SURVEYORS' WORK NEARLY COMPLETED

Oregon Coast & Eastern Will Be Mapped Out Within Few Days. Line From Portland to Coos Bay Has Maximum Grade of Less Than One and a Half Per Cent

Within 30 days surveys of the Oregon Coast & Eastern railway from Portland to Coos Bay will be completed. The company now has five crews in the field, and as soon as the line is located from the Portland city limits to Coos Bay the entire force will be thrown into the work between Coos Bay and Eureka.

No trouble has been encountered by the engineers in securing an admirable route free from sharp grades or curves. The maximum grade of the entire line is less than one and one-half per cent. The road will approach Portland by way of Cornelius Pass. W. J. Wilsey, who is directing the preliminary work from offices in this city, returned a few days ago from St. Louis, where he went to confer with Baker & Crutcher, who represent the eastern investors. The nature of matters considered at the conference is not for public discussion, but Mr. Wilsey said his latest instructions are to push the preliminary work with all possible speed and prepare for beginning construction at the earliest date.

The Oregon Coast and Eastern Company's preparatory work has occasioned a great deal of speculation by the general public, and much anxiety on the part of existing railroad companies. The secret of identity of the real backers of the enterprise has been well kept, and it is said not a person outside of the Portland representative of the syndicate knows whether the Santa Fe, and Goolds, the Northwestern or none of them is back of the road proposed. It is only known that there is a steady flow of money from the East into the local coffers, and that \$50,000 to \$100,000 per month is being spent to carry on engineering and right-of-way work.

The company maintains a large force in eight or ten offices in the Stearns building, five crews of surveyors in the field, and a large number of right-of-way men, and is carrying on work throughout the coast counties and the country lying between Tillamook and Portland. Journal.

SUMMER CATARRH

Hot Weather Seems to Have Bad Effect Upon Some People

It is generally recognized by physicians that many people suffer more with catarrh during the summer than in the winter. The hot, dry weather and the change from the hot days to cool nights seem to have a bad effect upon the disease.

Even after the usual methods of treating have been unsuccessful, Hui's drug store guarantees that they will refund the money if Hyomei fails to cure the disease. This seems so fair and reasonable that it should induce all catarrh sufferers to take the treatment.

In many instances Hyomei has cured catarrh when the patient has suffered since childhood. Quite a number of people in Eugene, who for years have been unable to get a good night's sleep on account of the disagreeable tickling and dropping at the back of the throat, have obtained quick relief from a few treatments of Hyomei and the continued use has made a complete and lasting cure.

There is no stomach dosing when one uses Hyomei. Simply breathe its medicated air through the pocket inhaler that comes in every outfit and all germs will be killed and the mucous membrane will be healed. The complete outfit costs \$1, extra bottles, 50c. Remember that if Hyomei does not cure Hui's drug store will re-tur your money. a 14 24
