

Coat and Suit Room News

WE are like the whimsical trader, when in scouting the world for merchandise; we don't buy until we are certain that the style, material and the price are right. We search until we find the correct merchandise, then we buy. Consumers should do likewise, make the rounds if you like, buy when material, style and prices are correct. We are certain you'll buy of us. We advertise what we have to advertise, never exaggerate about it, describe our wares truthfully then stop.

AT an early date we will complete arrangements for a grand opening of our new Coats and Suits; but in the meantime, visitors are most welcome to visit our new roomy suit department and view the new Fall Garments that have already arrived. You will find courteous people in charge to show you through.

New Fall Suitings are here and awaiting your approval. We have everything that the world produces at prices from 25c to \$5.00 per yard.

- Lace Door Panels**
Something entirely new, various styles and patterns..... **65c**
- Scrims**
New shipment of curtain Scrims and nets. Braids to match.

- Corset Covers**
A 25c fine cambric Corset Cover embroidery trimmed, for..... **19c**

HAMPTON BROS EUGENE AND SPRINGFIELD

SULLIVAN IS STILL BOSS IN ILLINOIS

Opponents of Bryan Won at Every Point in State Convention. After All Other Business Is Finished There Will Be Full Discussion of Question Which Is Dividing Convention

Peoria, Aug. 21.—With every prospect of a lively fight State Chairman Hoeschenstein called the Democratic convention to order today. The Sullivan faction won on every side and the man daring to oppose Bryan led the Cook county delegation, numbering 535, into the hall. Judge Thompson, Bryan's mouthpiece, did not give up the fight.

Rainey withdrew as a candidate for temporary chairman and the factions agreed that Boggs be elected and that then there would be a full discussion of the Bryan-Thompson and Sullivan resolution. All other business, it is planned, including the nominations, will precede the debate on this subject.

CUBAN REBELS TRY TO FORCE INTERVENTION

Havana, Aug. 21.—The rebels are trying to force foreign intervention as well as American. They attacked some of the Danish consul attaches near the residence of the American minister and stole twelve blooded horses. They are raiding various sections and taking horses to mount their followers.

The rebels tried to force their way into the city today, but were discovered by the police and fled after an exchange of shots at the threshold of the capitol. There was fighting today on the hill of Pinar de Rio.

The government has ordered the arrest of General Jose Miguel Gomez, and it is reported that he was arrested and is held secretly. Gomez' secretary is in prison.

U. S. WILL INTERFERE.
Washington, Aug. 21.—The state department has required that its diplomatic representatives in Cuba give a full report of conditions there, and is prepared to take forcible means of restoring order without delay if necessary. If it is found that the government is unable to maintain order marines will be sent ashore to punish the revolutionists. Officials here say they do not have to await a request from President Palma.

LEADERS ARE ARRESTED.
Washington, Aug. 21.—The Cuban legation has received a dispatch saying that all the rebel leaders have been arrested and that the government has confidence of putting down the uprising.

MANY KILLED FOR TAUNTING SOLDIERS

St. Petersburg, Aug. 21.—Taunting the soldiers for letting the Japanese defeat them resulted yesterday in the killing or wounding of fifty-seven peasants in Kharloff province.

CHIEF OF POLICE KILLED.
Warsaw, Aug. 21.—The chief of police of Stedecaw as killed by a bomb this morning the two constables and a woman standing near were wounded. The assassin made good his escape.

ONLY ELEVEN JURORS SECURED AT NOON

Portland, Aug. 21.—Eleven jurymen had been selected at noon today in the federal court for the trial of Franklin B. Mays, George Sorenson and Willard N. Jones for complicity in land frauds in the Blue Mountain region.

SON OF JAY GOULD CHIP OFF OLD BLOCK

GEORGE J. GOULD

Yesterday's dispatchs to the Daily Guard told about the fine strategy by which Geo. J. Gould is said to have outwitted the great railroad manipulator, E. H. Harriman.

The fact that the Gould interests have secured a passage for the Western Pacific through this rich territory leaked out by the announcement of A. B. Hammond, president of the Corvallis & Eastern and Astoria & Columbia roads, who says that he has no intention of selling these properties, but that the first named will be extended from the terminus at Linha, Linn county, across central Oregon to some point on the Snake river, probably Ontario.

Work will also be started on the Astoria road in the same connection and it will be pushed south along the coast from Seaside to Tillamook. These projects will aggregate more than 350 miles of construction for the two roads within the next few years.

The extensive operations undertaken by these lines is believed by railroad men to mean more than passing improvements. The fact that the Western Pacific will be completed in two years, according to present plans, and that the new work on these northern lines will be ready at the same time, is accepted as something more than a mere coincidence. It is said that the terminal of the Corvallis & Eastern may not be Ontario, but a point in Lake county where a junction may be effected with the California, Nevada & Oregon road, an acknowledged Gould line, which it is intended shall be pushed north from the main line of the Western Pacific

at Reno, Nevada, to Lakeview and Klamath.

The road has already been completed as far as Madeline plains. The rumor that the Gould lines are back of the improvements and extensions of northern roads has not surprised many astute railroad men who have been looking for such developments. Without such means the Gould lines would probably have to enter into a long fight with the Harriman interests and would have considerable trouble in obtaining a right-of-way.

