ATTEMPT TO SELL THE GREAT NORTHERN WINE

Albany Stockholders Work to Prevent the Deal - Scheme Discovered to Sell Property Without Knowledge of Stockholders. Meeting Held in Albany

Stockholders in the Great Northern Development Company are worried because if \$1100 is not raised by them by the 23d of this month their mine will be sold, says the Albany Herald. Albany residents are interested in this mine to the extent of about \$20,000, which sum is invested in shares of stock divided among a number of prominent citizens. The remainder of the stock is held by residents of Eugene, Halsey, Brownsville and other places in Linn and Lane counties. According to one of those interested in the mine, the sum of \$1100 was owing to Samuel Mahon, of Eugene, for certain services rendered. Unknown to a majority of the stockholders, it is said that Mahon secured a judgment for the amount due, and the notice of the proposed sale of the mine was published in one of the small country weeklies in Lane county. By this means, it is said, those having the deal in charge hoped the notice would escape the observation of the stockholders and the mine would be sold to some person in on the scheme. By chance, however, the notice fell into the hands of one of the stockholders, who at once communicated with the officers of the Great Northern.

Last week a meeting of the directors and officers was called, and an effort made to raise the required sum of money, but nothing came of the meeting. Yesterday evening another meeting was held in this city, but what the result was could not be ascertained. The officers of the association are: President, W. A. Templeton, Halsey; secretary, J. H. Glass, Eugene; vice president, Scott Standish, Eugene.

The Great Northern Development Company is capitalized at \$1,000,000. The shares were sold at 25 cents apiece, Albany people owning about 80,000 shares. The mine is situated in Lane county, in the section now in dispute between Linn and Lane.

ALBANY HAS NEW PASSENGER TRAIN

Beginning this noon Albany is to have a new passenger train, which will insure regularity in travel between Albany and Portland, at least for awhile. It is to be hoped that it is permanent. The noon train, No. 11, from Portland, now arrives in two sections. The first section will always arrive promptly at 12:10, doing local business, remaining until 1:57, when it will return to Portland as the first section of No. 12, taking care of the local traffic along the way. These trains will insure promptness and will be a big thing, particularly during the session of the state legislature. It is not known how permanent it will be.—Yesterday's Albany Democrat.

NEW DISEASE IS BROUGHT TO LIGHT IN ST. LOUIS

St. Louis, Jan. 16.—Probably the most unusual feature of the excitement that has been created by L. T. Cooper's visit to this city is the removal of parasites, or tapeworms, by his preparations.

During the early part of Cooper's stay in St. Louis individuals who were taking his "New Discovery," as it is called, brought either to himself or to physicians throughout the city, immense parasites that had left the system after using the medicine.

Many of these people were frightened, and cases of this sort became so numerous that Cooper finally made the following statement for publication:

He said: "In every city I visit these things are brought to me within a few days after my medicine is sold in the city. They are what is known as the tapeworm, and grow to enormous size.

"Few indeed realize how prevalent these creatures are. I think I have been the first to demonstrate what a large factor they are in the poor health of this generation. I believe that fully one-half of the chronic stomach trouble that is so universal is caused by these parasites.

"Individuals may have them for years and not be aware of the reason for continued ill-health, but attribute it to many different diseases, when in reality one of these creatures is robbing them of this vitality.

These parasites are taken into the system in uncooked food or rare meat in the form of an egg, which hatches almost immediately. People suffering from them experience a feeling of lassitude and are extremely nervous. The action of the "New Discovery" seems to be so fatal to these great worms that in most cases a few doses of the medicine drives the creatures from the system. I will have hundreds of them brought to me before I leave the city."

This gressome prophecy has been amply verified, for not only hundreds, but thousands of St. Louis people have been relieved of one of these fearful parasites since taking Cooper's preparations, and the entire city has been aroused by the fact.

Some of these parasites are of such enormous size as to startle the imagination. The statement of Father John Baptist Arnolds, one of the best known and best beloved priests in this section of the country, verifies this. His statement, among others given to a reporter, was as follows: "For years I had suffered from what I called a general run-down condition of the system caused by stomach trouble. I felt extremely tired all the time, and it was a great effort to attend to my duties. I would wake up in the morning feeling as worn out as when I went to bed. If I stood for any length of time I would have a pain in the lower part of my back and would have to sit down.

"I was very nervous and depressed in spirits, and was troubled with dizzy spells. I would see spots before my eyes when I stooped over and raised up quickly. I had a very irregular appetite, and would have palpitation of the heart after ascending the stairs.

"The talk about Mr. Cooper's preparations was so universal that I decided to try some, although I do not take patent medicines as a rule. I took four doses of the "New Discovery," as it is called, and a tape worm about ninety feet in length left my system.

"I am very thankful for this great relief, and I know now what has been the cause of all my sufferings."

This story of Father Arnolds is a fair example of the experience of an astonishing number of St. Louis people, and Cooper's preparations are selling in immense quantities. It is now estimated that he has sold one hundred thousand bottles to date in this city alone, and the sale is still increasing.

DOCTORS WANT CITY WATER COMMISSION

At the last meeting of the Lane County Medical Society a number of important matters were acted upon, among them being the recommendation that the city authorities provide for a permanent commission to supervise the city water supply.

A motion was also adopted that it be the sense of the meeting that the city water be examined each week and the report published, and in view of the fact that a great many wells about the city have become contaminated by reason of the high water and that the company's well is not secure from surface water, that all water for domestic purposes be boiled before using.
