PORTLAND MARKET REPORT.

Portland, Or., Nov. 1.—Fall products are unusually plentiful and command good prices this year. Nuts alone are below a normal crop, though prices on the commoner kinds have not advanced materially. Black walnuts and hickory nuts are in fairly good supply, likewise chestnuts. These good, old-fashioned firsides companions sell readily, despite the fact that they are to be obtained in country districts for the trouble of gathering. English walnuts, almonds, pecans, filberts and ground nuts are selling in large quantities, with some varieties a trifle higher priced than last season. The almond crop in California is not any too heavy this year, and price will be advanced soon, according to advices received by the trade.

LIVESTOCK SITUATION.

On account of the rather poor quality of sheep in part of yesterday's receipts the yards were not cleaned up. About 300 head remain unsold today, and it is not likely they will move at the quotation.

Cattle receipts of several loads also dragged, butchers claiming quite a lull in their business at present. Market slow.

Hogs continue very strong, and the light receipts were snapped up.

BRIEF NOTES OF THE TRADE.

It is said that Horst purchased about 500 bales of hops yesterday at valley points with 15½¢ the top price. Demand continues only for cheap and best grades. Dressed meat receipts are somewhat more liberal, especially in veal. Demand good at former price.

Sweet potatoes are firm for crates, but sacks are dull on account of quality.

Apples are moving quite freely, with prices along the street for fancy ranging between \$1.25 and \$1.50. Cheap grades from 50¢ to \$1 a barrel.

PRUNE SITUATION.

Prunes that were shipped early from Oregon and Washington are now arriving in the East, but the stock is practically all deliverable to buyers, who placed early orders, and is going directly into consumption. Dismissing the shortage in the crop and its effect on contracts, the New York Journal of Commerce of October 26 says:

It is stated by competent authority that three-quarters of the Washington crop and about half of that of Oregon was destroyed by the rains and subsequent hot weather in September. During that period 20s and 30s were practically eliminated and many packers whose orders called for deliveries of these sizes have been unable to meet their contracts.

Commenting on the situation a representative of a prominent commission house said: "Those who have received shipments made prior to the damage done to the crop are lucky, and are getting a stiff premium on the prices they paid. The goods bought for early shipment are now being widely distributed. There have been no shipments to speak of since the damage to the crop became known, and there are now practically no offerings for shipment from the coast."

Creamery butter continues to pile up and the surplus stocks are now so heavy that the trade is alarmed. Local trade is quite good at 30 cents for best creamery, but the outside demand is nominal.

Egg prices are held firm today with sales at 32½¢ and 3¢ a dozen, with transactions at both figures. Receipts are fair again, but the movement is good.

The future of the poultry market is very much in doubt at this time. Receipts just about equal the demand.