WILL OPEN RICH SECTION.

The building of the Corvallis & Eastern to a juncture with the Western Pacific, or the California, Nevada & Oregon, and the closing of the gap between Albany and Portland, or Yaquina and Tillamook, will give the Gould lines access to all the important northern harbors except Coos Bay.

The central Oregon country which will be thus opened to the Gould lines is probably the largest territory in the United States, outside of Alaska, without railroad facilities.

EU JENE-ONTARIO ROAD.

E. H. Harriman has long realized the importance of this country and it was announced last year that over \$4,000,000 had been set aside for the construction of the Oregon Eastern from Eugene to a point north of Klamath marshes in Oregon. This will be the first link in the connection with the main line of the Southern Pacific to reach the Klamath country. If the Southern Pacific would safeguard the advantageous position it holds in the state the Oregon Eastern must be pushed at once to completion.

IRA LEE SAYS WIFE DESERTED HIM

Ira L. Lee has instituted suit in the circuit court against his wife, Ipha, whom he married at Junction City, July 24, 1901. They have one son, Lindsey, aged four years. Lee alleges that his wife, without cause or provocation, deserted him on July 1, 1905, and has since refused and neglected to live with him. Kissinger & Hooker are the plaintiff's attorneys.

E. H. INGHAM SELLS MORE PROPERTY

E. H. Ingham has sold to C. S. Frank the property on East Ninth street, known as the Schneider block. The lot is 27x144 feet in dimensions and contains a two-story brick building, now occupied by Miss Rankin's millinery store.

A. L. Veazie, of Portland, is in the city.

TRUST PRESIDENT VERY INDIGNANT

New York, Aug. 21.—Wesley Oeler, president of the ice trust, was a witness before the grand jury this morning. He was indignant to think that he should have been summoned, and said that if the public knew the facts they would erect a monument to the trust, instead of vilifying it. He states that he expects to show that the independents conspire to keep up the price and create a shortage.

HARRIMAN ROADS LEAD MOVEMENT

New York, Aug. 21.—The Union and Southern Pacifics are the real leaders in the bull movement, which is now in full swing on the stock market. While both have fallen off from the high levels, it is apparent that the Harriman interests are absorbing all the profit-taking sales in order to resume the upward movement later.

VALPARAISO AT WORK OF REHABILITATION

Business Being Resumed in Devastated City--Houses Being Built for Homeless People and Railroads and Telegraphs Rebuilt. Depredating Convicts Shot

Valparaiso, Aug. 21.—The government and people of Chile received President Roosevelt's message of condolence, thankfully. The government has ordered the immediate construction of houses of wood and zinc to house the homeless in. Military engineers are repairing the railroad and telegraph lines.

Large parties of convicts who escaped have been committing all sorts of crimes and over fifty have been captured and publicly shot.

The people are returning from the hills. The banks are open two hours daily and the work of restoration is proceeding systematically.

LATEST NEWS OF DISASTER.

Santiago, Aug. 21.—Only now can the extent of the earthquake damage be appreciated. The majority of the modern houses in this city are unfit for habitation and a special corps has been organized to raze all tottering structures. It is unsafe to walk most of the streets on account of falling debris.

Advices from Valparaiso indicate that the dead number two thousand. The night of August 16 was rendered baleful by the flashing lightning, driving rain, wires and cables snapping as the result of the constant earthquakes, which followed each other in rapid succession. The fire bells pealed, announcing the starting of fires in various parts of the city simultaneously.

The first shock lasted four minutes and fifty seconds, longer than any in the memory of any Santiago citizen.

Experts say that the only thing that saved the city from total destruction was the fact that the motion was circular. The principal shock extended from Valparaiso to Santiago and Meripilla, with its centre at Limache. The latter and the towns of Quillota, with ten thousand population, and Llaillal were destroyed.

The quake was foretold, at the naval observatory predicted it two days previous, and the Valparaiso papers printed the prediction the day before it occurred.

MORE SHOCKS OCCUR.

Lima, Aug. 21.—There was a heavy quake at Valparaiso last night and a slight shock here this morning. Huachow as shaken yesterday.

MONEY FROM 'FRISCO.

San Francisco, Aug. 21.—Members of the committee of 40 appointed by Mayor Schmitz to devise ways and means for the relief of San Francisco during the fire of last April, met today to arrange for San Francisco's contribution to the stricken people of Chile. Within fifteen minutes the individual members of the committee had subscribed \$2500.

It was announced that the Canadian Bank of Commerce had already telegraphed to the president of Chile the sum of \$10,000, advanced at the request of the members of the committee.

MUTILATED BODY OF GIRL DISCOVERED

Goldsboro, N. C., Aug. 21.—The mutilated body of Annie Sexton, daughter of George Waddil, a planter, was found this morning. Her lips had been torn as with the naked hand and her neck was terribly bruised. She had been ravished.

The people around Fremont, near where the crime was committed, are enraged and another lynching is scheduled if the perpetrator is caught.

Manchuria Still Aground

Honolulu, Aug. 21.—All efforts to float the steamship Manchuria have thus far been futile.
