

SPRINGFIELD MILL WILL NOT CLOSE

Hoped That Car Shortage Will Be Relieved Within 30 Days--Only Single Men Let Out When Night Shift Was Taken Off

It was reported this week that the Booth-Kelly mill would be closed down for thirty days, but in conversation with Superintendent Kennedy we learn that it is not the intention of the company to do so as long as it can possibly be avoided. It is true, said Mr. Kennedy, that nearly 50 men had been laid off during the week, but these were mostly of the night shift, as on account of the shortage of cars it was found necessary to discontinue the night crew for a time. Most all of those who were laid off were single men. As they could easily find employment elsewhere the company decided it would work a less hardship on the business houses of Springfield to dispose of them, thus they retain daily all of the men who had families. At present work is plentiful and no man need be out of employment for even a day as the water company and the S. P. Company are both taking on all the help they can get. It is thought that within thirty days cars will be plentiful and the double shift will again be in operation. Until then let every one be patient and remember that the Booth-Kelly Company have made Springfield what she is today. Let

us remember that the interests of the large corporations are the same as the interests of the private individual. —Springfield News.

FREIGHT SHIPMENTS FROM OREGON CITIES

An exchange publishes a table, said to have been given by its local agent, giving the number of cars of freight shipped from different Oregon points during the month of July, being those only of local shipments. Among them are the following: Portland, 1045; East Portland, 520; Newberg, 190; Dallas, 137; Salem, 128; Springfield, 115; Eugene, 99; Coburg, 78; Wendling, 70; Grants Pass, 62; Albany, 50; Oswego, 55; Forest Grove, 51; Saginaw, 49; Sheridan, 45; Medford, 42; McLinnville and North Yamhill, 35; Lebanon and Independence, 34; Roseburg, 33; Brownsville and Corvallis, each 14; Harrisburg, 16; Jefferson, 2; Junction, 25; Shedd, 3; Tallman, 1 West Seilo, 2.

AN IMMENSE GRAVENSTEIN APPLE

J. E. Kilborn, the well driller, who resides at 219 Jefferson street, brought to the Guard office this morning a Gravenstein apple that is wonder. It weighs a pound and three-quarters and is 17 inches in circumference. It was grown on a tree in his yard.

Advance in Price of Stock

The Spencer Butte Coal & Petroleum Company wishes to announce that the price of their stock will be advanced on Sept. 1st, to 50c a share. They wish further to say to those who have bought stock, as also to those who are contemplating the buying of their stock, that sufficient funds have now been secured to insure the full opening of their mines. Many of the experts who have been to these mines have volunteered to us that the present price of stock is far below what it should sell for.

The boiler and engine is now being put in place and work will progress much faster when started next week.

We feel now to assure you that nowhere can a more safe investment be found in a mining proposition and believe that we have a property now that justifies us in urging the people of Eugene to invest in this stock while it is cheap, as every indication points to 81 stock in the very near future.

Butternut bread sells at wholesale for more than other breads because it has the quality. At retail it costs no more. See that you get quality. a 18 U. of O. BAKERY.

S. E. STEVENS,

Remember the place, 33 E. 9th St., Eugene.

Peters Cartridges

ESTABLISHED THE WORLD'S RECORD

2481 out of a possible 2500 made by W. A. Tewes. 80 per cent of the contestants used Peters Cartridges, the semi-smokeless kind.

First honors at Zettler Rifle Club Open Tournament, New York, March 10-17, 1906, 100 shot match won by Arthur Tubarie, score 2488.

Seven of the first ten prize winners used Peters .22 short cartridges. Zimmerman Trophy won by L. P. Ittel. Best bullseye made by W. Rosentbaum. L. C. Bass and L. P. Ittel made the possible 225 on the Ring Target.

If there ever was the slightest doubt in any mind as to the superiority of Peters Cartridges of all calibers, that doubt has been dispelled for all time by the results of the Sea Girt, Grand Rapids and New York tournaments. The various winnings and high scores were not the result of accident, but may be credited to good holding and ABSOLUTELY PERFECT AMMUNITION. The inevitable conclusion is that if Peters Cartridges, whether large or small calibre, are equal to these most crucial tests, they are the best to use in any kind of shooting, either target practice, hunting, police or military purposes.
