EUGENE'S SPLENDID GROWTH.

The showing made by the banks of Eugene tell a story of wonderful prosperity and growth during the past year. Deposits increased fully 50 per cent, and now total the very respectable sum of \$2,128,658.72. For a city of 7,000 people this is, indeed, a remarkable financial exhibit that is explained only by the wonderful and varied resources that are being developed in the country tributary, making Eugene one of the important business centers of the coast.

Situated at the head of the Willamette valley, with the developed resources capable of being greatly intensified, and many new industries attracting capital and labor, it is in the ideal location for a great city—the second in the state of Oregon. Here we have almost incalculable timber wealth and mineral deposits in mountains that bound, and along streams that fertilize and water a large area of rich soil, producing cereals, fruit and hops of unsurpassed quality. The natural gate way to Eastern Oregon, the extension of the Southern Pacific railroad to Klamath Falls and Ontario, will inevitably cause large jobbing houses to open here as the logical distributing point for a large territory.

What Eugene needs reflects the needs of every ambitious western city—push, energy and the utmost faith of its citizens in the city's future. Two business men's organizations, the Commercial Club and Merchants' Protective Association, are doing earnest, efficient work now, and they should be backed up in every well-directed effort by every patriotic resident who desires to see the city grow and prosper.

CIVIC IMPROVEMENT.

Eugene is rapidly going forward in the matter of civic improvements. The donation of an ample tract of land for a city park by Hon. T. G. Hendricks, upon which improvements will be made at once, was a long step in the right direction. An electric street and suburban railway is to be put in operation during the coming year, connecting the cities of Eugene and Springfield, and it is the unanimous wish of the property owners along Willamette street to pave that thoroughfare as soon as the track is laid. This will give Eugene a city appearance, as well as being a great convenience and materially enhancing city property values.

A handsome Carnegie public library was completed in Eugene this year, and the coming year will witness the building of a \$50,000 postoffice by the federal government. Two handsome buildings are also being added to the university group, and the grounds are being improved and beautified under the direction of an experienced landscape gardener.

These are some of the improvements that are making Eugene a more beautiful city each year, as well as contributing to hasten the coming of the "Greater Eugene," which in due time will be the full fruition of our dearest hopes.

The mining industry of Lane county is growing in importance from year to year. Besides the Blue River and Bohemia districts, good prospects are being opened in many other localities, and there is increased development work reported in every camp. What is needed most in this direction is more publicity of the right kind—good, honest advertising that will attract men of means who are looking for mining investments. Such operations as have been going on for years at

Blue River and Bohemia, if transferred to Nevada, California, Colorado or Idaho, would be heralded constantly to the world, thousands of dollars would be invested in those districts where now single dollars are expended. What Oregon people must learn is the full extent of the resources of their own state, as well as the art of honestly exploiting them.

Eugene has manufacturing interests that contribute materially to the prosperity of the city. There are iron foundries, sash and door and lumber mills, flouring mills, excelsior factory, knife works, soap factory, woolen mills, furniture factory, vinegar factory, fruit cannery and packing house, and various other industries that are employing a good many hands the year around. Their owners are enterprising and persevering, because it is no small task to build up such concerns when it is necessary to pioneer the way, and deserve liberal home patronage and encouragement. "Buy Eugene-made goods" is a rule that should never be deviated from, except in regard to lines that are not produced here. Keep the money at home and it will be constantly circulating and some of it will find its way into the pockets of every man, woman and child in the community.

Eugene is a city of schools and churches, the seat of Oregon's splendid university, with an enrollment of several hundred of the flower of the state's youth; boys who have proved themselves the athletic champions of the coast, and girls who are destined to add to Oregon's wide fame for the beauty and intelligence of its womanhood. Then there are the Divinity school and a Catholic academy, and perhaps best of all, a splendid public school system, supplemented by a high school course. The schools are commodious and well-arranged, with methods of instruction and discipline unexcelled in a city of similar size in the United States. To the homeseeker who would rear his family in the environments of education and refinement, Eugene has superior inducements to offer.

Irrigation will no doubt be an important factor in the future development of the Willamette valley. Naturally a productive soil, with climatic conditions all that can be desired, there is still an opportunity to greatly increase yields by artificial watering. Alfalfa growing, the great promoter of bairying operations, is best carried on in the irrigated sections of the country, and intensified farming is proving very profitable in the semi-arid states since irrigation was introduced there. For this reason the movement on the part of the government toward experimental irrigation next year near Eugene will be watched with much interest and solicitude.

The Y. M. C. A. organization of Eugene is preparing to erect a suitable building next year, and is entitled to liberal financial assistance. Nothing is of greater value to a city than the work done by this organization when thoroughly equipped in all its branches. Its influence over young men being always for good, mentally, morally and physically.

A TYPOGRAPHICAL ERROR.

The cut labelled "Booth-Kelly mill at Springfield" is incorrect. This mill of the company is located at Wendling.

