone no doubt to higher honors. His supporters confidently assert that they will land their leader in the Albany state house with 100,000 votes to spare.

Hearst showed remarkable strength in the national convention and a comparison with the Roosevelt vote in the states that were out-and-out for Hearst shows that the New Yorker was coupled with the president in many of the Western states.

The votes received by William H. Hearst for the presidential nomination in the Democratic national convention at St. Louis in 1904 were as follows: California, 2; Colorado, 5; Florida, 4; Illinois, 4; Iowa, 20; Kansas, 10; Maine, 1; Minnesota, 19; Nebraska, 4; Nevada, 4; Oregon, 2; Rhode Island, 6; South Dakota, 8; West Virginia, 1; Wyoming, 1; Arizona, 6; Indian Territory, 1; Hawaii, 6; New Mexico, 6, and Oklahoma, 2.

The territories having no votes in the electoral college, it may be in order to recall that in the foregoing states which gave the whole or a part of their nominating votes to Mr. Hearst the result was as follows: Roosevelt's pluralities: California, 115,827; Colorado, 345,82; Illinois, 305,030; Iowa, 158,706; Kansas, 120,448; Maine, 34,701; Minnesota, 161,464; Nebraska, 86,682; Nevada, 2885; Oregon, 42,934; Rhode Island, 16,700; South Dakota, 50,114, and West Virginia, 31,705.

Despite the bitterness of the ultra-conservative element in the Democracy toward Hearst, practical partisans who are out to win and in whom the Bryan renaissance has planted new hopes, are determined to conciliate Hearst and if possible to make him a factor in what they profess to believe will be the Democratic landslide in 1908.

The increasing interest and development in Lane county mines is a most encouraging sign of the growth and prosperity the future holds in store for Oregon. Mining is a great producer of wealth. It benefits the wage-earner, the merchant and the small and large investor. The information which the Guard is providing on mining is stimulating inquiry and keeping money at home. Although Oregon is near the mining regions of Idaho, Montana and British Columbia it has not been prospected to any great extent. It is to such prospecting that the Nevada revival is due. Production there is so great that Senator William A. Clark, of Montana, announces that he will build a railroad from Bullfrog to Goldfield and Tonopah.

The dispatches from Oyster Bay tell about the president mowing and pitching a load of hay on Monday just in time to save it from a fierce thunder storm. No doubt this interesting bit of news is correct—since the presidential bureau vouches

for it; but the idea of mowing hay and taking it into the barn on the same day is a new one on the farmers, who have always thought that newly cut grass had to cure a reasonable length of time in the sun before it becomes hay. Teddy is probably the greatest farmer that has lived since the brilliant author of "What I Know About Farming" passed in his checks.

There is close rivalry between the German steamer Deutschland and the French liner La Provence. The La Provence claims to have won the first eastward race by four hours; in the second race the Deutschland had a margin of nearly eleven hours. The German steamer sailed the entire course of 3603 miles in five days, fourteen hours and nine minutes. This is a close approach to the five-day voyage.

Senator Fulton objects seriously to Secretary Hitchcock's decree that he must go to prison, which may be taken to mean that Charlie is trying to break with his old political friends. More of them are in jail, or are likely to be, than he could get together anywhere else. Is it possible that being senator makes a man so puffed up that he does not care for the company of old associates?

The Corvallis Times says the name of Creffield will be found up towards the head of the list of the damned in the next world. Probably about right; anyway the authority is good. Corvallis has been "dry" so long and is altogether so good that St. Peter uses the place as a sort of ante-room to heaven, which gives the Times' announcement at least a semi-official coloring.

An exchange remarks that "Harry Shaw is to be 'whitewashed' by being sent to an insane asylum against his will." How would it do to "whitewash" John D. Rockefeller and those other money-mad trust magnates in a similar manner?

Rev. Dr. Brougher, the Portland reformer, states that he has seen worse places than The Oaks. The doctor probably sowed a pretty good-sized crop of wild oats before taking up the ministerial work.

NEWS ITEMS FROM COTTAGE GROVE

The ice shortage still continues. Even ice water was a thing unknown on Sunday and the ice cream ran out early in the day.

The foundation of the old boiler at the electric plant has been torn out and all is in readiness for the building of the new foundation. The plant is running in fine shape now.

Messrs. G. B. Hengen, of New York, of the Oregon Securities Co., with Manager A. B. Wood and Superintendent Eade, made a trip to the company's property in Bohemia last week and planned out work to be done and thoroughly inspected the property.

Henry Fischer, of the Brown Lumber Co., is in Portland trying to hurry the delivery of the third donkey engine for the logging camp. Mr. Fischer was successful on his trip for the second donkey and hopes to be able to boost the third one to the Grovs within a few days. It will be used at the lower camp on Vaneshlack's track, where the new camp is being started. The upper camp is about done and the work will now be done from the other two camps. The mill is handicapped on account of the change of camps and the scarcity of logs, but will soon be running steadily. Monday the boys were around cleaning up the mill and straightening things around after the supply of logs had been cut up.

Only 82 Years Old

"I am only 82 years old and don't expect even when I get to be real old to feel that way as long as I can get Electric Bitters," say Mrs. E. H. Brunson, of Dublin, Ga. Surely there's nothing else keeps the old as young and makes the weak as strong as this grand tonic medicine. Despair, torpid liver, inflamed kidneys or chronic constipation are unknown after taking Electric Bitters a reasonable time. Guaranteed by W. L. DeLano druggist. Price 50c.

The Harm Wrought By Corrupt Officials

By Rev. JOHN P. PETERS, D. D., Rector of St. Michael's Church, New York

IN the investigations that are being made in many directions certain conditions of corruption exist which at once must make men hesitate. That any one of the men who, with their apparent high standing in the community as trustees in churches, prominent in varied religious effort and in a hundred other directions WHERE RIGHT LIVING AND UPRIGHTNESS ARE DEMANDED, do as, for instance, some insurance officials have shown themselves to do by the facts brought out in the frequent investigations, places them at once in the class of men who are to be regarded by the community as DANGEROUS.

THEY DO MORE HARM BY LIVES OF SEEMING UPRIGHTNESS THAN THE MAN WHO IS A KNOWN PICKPOCKET OR A KNOWN BURGLAR OR A KNOWN DIVE-KEEPER.

A Poem for Today

LIFE

By Bryan Waller Procter

W E are born; we laugh; we weep; We love; we droop; we die! Ah! Wherefore do we laugh or weep? Why do we live or die? Who knows that secret deep? Alas, not I! Why doth the violet spring Unseen by human eye? Why do the radiant seasons bring Sweet thoughts that quickly fly? Why do our fond hearts cling To things that die? We toil—through pain and wrong; We fight—and fly; We love; we lose; and then, ere long, Stone-dead we lie. O life! Is all thy song "Endure—and die?"

A watchman's neglect permitted a leak in the great North Sea dyke, which a child's finger could have stopped, to become a ruinous break, devastating an entire province of Holland. In like manner Kenneth McIver, of Vancouver, B. C., permitted a cold to go unnoticed until a tragic finish was only averted by Dr. King's New Discovery. He writes: "Three doctors gave me up to die of lung inflammation, caused by the neglected cold; but Dr. King's New Discovery saved my life." Guaranteed best cough and cold cure, at W. L. DeLano's drug store. 50c and \$1.00. Trial bottle free.
