BLUE RIVER ROAD PETITION GRANTED

**Lucky Boy Road Will Become
Public Highway in Sep-
tember**

**County Court Orders Viewers to
Make Surveys and Report at Next
Term--Will Extend From Blue
River City to the Gate Creek
Road**

One of the first matters to come up
for consideration by the county com-
missioners' court which met in regu-
lar monthly session this morning was
the petition to open the Lucky
Boy road leading to the Blue River
mines to public travel. The petition
being drawn in the proper form and
everything being regular, it was
granted and the county road viewers
Geo. Fisher and P. J. McPherson,
and County Surveyor C. M. Collier
were ordered to make a survey of the
road and assess the damages. The
viewers are at present at work some-
where in the western end of the
county and just as soon as they re-
turn will be sent to Blue River.

It will probably take two weeks to
complete the surveys and draw the
necessary maps. After the work is
finished a report will be made to the
court and an official order will be
made at the September term declaring
the road a public highway.

The petition was signed by nineteen
freeholders and 25 prospectors and
owners of mines not yet patented and
others whom the proposed road will
benefit.

DESCRIPTION OF ROAD.

The description of the road as ap-
pearing in the petition, is as follows:
Commencing at the northeast end
of Main street in Watt's addition to
Blue River City in section 21, town-
ship 16, south of range 1 east; thence
run in a northeasterly direction fol-
lowing what is known as the Lucky
Boy road as near as may be to get a
good road to the Lucky Boy mining
property; thence northeasterly on the
most practical route to the top of the
ridge near the Badger mine; thence
northerly and easterly on or near the
top of the ridge to the Great North-
ern Mining property and there end-
ing. Also commencing at the top of
the ridge near the Badger mine, thence
westerly and southerly on the most
practical route to Durango
Flat and to connect with county road
No. 435, known as the Gate Creek
road.

Now Being Talked of and May be
Put in Soon—Water Will be
Turned Into Mains Friday—Oth-
er Notes.

Springfield, Aug. 1.—The people of
Springfield are now talking sewers
and in all probability the work of in-
stalling a system will begin in the
near future. With the installation of a
first class system of waterworks the
sewer system will naturally follow.

Water will be turned into the mains
on Friday of this week and thereafter
Springfield will have ample fire pro-
tection and pure drinking water.

The Southern Pacific Co.'s new steel
oil tank is beginning to assume pro-
portions and will be completed within
a short time.

The bar fixtures in the Kola Neis
building and formerly used by D. J.
Cummins are being moved out and
will be shipped to Glendale. The in-
terior of the building will be re-
modeled for J. A. Cox's dry goods
store which will be moved here from
Brownsville on September 1st.