A DANDY FOR BURNS.

Dr. Bergin, Pana, Ill., writes: "I have used Ballard's Snow Liniment; always recommended it to my friends, as I am confident there is no better made. 'It is a dandy for burns.' Those who live on farms are especially liable to many accidents, cuts, burns and bruises, which heal rapidly when Ballard's Snow Liniment is applied. It should always be kept in the house, for cases of emergency." 25c., 50c., and \$1. Sold by Linn Drug Co.

SMOKERS KNOW

We have a reputation with lovers of tobacco for the fine smoking qualities our goods have. We carry many brands, plug cut, granulated and blends. Our five-cent cigars make a hit—nothing like them elsewhere in Eugene for less than ten cents.

Buy your candies, oranges, bananas, etc., from us. Quality guaranteed better than elsewhere.

New Cure for Epilepsy.

J. B. Waterman, of Watertown, O., daughter, afflicted for years with epilepsy, was cured by Dr. King's New Life Pills. She has not had an attack for over two years. Best body cleansers and life giving tonic on earth. 25c at Linn Drug Co.

FOOTBALL PLAYERS AT EUGENE THEATER.

The management of the Eugene theater has extended the courtesies of the theater Monday night to the football teams of the University of Oregon and the high school, to witness the musical comedy of "The Governor's Wife."

As these two teams are best in their respective classes in the Pacific Northwest this year, it will be worth one's time to see them alone. The university team will occupy the right hand boxes and the high school team the left hand.

The boxes will be decorated in their respective colors, which will have a great tendency to make this night a university and high school night.

Not only will the main teams be there, but also subs, coaches, managers and trainers.

The Ideal Family Laxative

Is one that can be used by the entire family, young and old, weak and strong, without any danger of harmful effects. It should have properties which insure the same dose, always having the same effect, otherwise the quantity will have to be increased and finally lose its effect altogether. These properties can be found in that old family remedy, Brandreth's Pills, because its ingredients are of the purest herbal extracts, and every pill is kept for three years before being sold, which allows them to mellow. We do not believe there is a laxative on the market that is so carefully made.

Brandreth's Pills are the same fine laxative tonic pill your grandparents used. They have been in use for over a century, and are sold in every drug and medicine store, either plain or sugar-coated.

KEEP MONEY AT HOME.

To the Builder:—Do not send any money to San Francisco for Portland for plastering here as the Eugene Chemical Works will furnish the same. By dropping a postal card your wants will be immediately filled, and as good and clean as you ever got them filled before.

HANDKERCHIEFS AND APRONS.

CHAMBERS' HARDWARE.

TWICE-TOLD TESTIMONY.

Eugene People Are Doing All They Can for Fellow Sufferers.

Eugene testimony has been published to prove the merits of Doan's Kidney Pills to others in Eugene who suffer from bad backs and other kidney ills. Least any sufferer doubt that the cures made by Doan's Kidney Pills are thorough and lasting, we produce confirmed proof—statements from Eugene people saying that the cures they told of years ago were permanent. Here's a Eugene case:

A. S. Powers, of 154 West Eleventh street, Eugene, Ore., says: "I can only repeat what I said in the early part of 1903 regarding the great benefit my brother found through the use of Doan's Kidney Pills, procured at W. L. Delano's drug store. He had been a sufferer from backache and kidney complaint for a number of years. The worst symptoms were pain in the back and irregularity of the kidney secretions. Nothing ever helped him until he got Doan's Kidney Pills. He used them with the greatest benefit and knowing his satisfactory experience with them I have been well pleased to recommend the remedy on every occasion."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

A Western Wonder.

There's a hill at Bowie, Texas, that's twice as big as last year. This wonder is W. L. Hill, who has grown from a weight of 90 pounds to over 180. He says: "I suffered with a terrible cough and doctors gave me up to die of consumption. I was reduced to 90 pounds when I began taking Dr. King's New Discovery for consumption, coughs and colds. Now, after taking twelve bottles, I have more than doubled my weight and am completely cured." Only sure cough and cold cure. Guaranteed by Linn Drug Co. 50c and \$1. Trial bottle free.

Outwits the Surgeon.

A complication of female troubles, with catarrh of the stomach and bowels, had reduced Mrs. Thos. S. Austin, of Leavenworth, Indiana, to such a deplorable condition that her doctor advised an operation; but her husband, fearing fatal results, postponed this to try Electric Bitters, and to the amazement of all who knew her this medicine completely cured her. Guaranteed cure for torpid liver, kidney disease, biliousness, jaundice, chills and fever, general debility, nervousness and blood poisoning. Best tonic made. Price 50c at Linn Drug Co. Try it.

THE TEXAN WONDER

Cures all kidney, bladder and rheumatic troubles; sold by all druggists or two months' treatment by mail for \$1. Dr. E. W. Hall, 2926 Olive street, St. Louis, Mo. Send for testimonials. Sold by Hull's Drug Store, d w tf
